

EXPLANATION NOTE FOR THE FORUM ON TRANSNATIONAL TRANSPORT CORRIDORS

There will be a Forum at the end of the special panels each of which will focus on a different dimension of the transnational transport corridors. The main aim of this Forum is to accumulate all discussions taken place in each panel and give a special opportunity to the audience, who are not able to attend panels held concurrently, to be informed about the discussions.

At the outset, the moderators of the special panels will brief (5 min.) the audience on the main discussions taken place in the respective panel. Accordingly, the audience will be able to make comments and raise questions on the various dimensions of transnational transport corridors. This forum is expected to facilitate the exchange of ideas among the participants.
