(The list of participants is attached as Annex I.)
Agenda Item 1: Opening Session

4. Following the recitation from the Holy Qur'an, H.E. İbrahim ŞENEL, Vice President of Strategy Budget of the Presidency of Republic of Turkey, inaugurated the Meeting.

5. In his statement, H.E. ŞENEL, firstly touched upon the adverse effects of the COVID-19 pandemic and expressed his condolences for the loss of numerous lives in both the Islamic Countries and the World at large due to this insidious disease. He also stated that the Follow-up Committee of the COMCEC has been organized in a virtual-only format for the first time due to the circumstances arising from the pandemic. He expressed his wishes that the Meeting would successfully review and monitor the implementation of the COMCEC resolutions, programs and projects, and set the agenda of the COMCEC Ministerial Session.

6. H.E. ŞENEL pointed out that the pandemic already caused the most severe global economic crisis after the "Great Depression" which happened 90 years ago. However, he stressed that it is much worse than any previous economic crisis as the pandemic has also claimed the lives of nearly 1.1 million people so far and inflicted millions of others.

7. He touched upon the global trade and stated that production and consumption declined considerably due to the measures taken to prevent or to slow down the contamination of the Virus. He pointed out that the global merchandise trade volumes declined by 14.3 percent in the second quarter of 2020 compared to the previous period. He underlined the importance of reduction of tariffs and the elimination of non-tariff barriers to enhance international trade flows during such crises.

8. He also mentioned about negative impacts of the pandemic on the food supply and demand. He expressed that according to the State of Food Security and Nutrition in the World (SOFI) 2020 Report, approximately 750 million people were exposed to severe levels of food insecurity in 2019. He also expressed that according to the estimations, COVID-19 would add between 83 and 132 million more to the total number of undernourished people in the world in 2020. Therefore, supply chains need to be strengthened especially for essential items such as health supplies and food.

9. H.E. ŞENEL expressed that businesses in service sectors are also seriously affected by lockdowns in various areas such as transport, travel, and tourism. He touched upon the scenarios indicating that the potential shock would cause between a 60-80 percent decline in the international tourism economy in 2020. The economic constriction could cause large-scale job losses if demand does not recover soon. Rising unemployment also likely to worsen the risk of poverty and deprivation for millions.
10. Moreover, H.E. ŞENEL underlined that early operationalization of the TPS-OIC is crucial for enhancing trade among the OIC member countries. He invited the concerned member countries to fulfill the obligations arising from the TPS-OIC Agreements so that the System could be effectuated. He added that the trade financing and export guarantee mechanisms offered by IDB and various trade fairs and events organized by ICDT and ICCIA should be benefitted extensively by the Member Countries.

11. H.E. ŞENEL also touched upon another important project of the COMCEC, the OIC Arbitration Center in Istanbul. Mentioning that significant progress has been made in recent years regarding the establishment of the Center in Istanbul, he stated that there are few remaining works to be completed for the operationalization of the Center. He requested the relevant institutions to expedite the formation of the Board of Trustees and the Board of Directors of the Center. He stressed the importance of the Arbitration Center in opening new avenues for the private sector of the member countries especially for enhancing the intra-OIC trade by providing trustworthy, quick, and efficient settlement of trade and investment disputes.

12. Underlining the successful organization of the COMCEC Working Group Meetings in a virtual-only format during the pandemic, H.E. ŞENEL indicated that the COMCEC Project Funding Mechanism (CPF) is a useful instrument for implementing the policy recommendations formulated by the Working Groups.

13. H.E. ŞENEL also touched upon two new programs initiated by the CCO namely COMCEC COVID Response (CCR) and COMCEC Al-Quds Program. He pointed out that the CCR Programme will specifically focus on supporting member countries in tackling negative impacts of the pandemic especially on the economy. He added that the Al-Quds Program concentrates on destination development and management as well as community based tourism in the city of Al-Quds.

14. H.E. ŞENEL concluded his remarks by wishing that all the deliberations during the 36th Meeting of the Follow-up Committee of the COMCEC would contribute to peace, prosperity and welfare of the Islamic Ummah.

(The text of the Statement of H.E. İbrahim ŞENEL is attached as Annex II.)

15. The message of H.E. Dr. Yousef AL-OTHAIMEEN the Secretary General of the OIC, was read out by Mr. Naghi JABBAROV from the Economic Affairs Department of the OIC General Secretariat. In his message, H.E. AL-OTHAIMEEN expressed his deepest appreciation to the Government of the Republic of Turkey and the COMCEC Coordination Office for the well preparations made for this virtual meeting.
16. H.E. AL-OTHAIMEEEN highlighted the various economic and social impacts of COVID-19 in the OIC Member Countries. In this regard, H.E. AL-OTHAIMEEEN underlined that the OIC has mobilized the full capacity of the Organisation and its institutions to support member countries in developing and implementing national plans to cope with the COVID-19. To that end, the IDB Group has launched a US$2.3 billion Strategic Preparedness and Response Programme for COVID-19 pandemic aiming at supporting our member states’ efforts to mitigate the impact of the pandemic. Lastly, H.E. AL-OTHAIMEEEN commended the efforts of the COMCEC and other OIC institutions for conducting several projects and training and capacity building programmes on various aspects of the economy and called upon the OIC countries with available excess sources to assist other OIC countries, especially the LDCs in order to enhance their capabilities to mitigate the socio-economic impact of the COVID-19.

(A copy of the text of the message of H.E. Dr. Yousef A. AL-OTHAIMEEEN is attached as Annex III.)

17. The Meeting was also addressed by the Head of Delegation of the State of Kuwait, Dr. Ghazi ALAYASH Assistant Undersecretary For Economic Affairs – The Ministry of Finance He expressed his thanks and appreciation to the Government of the Republic of Turkey for hosting and COMCEC Coordination Office for organizing the Meeting. In his speech, Mr. ALAYASH highlighted the adverse effects of the COVID-19 especially in the fields of trade and tourism sector of the member countries. He stated that the economic crisis caused by the COVID-19 pandemic is much severe than 2008 world economic crisis. He emphasized on the importance of e-commerce to mitigate the negative impacts of the pandemic.

18. The Committee decided to convey its deepest condolences for the demises of late Emir of State of Kuwait H.E. Sheikh Sabah AL-SABAH, late President of the ICCIA H.E. Sheikh Saleh KAMEL, and the late Assistant Secretary-General of the OIC in Charge of Economic Affairs, H.E. Ambassador Ahmad SSENYOMO.

She also emphasized the importance of fighting in unity and solidarity against the adverse effects of the COVID-19 Pandemic.

166. Afterwards, Ms. Nor Hasnah BADRODDIN, Head of Delegation of Malaysia, expressing her thanks and appreciation to the Republic of Turkey and the COMCEC Coordination Office for the successful conduct of the meeting, she wished mercy to those who lost their lives due to the
pandemic. She also stated that the social and economic problems caused by the pandemic can be overcome with the strong cooperation and solidarity of the Islamic Countries.

167. In his closing statement, H.E. Mehmet Metin EKER expressed his sincere gratitude for the active participation of all delegations and their valuable contributions to the deliberations.

168. H.E. EKER expressed his sadness for the losses due to the COVID-19 pandemic and sent his wishes for all the patients including those who suffer from the coronavirus to recover soon. H.E. EKER also underscored the profound adverse impacts of the pandemic on the economies and highlighted the importance of the cooperation efforts including the instruments under the auspices of the COMCEC.

169. H.E. EKER touched upon the efforts under the COMCEC Working Groups as well as the COMCEC Project Funding and invited all the member countries to continue actively contribute to and benefit from these instruments.

170. H.E. EKER expressed that all the member countries and relevant OIC institutions will contribute at the highest level to the two new programs initiated by the COMCEC Coordination Office namely the COMCEC COVID Response (CCR) and COMCEC Al-Quds Program. H.E. EKER wished every success to all partners in the implementation of these programs.

171. H.E. EKER concluded his statement by expressing his thanks to the Members of the Follow-Up Committee, the OIC General Secretariat, Rapporteur, representatives of the OIC Institutions, the COMCEC Coordination Office, interpreters, translators and other staff taking part in organization of the Meeting for their efforts which helped rendering the meeting a success.

OPENING STATEMENT BY H.E. İBRAHİM ŞENEL,
VICE PRESIDENT OF THE PRESIDENCY OF STRATEGY AND BUDGET
PRESIDENCY OF THE REPUBLIC OF TURKEY
THIRTY SIXTH MEETING OF THE FOLLOW-UP COMMITTEE OF THE
COMCEC
(Ankara, 20 October, 2020)

As-Selamu Alaikum,
Bismillahirrahmanirrahim.
Esteemed Members of the Follow-up Committee,
Distinguished Guests,

It is a great pleasure for me to meet with you on the occasion of the 36th Meeting of the Follow-up Committee of the COMCEC. I would like to welcome you all with my heartfelt regards.

As you all know, we are going through an extraordinary difficult time due to the COVID-19 pandemic which has paralyzed every aspects of life globally. At the outset, I would like to express my deepest condolences for the loss of numerous lives both in the Islamic Countries and the World at large due to this insidious disease. I wish all the ailing brothers and sisters to recover as soon as possible. Our Creator and Sustainer, Allah the Almighty bestowed the humanity the genius and resources to cope with and overcome such unexpected crises. If we use our intellect and resources intensely at the right direction, a safe and effective treatment and prevention of the disease would soon be possible. It goes without saying that the treatment or the vaccine need to be easily accessible for all countries and all people so that these difficult days would be left behind.
Under the circumstances arising from the pandemic, we had to organize this meeting of the Follow-up Committee virtually. The Follow-up Committee fulfills a significant duty in terms of reviewing and monitoring the implementation of the COMCEC resolutions, programs and projects, and setting the agenda of the COMCEC Ministerial Session. I believe that this virtual meeting, which we will experience for the first time for the Follow-up Committee, will be successful and I wish you all a fruitful meeting in advance in your deliberations.

Distinguished Guests,

The COVID-19 pandemic is not just a health problem, but it is a colossal humanitarian crisis affecting almost all socio-economic aspects of life. The pandemic already caused the most severe global economic crisis after the "Great Depression" which happened 90 years ago. But there is one aspect we should never forget. As this COVID pandemic has also claimed the lives of nearly 1,1 million people so far and inflicted millions of others, it is in fact much worse than any previous economic crisis.

Production and consumption declined considerably due to the measures taken to prevent or to slow down the contamination of the Virus. Global merchandise trade volumes declined by 14.3 percent in the second quarter of 2020 compared to the previous period. Considering these figures, I believe that the reduction of tariffs and the elimination of non-tariff barriers are even more important during such crises to enhance international trade flows. In this respect, international cooperation is needed more than ever to keep global trade alive. For increasing global trade and to getting out of this crisis quickly, we have to benefit wisely from the opportunities of international cooperation and latest digital technologies.

Distinguished colleagues,

The COVID-19 pandemic is also directly affecting the food systems through its impacts on food supply and demand. The State of Food Security and Nutrition in the
World (SOFI) 2020 Report reveals that approximately 750 million people were exposed to severe levels of food insecurity in 2019. According to estimations, COVID-19 would add between 83 and 132 million more to the total number of undernourished people in the world in 2020. Therefore, supply chains need to be strengthened especially for essential items such as health supplies and food.

Businesses in service sectors are also seriously affected by lockdowns in various areas such as transport, travel and tourism. To illustrate the severity of the crisis, scenarios indicate that the potential shock would cause between a 60-80 percent decline in the international tourism economy in 2020. The economic constriction could cause large-scale job losses if demand does not recover soon. Rising unemployment also likely to worsen the risk of poverty and deprivation for millions. It is estimated that the pandemic is likely to cause the first increase in global poverty since 1998 and will push 49 million people into extreme poverty in 2020.

Esteemed Members of the Follow-up Committee,

The global context requires close and strong cooperation among the OIC Member Countries. As the Islamic Ummah, while exerting efforts to enhance our production and increase our exports, we also need to take steps to enhance the intra-OIC trade. I sincerely believe that investing in each other and establishing stronger commercial ties among our nations will bring considerable gains to all of us in the long run and contribute to the welfare and peace in our region. I would like to express that, as the OIC members, we have significant tools that can help us to cope with such hard times if we can benefit from their potential properly.

We could reap the fruits of the TPS-OIC (Trade Preferential System among the OIC Member States) only once it becomes fully operational. The legal basis for the TPS- OIC was completed in 2011. We have already reached the required number of member countries having submitted their concession lists. However, there are only few pending issues to make this System Operational. Our relevant authorities will discuss the issues
regarding the Implementation of the TPS-OIC in a Virtual Consultative Meeting next week. I would like to invite the concerned member countries to fulfil the obligations arising from the TPS-OIC Agreements so that we can effectuate the System as soon as possible. Likewise, we have to extensively benefit from the trade financing and export guarantee mechanisms offered by IDB and various trade fairs and events organized by ICDT and ICCIA.

I would also like to touch upon another important project of the COMCEC, the OIC İstanbul Arbitration Center. Significant progress has been made in recent years regarding the establishment of the Center in İstanbul. At this stage, for the operationalization of the Center, there are few remaining works to be completed. I would like to request the relevant institutions to expedite the formation of the Board of Trustees and the Board of Directors of the Center. So that, InshaAllah, we will be able announce launching the İstanbul Arbitration Center soon. I believe that this Arbitration Center will open new avenues for our private sector especially for enhancing the intra-OIC trade by providing trustworthy, quick and efficient settlement of trade and investment disputes.

Seizing this opportunity, I would like to express my deepest condolences and heartfelt sympathies to the family of His Excellency Late Salih Kamel who passed away last May. We respectfully remember him for his valuable services to the Islamic Ummah. I would also like to congratulate His Excellency Abdullah Salih Kamel for his election as the new President of Islamic Chamber of Commerce, Industry, and Agriculture (ICCIA). I believe that H.E. Kamel will contribute at the highest level to the cooperation efforts among the Islamic countries as his deceased father honorable Şeyh Salih Kamel did for decades.

Distinguished Guests,

During the pandemic period, the COMCEC Working Groups have successfully held their Meetings virtually. In addition to the regular Working Group Meetings, three consultative meeting have been realized, again in virtual-only format, in June-July 2020, in the areas of trade, tourism and agriculture. The Working Groups have come up with crucial recommendations, which will constitute important inputs for their programs in the upcoming years.
All the policy recommendations developed by the Working Groups provide the basis for concrete policy actions in our member countries. While utilizing national resources and human capital to realize the policy recommendations, we can also benefit from the COMCEC Project Funding Mechanism (CPF). CPF is a useful instrument for implementing the policy recommendations. 22 projects were successfully completed in 2019 within the COMCEC Project Funding Mechanism. Moreover, under the 7th Call for Project Proposals, another 22 projects were selected to be financed by the CCO in 2020. Implementation of these projects were postponed to next year upon the request of project owners due to international travel restrictions and delays arising from the COVID-19 pandemic. Furthermore, the CCO has made 8th Call for Projects in September, 2020 and many member countries have submitted their new project proposals. I would like to express our thanks and gratitude for the growing interest of the Member Countries to the CPF.

In addition, the CCO has initiated two new programs this year for enhancing cooperation among member countries. The first program we developed is COMCEC COVID Response (CCR). The Programme will specifically focus on supporting member countries in tackling negative impacts of the pandemic especially on the economy. The Project Call under this program has been made last week and CCO will organize a training program for the relevant focal points tomorrow to introduce the novelties and guidelines of this program. I am of the view that this program is quite timely and critical to address common challenges faced by our brotherly countries amid COVID-19 Pandemic. Seizing this opportunity, I would like to inform you that Republic of Turkey on bilateral basis, has supported in total 155 countries and 8 international institutions during the pandemic with medical equipment, grant and cash aid etc. Likewise, we have extended assistance to 44 brotherly OIC member countries in the form of medical equipment and grant aid etc.
The second program we launched this year is COMCEC Al-Quds Program which concentrates on destination development and management as well as community based tourism in the city of Al-Quds. Two projects under this program are now being implemented and several other projects will be carried out between 2021 and 2022. I hope this program will contribute to the economic and social development of Palestine, particularly the City of Al-Quds Al-Sharif which always stays at the core of our hearts.

With these words, I would like to conclude my remarks by wishing that all your deliberations during the 36th Meeting of the Follow-up Committee of the COMCEC to contribute to peace, prosperity and welfare of the Islamic Ummah.

May the Peace, Mercy and Blessing of Allah be Upon You.

III
MESSAGE OF H.E. DR. YOUSEF BIN AHMAD AL-OTHAIMEEN
SECRETARY GENERAL OF THE ORGANISATION
OF ISLAMIC COOPERATION (OIC)

THIRTY SIX MEETING OF THE FOLLOW-UP
COMMITTEE OF THE COMCEC
(VIDEOCONFERENCE PLATFORM, 20-21 OCTOBER 2020)

H.E. İbrahim ŞENEL, Deputy President of the Strategy
and Budget of the Presidency of the Republic of Turkey,
Your Excellencies, Ministers and Heads of Delegation
Distinguished Ladies and Gentlemen

Assalamu Aleykum wa-Rahmatullahi wa-Barakatihu.

It is indeed a great pleasure, for me to address the 36th Follow-up Committee Meeting of the OIC Standing Committee for Economic and Commercial Cooperation (COMCEC). Allow me to, first and foremost, express my deepest appreciation to the Government of the Republic of Turkey and the COMCEC Coordination Office for the arrangements made for this virtual meeting.

This Follow-up Committee Meeting is holding in the midst of COVID-19 pandemic and we are facing severe challenges to overcome socio-economic and humanitarian crisis caused by the pandemic. In response to the pandemic, OIC Member States have taken strict measures to prevent the outbreak, to ensure the proper functioning of the healthcare system and protect the most vulnerable. As we all know, the pandemic is affecting all economic sectors and segments of the population and unemployment and poverty levels are increasing dramatically around the world.
In this context, I wish to inform that the Extraordinary Meeting of the OIC Executive Committee at the Level of Foreign Ministers on the Consequences of the COVID-19 Pandemic was held virtually on 22 April 2020. The meeting called for global COVID-19 response efforts to continue in a spirit of solidarity, drawing on scientific research and large-scale coordination, while scaling-up national preparedness and response measures of prevention and alleviation of the devastating effects of the pandemic.

In this regard, the OIC has mobilized the full capacity of the Organisation and its institutions to support our countries in developing and implementing national plans to cope with the COVID-19 and to mobilize OIC-wide coordinated and coherent response to the pandemic and its adverse social, economic and financial impact on societies. It is in this context that I would like to commend the Islamic Development Bank (IsDB) Group for launching a US$2.3 billion Strategic Preparedness and Response Programme for COVID-19 pandemic, which is aimed at supporting our member states’ efforts to prevent, contain, mitigate and recover from the impact of the pandemic. The SESRIC, ICDT, ISF, COMCEC Coordination Office, IOFS, SMIIC and ICCIA have also implemented several projects and training and capacity building programmes on various aspects on economy for the benefit of our countries.

In addition, the OIC prioritized mobilization of resources to the needs of our Least Developed Countries (LDCs) in order to enable them to cope with the pandemic and facilitate economic recovery. In this regard, I would like to point out that I urged OIC countries with available excess sources to assist other OIC countries, especially the LDCs in order to enhance their capabilities to mitigate the socio-economic impact of the COVID-19. In this connection, the OIC General Secretariat and the Islamic Solidarity Fund (ISF) launched a joint Initiative to assist Member States to fight the pandemic. The ISF has provided US$ 1 million emergency assistance to Member States, especially OIC LDCs. In this regard, the ISF also opened an account in order to receive donations from the Member States. I also addressed letters to the leadership of the International Monetary Fund and World Bank to consider easing debt burden of LDCs, and providing all possible assistance, including rescheduling of the debt payments, concessional loans and basic support to OIC Member States to combat the consequences of the pandemic.
While stopping the pandemic and saving lives remain the priority for all of us, promoting solidarity, cooperation, complementary and mutual support among our member states becomes more important than ever. Accordingly, OIC General Secretariat and its relevant institutions will continue to work closely with its member states to further a collaborative response to the COVID-19 and facilitate economic recovery in our countries. I wish therefore to express my sincere appreciation to the relevant OIC institutions, which have continued to collaborate with the General Secretariat for the execution of the various projects under the socio-economic agenda of OIC.

I wish you a very successful meeting and look forward to the outcome of your deliberations.

Wassalamu Alaykum wa-Rahmatullahi wa-Barakatihu.

- Any Other Business

**Implementation of the COMCEC Strategy: Contributions of the OIC Institutions to the COMCEC Strategy**

- Emphasizing the significance of the contributions of the OIC Institutions to the realization of the COMCEC Strategy and the COMCEC Ministerial Policy Recommendations, the Committee reviewed the completed and planned activities of the relevant OIC Institutions directly serving to the implementation of the COMCEC Ministerial Policy Recommendations (Group A activities) and activities serving to the objectives of COMCEC Strategy (Group B activities) for the period of December 2019-October 2020 as well as for the period November 2020-November 2021 based on the cooperation areas, namely trade, transport and communications, tourism, agriculture, poverty alleviation and financial cooperation.

*(Group A and Group B activities are attached as Annex 1.)*

- The Committee was informed by the CCO that in terms of Group A, 70 activities were reported as completed by the OIC Institutions. In terms of cooperation areas, approximately 35% of the activities were implemented in trade domain followed by tourism and
OIC/COMCEC-FC/36-20/REP

financial cooperation. The Committee was also informed that with respect to types of the activities, the Institutions specially focused on trainings and technical assistance programs (33 %), workshops (22%) and meetings (18%).

- In terms of Group B activities, CCO representative informed the Committee that 114 activities have been completed since the 35th Session of the COMCEC and 116 activities are planned to be organized in the upcoming period by the respective OIC Institutions. Most of the completed and planned activities were reported in the area of trade.

- The Committee underlined the importance of contributions of the OIC Institutions to the implementation of the COMCEC Ministerial Policy Recommendations as well as realization of the objectives of the COMCEC Strategy. In this respect, the Committee commended the efforts of SESRIC in contributing to the implementation of the COMCEC Ministerial Policy Recommendations through specifically designed activities such as capacity building and training programmes in the six cooperation areas. The Committee also appreciated the efforts of other OIC institutions for the implementation of the policy recommendations and requested them to intensify their efforts and consider the possibility of organizing joint activities to that end.

- The Committee also noted the proposal that enhancing production capacity and innovation in the Member Countries should be the overarching goal of OIC institutions in their activities e.g. among others, by launching new windows for providing concessional loans to production and trade of hi-tech and technology intense products in OIC member countries.

- The CCO informed the Committee about the current developments regarding the projects supported by the COMCEC Coordination Office under the COMCEC Project Funding and also informed the participants that upon the request of project owners, most of the projects were postponed to 2021 for implementation. The Committee appreciated the efforts of the relevant OIC Institutions in submitting projects through the COMCEC Project Funding in the 8th project call made in September 2020. Moreover, the Committee invited the relevant OIC Institutions to utilize this mechanism more efficiently for the realization of the COMCEC Ministerial Policy Recommendations.
• Regarding the recently established e-platform (http://activities.comcec.org) to monitor the implementation of the planned activities of the OIC Institutions, the Committee was informed by the CCO about the details of this e-platform. In this respect, the Committee commended the efforts of the CCO and welcomed the launch of the said e-platform. Underlining the importance of the e-platform for simplifying and standardizing the reporting process, the Committee requested the CCO to prepare a brief guideline and organize a training session for the OIC Institutions. Furthermore, the Committee requested the OIC Institutions to convey their further feedbacks regarding the e-platform to the CCO and continue reporting their activities through the said platform.

**OIC Institutions’ Efforts in combatting COVID-19 Pandemic**

• The Committee was informed by the OIC Institutions about their activities / programs aiming to help member countries in their efforts towards mitigating the adverse effects of the COVID-19 Pandemic. The Committee commended the efforts of the OIC Institutions, particularly, among others, “the COMCEC COVID-19 Response Program” launched by the CCO; publication titled “Socio-Economic Impacts of Covid-19 Pandemic in OIC Member Countries,” and various training and capacity building programs conducted by SESRIC; “Strategic Preparedness and Response Program for the COVID-19 Pandemic” initiated by the IsDB Group; the webinars on the impact of Covid-19 on intra-OIC trade and investment flows organized by the ICDT in collaboration with OIC and International Institutions; various activities (financing support, webinars, support for equipment and capacity development, harmonization of standards, etc.) undertaken by ITFC to assist Member Countries’ fight against COVID-19 pandemic.

**Possible Contributions of the OIC Institutions to the Implementation of the SDGs in the OIC Member States**

• The Committee was informed by the SESRIC of the preparations regarding the annual report on the progress at the OIC level towards achieving the prioritized SDGs as decided by Member States to be submitted to the 36th Ministerial Sessions of the COMCEC.
The Committee was informed by the CCO that in line with the relevant resolution of the 35th COMCEC Session, “the List of Activities of the OIC Institutions Related to the SDGs for the period of 2020 and 2021” will be compiled by the CCO and submitted to the 36th COMCEC Session. The Committee requested the OIC Institutions to convey their realized and planned activities related to the SDGs to the CCO well in advance of 36th COMCEC Session. The Committee also requested the SESRIC and CCO to consider the possibility of establishing an online platform to better follow-up of the SDG-related activities of the OIC Institutions.

Implementation of the Economic Cooperation Section of the OIC-2025 Programme of Action

The importance of the contributions of the OIC Institutions to the implementation of the OIC-2025 Programme of Action was highlighted.

The Proposal on the “OIC Business Intelligence Programme”

The Committee was informed by the ICIEC (IsDB Group) on the preparations towards the launching of “the OIC Business Intelligence Programme” initiative. The Committee noted the recent efforts and requested the ICIEC in cooperation with SESRIC to finalize the technical preparations for the operationalization of the Program.

Possible Contributions of the OIC Institutions for the Benefit of Palestinian People/ Al-Quds Sharif as well as Geographically Distant OIC Member Countries and Observer Countries

The Committee was informed by the OIC Institutions regarding their activities, projects and existing and newly launched programs for the benefit of Palestinian people and Al-Quds Sharif and geographically distant OIC member countries such as Guyana and Suriname and Observer Countries. The Committee appreciated the efforts of the OIC Institutions and requested them to further enhance their possible contributions, including the possible joint activities and programmes.

Any Other Business

The Committee Meeting ended with a vote of thanks.

THE POLICY RECOMMENDATIONS HIGHLIGHTED BY
15TH MEETING OF THE COMCEC TRANSPORT AND
COMMUNICATIONS WORKING GROUP

The COMCEC Transport and Communications Working Group (TCWG) successfully held its 15th Meeting on July 7th, 2020, in a virtual-only format, with the theme of “Pricing of Transport Infrastructure in the OIC Member Countries”. During the Meeting, TCWG made deliberations on the policy recommendations related to the pricing of transport infrastructure. The policy recommendations were formulated by taking into consideration the research report titled “Pricing of Transport Infrastructure in the OIC Member Countries” and the responses of the Member States to the policy questions sent by the COMCEC Coordination Office. The policy recommendations are as followings:

Policy Recommendation I: Developing contemporary transport infrastructure pricing policies and making use of implementation instruments such as PPPs, where possible, and public transport operations for a well-functioning transport system.

Rationale:
An enabling legal framework accompanied by an integrated transport policy is of particular importance for the success of transport infrastructure pricing systems. This would also facilitate the effective participation of the private sector in the development of transport infrastructure. The contemporary transport policies envisage an enabling legal framework that explicitly highlights the government’s commitments and the mechanisms for risk transfer between public and private stakeholders by streamlining all the different pricing implementations and convert them into a single transport infrastructure pricing act. In this vein, contemporary transport policies encourage the participation of the private sector in transport infrastructure projects. The success of transport infrastructure pricing schemes depends largely upon the implications, externalities, and people’s perception of transport infrastructure pricing schemes. In this framework, the contemporary transport policies attach particular importance to the social and economic conditions of the users.
Policy Recommendation II: Assigning an autonomous operator (entity/institution/body) for the effective collection of charges and allocation of funds arising from transport infrastructure pricing services.

Rationale:
Transport infrastructure pricing is a multidimensional issue involving public, private, and civil society. Within this respect, several institutions and organizations have varying roles in the formation of transport infrastructure pricing and charging policy, regulation, planning, implementation, monitoring, and evaluation. The coordination among the relevant institutions and stakeholders is of crucial importance. However, considering the complexity of management of the pricing of transport infrastructure, effective coordination among the public and private stakeholders is an important challenge to be addressed. The roles and responsibilities of the relevant stakeholders may not always be explicit. In this respect, for improved governance, the roles of regulators and operators can be separated, and autonomous commercialized institutions may provide the services demanded by stakeholders and users with greater efficiency. Therefore, the assignment of autonomous entities that would provide an effective collection of charges and the allocation of funds arising from transport infrastructure pricing services is of particular importance.

Policy Recommendation III: Utilizing transport infrastructure pricing tools (tolls, levies, vehicle tax, fuel tax, mileage tax, etc.) to effectively manage transport demand as well as to raise funds for transport infrastructure development.

Rationale:
An efficient and effective transport system is vital for the socio-economic functioning of any society. Transport networks, including road, rail, and air networks, have expanded consistently especially in developing countries in line with the growing demand. As the demand for transport infrastructure has increased considerably over the years, governments have initiated some mechanisms to diversify funding sources and to address this growing demand. The principle of cost recovery from transport users, known as transport infrastructure pricing, is one of the widely used mechanisms to source public finance to increase infrastructure capacity and recovery of costs, to effectively manage the demands for transportation services, to charge transport sector externalities including greenhouse gas emissions. Tolls, levies, vehicle tax, fuel tax, mileage tax, and vignettes are some of the widely used tools in transport infrastructure pricing systems. While developing countries use these tools mainly to provide new infrastructure and improve transport infrastructure performance, developed countries primarily make use of these tools for managing traffic demand.
Policy Recommendation IV: Utilizing contemporary collection (i.e. automated electronic tolls, on-board-units, and Global Navigation Satellite System) and enforcement systems for ensuring an effective transport infrastructure pricing.

Rationale:
The applied method and used technology are extremely vital for the better management of the pricing of transport infrastructure. An effective and efficient toll collection and enforcement system can leverage the abilities of the whole infrastructure pricing system. Collection can be done by employees, automatic machines, or a combination of both. Toll plazas and electronic tolls are two basic toll collection systems. Toll plazas consist of a series of toll gates, where each gate only opens once the driver pays the toll by cash, bank cards, vouchers, or others. On the other hand, electronic tolls allow toll payment without requiring vehicles to stop. Vehicles are required to carry an authorized on-board unit (OBU), electronic tag or transponder. Compared to toll plazas, electronic tolls do not require toll gates, which minimizes construction costs and this system can be implemented in high-density road networks. Some countries have a hybrid system where conventional toll plazas coexist with electronic tolling systems.

Instruments to Realize the Policy Advice:
COMCEC Transport and Communications Working Group: In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

COMCEC Project Funding: Under the COMCEC Project Funding, the COMCEC Coordination Office calls for projects each year. With the COMCEC Project Funding, the Member Countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For the above-mentioned policy areas, the Member Countries can utilize the COMCEC Project Funding and the COMCEC Coordination Office may finance the successful projects in this regard. These projects may include organizing seminars, training programs, study visits, exchange of experts, workshops and preparing analytical studies, needs assessments, and training materials/documents.

POLICY RECOMMENDATIONS OF
THE 15TH MEETING OF THE
COMCEC TOURISM WORKING
GROUP

The COMCEC Tourism Working Group (TWG) has successfully held its 15th Meeting on September 24th-25th, 2020 in Ankara, Turkey with the theme of “Developing Medical Tourism in the OIC Member Countries.” During the Meeting, Tourism Working Group, made deliberations on medical tourism in the OIC Member Countries. Accordingly, the participants has come up with some policy recommendations.

Policy Advice 1. Encouraging marketing and branding activities in order to boost the image of the destination country with a view to attract international patients.

Rationale:
Countries attract international patients with their capacity and capabilities in health provision. However, they increase their chance to be preferred as a destination country as much as their country image allows this position. In this sense, security and trustworthiness step forward as factors which influence country’s brand image. When country image is problematic as regards economic or other circumstances, it becomes important to obtain an improved image in the first place. In order to convince international communities towards a shift in their perception about the country, rebranding strategies can be introduced. Rebranding helps spread the message that the destination country is safe and trustworthy for all activities undertaken within its borders, including healthcare provision as well. For instance, integration of insurance systems is defined as an effective model for medical tourism activities regarding ease and secure payment procedures available in different countries. Medical tourism is not solely about health provision and medical services. Instead, second pillar of medical tourism consists of the tourism component. As a supporting factor to medical tourism, other tourism facilities (i.e. historical sites, cultural heritage etc.) can be promoted.

Policy advice 2. Using online platforms for customized marketing strategies towards target groups

Rationale:
Online platforms, especially popular social media channels such as YouTube, Facebook, Instagram, Twitter, Pinterest, etc. provide virtual environments to express opinions and preferences. Although these platforms are not particularly designed for marketing, advertisements are usually permitted. Data collection from the registered accounts enables algorithms to suggest personalized advertisements in parallel to the users’ activities. From the medical tourism perspective, such platforms can be used in order to attain the target groups.
Based on their personal choices, matching treatments can be displayed on the channels they frequently use. Such advertisement strategy on medical products and services is especially applicable for cosmetic procedures towards those who are interested in wellbeing and beauty products. As for the OIC member countries, such an interactive tool can be used in order to understand the needs of target population. This would allow to develop segmentation strategy with the objective to respond in the most effective way to the needs of target population within the segment.

**Policy advice 3. Promoting development/implementation of exchange programs among the OIC Member Countries for medical personnel in order to boost knowledge and experience sharing**

**Rationale:**
In response to the medical needs of individuals and societies, health sciences discipline work on development of new techniques and tools. The way to treat diseases may vary across countries. Countries develop their own unique approach in relation to their level of health infrastructure in terms of medical education and R&D capacity. From this point of view, knowledge and experience sharing becomes important for medical personnel in order to adopt different approaches into their practices. The communication between medical personnel as regards the advancements in the healthcare sector facilitates dissemination of best practices in the field. Such a blend of knowledge between healthcare professionals can create a larger impact. It has, in fact, the potential to boost the industry as well. Therefore, exchange programs can nurture the healthcare industry at healthcare personnel and healthcare provision levels among the OIC member countries.

**Policy advice 4. Encouraging bilateral or regional/multilateral arrangements (such as patient exchange programs, pre-diagnosis services, alliances between healthcare providers and streamlining health insurance schemes etc.) between public/private stakeholders including insurances and hospitals in order to sustain the exchange of patients.**

**Rationale:**
Bilateral, regional and multilateral arrangements can increase health mobility between the signing parties and serve as a stimulating factor to boost trade relations. In this respect, partner countries may benefit from the increase in health mobility through filling the gap in demand towards medical treatment. This may also enable the other side of the arrangement to provide healthcare services and meet its potential in medical tourism. These arrangements may take multiple forms such as patient exchange programs, pre-diagnosis services, alliances between healthcare providers and streamlining health insurance schemes. For instance, opening a pre-diagnosis center in a partner country would give the opportunity to the supplier country to display its medical services. On the other side, the partner country would benefit from medical knowledge and experience of the visiting medical staff coming from the partner country. As for protocols signed between healthcare providers and health insurances, it is possible to affirm that both sides would benefit from medical tourism schemes.
Policy Advice 5. Establishing a database on health tourism for the use of OIC member countries for further cooperation in terms of patient-treatment exchange and capacity building in healthcare provision

Rationale:
Data collection in medical tourism constitutes a big problem. Countries experience challenges in finding the appropriate information as regards activities taken place in medical tourism industry. The lack of data collection methodology and database creates obstacles in terms of marketing as well.

Both side of the medical tourism actors (suppliers and demanders) can take data-based concrete actions for future collaborations. For instance, supplier countries can provide data on their medical services that are integrated in the medical tourism whereas demanders can list their priorities in medical treatments. Such a database can open a platform for collaboration not only in terms of patient-treatment exchange but also in terms of capacity building in healthcare provision as well. OIC level data sharing in medical tourism will facilitate both supply and demand side among the region.

Instruments to Realize the Policy Advices:

– **COMCEC Tourism Working Group**: In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

– **COMCEC Project Funding**: Under the COMCEC Project Funding, the COMCEC Coordination Office calls for projects each year. With the COMCEC Project Funding, the Member Countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For the above-mentioned policy areas, the Member Countries can utilize the COMCEC Project Funding and the COMCEC Coordination Office may finance the successful projects in this regard. These projects may include organizing seminars, training programs, study visits, exchange of experts, workshops and preparing analytical studies, needs assessments and training materials/documents.

– **OIC/COMCEC Private Sector Tourism Forum**: In its meetings, the OIC/COMCEC Private Sector Tourism Forum may elaborate on the above-mentioned policy areas and the sub-areas from the private sector perspective.

IX
POLICY RECOMMENDATIONS HIGHLIGHTED BY THE 15TH MEETING OF THE COMCEC AGRICULTURE WORKING GROUP

A policy debate session was held during the 15th Meeting of the COMCEC Agriculture Working Group. The Working Group came up with some concrete policy recommendations for enhancing good governance practices for ensuring food security and nutrition in the Member Countries. The policy recommendations given below have been identified in light of the main findings of the research report titled "Good Governance for Ensuring Food Security and Nutrition in the OIC Member Countries" and the responses from the Member Countries to Policy Questions conveyed by the COMCEC Coordination Office.

Policy Recommendation I: Developing a comprehensive national food security and nutrition strategy and/or strengthening the existing food security policies and strategies to extend their reach and inclusiveness so that everyone can reap the benefits, including the poorest and the most vulnerable to achieve food security and nutrition for all.

Rationale:

An enabling legal framework accompanied by a comprehensive food security and nutrition policy is of particular importance for the success of the food security governance. A comprehensive food security and nutrition strategy could be developed as the first step of planning for good food security governance. Under the shadow of COVID-19; the said strategy could specifically re-define the vision, goals and priorities of the country on food security governance in line with the current and future food security and nutrition trends of the country, and guide complementary and cross-cutting strategies, laws, and programs, as well as activities for achievement of objectives. In this regard, the member countries may utilize the experiences and facilities provided by the OIC Institutions (e.g. COMCEC, IOFS, SESRIC, SMIIC, IsDB) as well as the international organizations (e.g. UNFAO).

Policy Recommendation II: Establishing a high level national coordination mechanism (i.e. an inter-ministerial or presidential council) for ensuring a healthy and sustainable multi-stakeholder dialogue for the effective coordination of all governmental and non-governmental stakeholders in the processes of policy formulation, implementation, and monitoring; and endowing it with significant execution power and sufficient human and financial resources.

Rationale:

For successful food security and nutrition policies, governance and coordination mechanisms need to be drastically upgraded in all areas from policy formulation to implementation and monitoring. Effective coordination and coherence mechanisms require an inclusive and participatory process in which all segments of the population, especially the most vulnerable, have their needs and rights properly represented.
Different stakeholders have their own objectives, policy preferences, and functions, and this creates an inherent fragmentation in the sphere of governance. The OIC member countries may thus benefit from establishing a high level national coordination mechanism inter-ministerial or presidential council), endowed with significant executive power. Member countries may benefit from mandating the operations, meetings, responsibilities, accountability criteria, and stakeholder participation mechanisms of their national coordination mechanisms. Moreover, they are recommended to ensure that the national coordination mechanism has sufficient human and financial resources.

**Policy Recommendation III: Improving the coordination and coherence of policy actions on food security and nutrition in turbulent times (e.g. COVID-19 pandemic) at all levels ranging from sub-national to national; national to bilateral or multilateral; sub-regional to regional, and finally, from OIC-level to global level.**

**Rationale:**

The COVID-19 pandemic and the associated economic downturn are expected to worsen food insecurity and malnutrition situation in many countries mainly through (i) the declining availability of food (due to contraction of food production and trade) and (ii) the access to food (due to employment and income losses). Recently published figures indicate that, by the end of 2020, 130 million people in low and middle income countries will be added to those already suffering from acute hunger before the pandemic started. Roughly half of the OIC Member Countries are among the countries that face the highest risks due to the COVID-19 pandemic. Minimizing the risks associated with the pandemic necessitates good governance practices especially with respect to the coordination of policy actions at national and sub-national levels and bilateral, OIC-level and finally global levels.

**Policy Recommendation IV: Designing a detailed and transparent implementation plan for the national and sub-national tasks and equipping the fieldwork personnel with relevant know-how and allocating sufficient financial resources to each and every step of the implementation process.**

**Rationale:**

Adopted policies and programs that are not supported by detailed and transparent implementation plans may end up being partially implemented or not implemented as a result of departures of critical post-holders due to new appointments and other bureaucratic obstacles. This is more than highly possible in this new era where COVID-19’s negative effects are felt considerably. Therefore, the top challenge regarding implementation is to design the policies and programs with an explicit implementation plan for the national and sub-national tasks. One of the main governance challenges regarding implementation is associated with the lack of sufficient human and financial resources. Therefore, the OIC member countries may focus on mechanisms to train the field-work personnel so as to equip them with relevant know-how, and to allocate sufficient financial resources to each and every step of the implementation process.
Policy Recommendation V: Establishing an online platform/food information systems (e.g. vulnerability atlas, food security fora) that ideally transmits real-time information on monitoring food security and nutrition governance with a view to generating credible data and statistics and formulating evidence-based policies.

Rationale:

COVID-19 pandemic has shown once more the importance of the monitoring of acute food insecurity through the food information systems. Limited availability of timely, reliable and consistent data on food security and nutrition hampers evidence-based decision making by both public and private sector actors in the Member Countries as well as the international organizations. Besides utilizing the existing instruments such as OIC Statistical Commission (OIC-StatCom) more effectively, new projects that are inter and intra related with other harshly affected sectors (tourism, trade, finance etc.) from COVID-19 need to be designed and conducted to generate credible data and statistics, to strengthen the Member Countries’ capacities to analyze them, and support the development of policies, investment and action plans based on this evidence all across the OIC.

Policy Recommendation VI: Promoting capacity building and knowledge/experience sharing among the OIC Member Countries in the four levels of good governance of food security and nutrition (i.e. (i) Policy and Legal Framework (ii) Coordination and Coherence (iii) Implementation, and (iv) Information-Monitoring-Evaluation.)

Rationale:

There are lessons that member countries can learn from the experiences of fellow members within the OIC. When effective sharing and capacity building mechanisms are established, successful outcomes of well-tested food security governance policies and practices in one country can allow others to adopt those without making the costly mistakes that the initiating country may have made during the process of fine-tuning new initiatives, saving valuable resources. Hence, regular or occasional gatherings of policy makers as well as practitioners from member countries to discuss common problems related to food security governance, and creation of staff exchange and training programs can be encouraged. The growing experience of all countries with on-line gatherings and meetings during the pandemic presents itself as an opportunity to make such events increasingly feasible. Also, the countries may seek technical assistance from OIC institutions and/or seek project-based funding from the OIC and other international bodies.

Instruments to Realize the Policy Recommendations:

COMCEC Agriculture Working Group: In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.
COMCEC Project Funding: Under the COMCEC Project Funding, the COMCEC Coordination Office calls for projects each year. With the COMCEC Project Funding, the member countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For the above-mentioned policy areas, the member countries can utilize the COMCEC Project Funding and the COMCEC Coordination Office may finance the successful projects in this regard. These projects may include organization of seminars, training programs, study visits, exchange of experts, workshops and preparing of analytical studies, needs assessments and training materials/documents, etc.

Islamic Organization for Food Security (IOFS): IOFS, as a specialized institution of the OIC dedicated to promoting food security and nutrition, may contribute to policy formulation in the OIC member countries and support good food security governance within the OIC.

SESRIC: Member Countries may utilize the Capacity Building Programs of SESRIC as well as OIC Statistical Commission in the areas related to food security and nutrition.

IDB Group: The facilities of the IDB Group, particularly the IsDB Agriculture and Rural Development Policy Implementation, may be utilized by the Member Countries to achieve good governance of food security and nutrition.

SMIIC: The Technical Committees of the SMIIC can be utilized.

POLICY RECOMMENDATIONS OF THE
15TH MEETING OF THE POVERTY ALLEVIATION WORKING GROUP

The COMCEC Poverty Alleviation Working Group (PAWG) has successfully held its 15th Meeting on September 29th, 2020, in a virtual-only format, with the theme of “Urban Poverty in the OIC Member Countries.”

During the Meeting, PAWG made deliberations on reducing urban poverty in the OIC Member Countries. Room Document, prepared in accordance with the main findings of the research report conducted specifically for the 15th Meeting of PAWG and the answers of the Member Countries to the policy questions were the main input for the discussions. During the Meeting, the participants agreed on the policy recommendations included in the Room Document. The existing document includes these policy recommendations highlighted during the Meeting.

Policy Recommendation 1: Developing comprehensive and effective urban planning strategies that particularly focus on better management of slums to prevent uncontrolled growth of existing slums and formation of new ones, and improving the access of slum dwellers to basic services such as education and health services through strategic investments.

Rationale:

“Slums are the main poverty hubs in urban areas. Developing more effective urban planning strategies that particularly focus on better management of slums (through dissolving/depopulating them and preventing formation of new ones) could be a first step towards eradicating urban poverty. There are numerous good examples of such urban planning strategies in the Islamic world (e.g., Housing Development Administration (TOKİ) in Turkey and Purbachal New Town project in Bangladesh). Improving the access of slum dwellers to education and health services through strategic investments can help break poverty cycles. Moreover, in developing as well as implementing these strategies, it is crucial to utilize the relevant ICT tools and techniques more effectively to monitor slums and accurately identify the urban poor.”
Policy Recommendation 2: Designing effective local labor market policies that would help tackling the informality problem and create more and better jobs

Rationale:

In the OIC member countries, roughly one in three jobs is formed in the informal labor market. Informal workers are not protected by labor legislation or a social security system. Families residing in slums are mostly employed in informal sector, which suggests that informal employment is closely linked with more intensive urban poverty. To tackle the informality problem, it is crucial to develop local labor market policies, which gradually reduce the share of informal employment over time and create more and decent jobs. These labor market policies include, among others, training and skill acquisition, improved flexibility of formal work, stricter enforcement, differential tax schemes targeting youth, women or other disadvantaged groups, supporting job creation and social protection.

Policy Recommendation 3: Activating the Islamic Social Finance Tools and systematically integrating them into the general urban poverty policy toolbox

Rationale:

The existing evidence suggests that the Islamic social finance system is a viable complementary tool that can be used in combination with traditional poverty reduction policies to eradicate urban poverty in the OIC countries. For example, organizing an effective distribution of individual-level compulsory transfers, charity-based recommended transfers, and other voluntary transfers (both pecuniary and non-pecuniary) would greatly improve welfare in the society and reduce poverty in urban settings. Activating the Islamic social finance tools and systematically integrate them into the general urban poverty reduction policy toolbox within a well-crafted “policy-mix” (e.g. the zakat-based infrastructure projects implemented in Indonesia); and utilizing the related ICT tools (such as blockchain technologies, FINTECH systems, cashless smart cards, geographical information systems) that facilitate a more effective use of the Islamic social finance tools (e.g., the Social Family Card in Egypt; cashless shopping cards distributed to refugees living in camps in Turkey and Jordan) is of crucial importance for reducing urban poverty. The OIC Member Countries provide numerous good practices on Islamic social finance tools as a source of inspiration for their fellows. Through experience sharing and capacity building programs, this valuable experience could be shared among the member countries.

Policy Recommendation 4: Improving urban governance capacity and strengthening resilience to shocks (e.g. COVID-19 pandemic)
Rationale:

The COVID-19 pandemic and the associated economic downturn are expected to worsen the urban poverty in the Member Countries. Although COVID-19 is a global shock, its adverse consequences are more severely felt by the poor, who are more likely to live in overcrowded neighborhoods and slums. Therefore, improving urban governance capacity by establishing a viable long-term national strategy aiming to effectively tackle urban poverty, improving resilience to unexpected events such as COVID-19 pandemic, natural disasters, large population movements, and health shocks; strengthening policy coordination between national and local authorities, enhancing legal and institutional capacity, and getting connected to the international policy network in a more effective way are recommended. Minimizing the risks associated with the pandemic necessitates good governance practices especially with respect to the coordination of policy actions at national and sub-national levels and bilateral, OIC-level and finally global levels.

Policy Recommendation 5: Conceptualizing urban poverty and developing/improving data collection and measurement practices to achieve evidence-based policy making

Rationale:

Urban poverty is highly multidimensional, and those multiple dimensions need to be systematically internalized to improve the understanding of the main policy issues. Conceptualizing and defining urban poverty within a multidimensional and region-specific context is also very important since those concepts and definitions crucially affect humanitarian policy and the nature of other basic services provided such as health, water, sanitation, sewage, etc. Without a well-structured conceptualization, national and local authorities will be ill-equipped to address the key urban poverty challenges. Moreover, improving data collection practices and developing new instruments to enhance measurement of urban poverty is of particular importance for evidence-based policy making. In this regard, it is recommended to utilize the relevant ICT tools and techniques more effectively to conceptualize, collect data and monitor slums and accurately identify the urban poor.

Instruments to Realize the Policy Recommendations:

COMCEC Poverty Alleviation Working Group: In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

COMCEC Project Funding: Under the COMCEC Project Funding, the COMCEC Coordination Office issues calls for project proposals each year. With the COMCEC Project Funding, the member countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For realizing above-mentioned policy recommendations, the member countries can utilize the COMCEC Project Funding facility. These projects may include organization of seminars, training programs, study visits, exchange of experts, workshops and preparation of analytical studies, needs assessments and training materials/documents, etc.
SESRIC: Member Countries may utilize the Capacity Building Programs of SESRIC to realize the above-mentioned policy recommendations.

XI
POLICY RECOMMENDATIONS OF THE
14TH MEETING OF THE COMCEC FINANCIAL COOPERATION WORKING GROUP

The COMCEC Financial Working Group (FCWG) has successfully held its 14th Meeting on September 15th, 2020 in virtual-only format with the theme of “Improving the Shariah Governance Framework in Islamic Finance”. During the Meeting, FCWG made deliberations on improving shariah governance framework in Islamic finance sector in the OIC Member Countries. Room Document, prepared in accordance with the main findings of the analytical study conducted for the 14th Meeting of FCWG and the answers of the Member Countries to the policy questions, was the main input for the discussions. Accordingly, the participants have come up with some policy recommendations.

Policy Advice 1: Developing a comprehensive legal and regulatory framework for the Shariah Governance processes and arrangements to ensure that all the operations and business activities in Islamic Finance are in accordance with Shariah.

Rationale:
Islamic banking and financial market laws should contain the definitions of all currently known and approved Islamic finance products and services as well as instruments. The concerned law should stipulate the general rule of prohibiting trade in pure risk and debt. The law may also authorize the regulator to add new products once they are approved. Furthermore, a special standard for the listed companies and Islamic financial instruments should be attached to the law with a stipulation of an annual review. Such standards would set the required conditions for ensuring Shariah compliance. Besides, a handbook on Islamic finance products and instruments should be issued by the regulators to support and facilitate the implementation of the respective law.

Policy Advice 2: Encouraging the establishment of national Shariah Supervisory Boards (SSBs) supervising the institutional SSBs.

Rationale:
National Shariah Supervisory Boards (SSBs) have various important functions. They can play a very significant role in resolving the disputes between Islamic Financial Institutions (IFIs) and customers. Furthermore, approving new products, supervising IFIs on proper income purifications, reviewing yearly accounting of profit and zakat calculations and their distribution, assessing and regularly reporting Shariah non-compliance risks to shareholders and investment account holders are among the other major functions of National SSBs. The National SSBs are very instrumental in securing the interests of all stakeholders, not just shareholders.
Policy Advice 3: Developing guidelines for ensuring/facilitating the active involvement of Investment Account Holders (IAHs) in IFIs’ management in accordance with their contribution to the mudaraba pool.

Rationale:
Comprehensive guidelines about Shariah Governance Framework can be developed to enable all stakeholders (i.e. customers, management, shareholders, supervisory authorities) perform their roles in accomplishing the Shariah Governance objectives, and to promote soundness and stability of IFIs. In this regard, the following mechanisms, among others, might be taken into consideration during the preparation of the concerned guidelines:

- Voting in the general assembly and board of directors should be distributed between shareholders and IAHs in proportion to their resources,
- The resources provided by IAHs might be measured as of the beginning of the financial year,
- IAHs might be allowed to assign their representatives in the general assembly of IFIs,
- BoD seats might be assigned to the IAHs with the largest accounts, in a proportion of their resources.

Policy Advice 4: Encouraging talent development through training and professional certification programs and increasing the awareness of stakeholders about Shariah Governance.

Rationale:
In many cases, there might be a need for improving the qualifications of SSB’s members and a shortage of qualified Shariah experts. The practice of assigning SSBs membership exclusively from among Shariah specialists without identifying the necessary qualifications such as academic degree, research and teaching experience etc. is a major challenge. In this respect, a set of criteria may be identified for the appointment of the SSB members. In addition, training and professional certification programs can be conducted for talent development in this crucial area.

Policy Advice 5: Promoting the integration of Islamic Finance sector into whole economy with a view to making monetary policy more inclusive.

Rationale:
In order to integrate the Islamic finance sector into the macro- economy and make monetary policy more inclusive, monetary authorities are advised to do the following:
- To issue Central Deposit Certificates (CDC) in proportion to the ratio of total Islamic finance assets to the total financial assets in the whole economy, against their cash value which would be placed as Central Deposits in IFIs. Accordingly, the monetary authority may wish to reduce money supply by the same amount or any amount that would make such issue non-inflationary, by increasing the legal reserve ratio.
- The monetary authority would set the instructions to control the investment of central deposits.
- The monetary authority can issue more CDC's and make them available for sale to the public, including IFIs. Their profits would be added to the Central Deposits in IFIs.
- The monetary authority may allow trading of CDC’s in money market.
- The monetary authority can change the rate of growth of money through: (1) Adding to or subtracting from its Central Deposits balances with IFIs, (2) using open market operations in CDC’s to adjust the rate of growth of the money supply.

**Instruments to Realize the Policy Advices:**

**COMCEC Financial Cooperation Working Group:** In its subsequent meetings, the Working Group may elaborate on the above-mentioned policy areas in a more detailed manner.

**COMCEC Project Funding:** Under the COMCEC Project Funding, the COMCEC Coordination Office issues calls for project proposals each year. With the COMCEC Project Funding, the member countries participating in the Working Groups can submit multilateral cooperation projects to be financed through grants by the COMCEC Coordination Office. For realising above-mentioned policy recommendations, the member countries can utilize the COMCEC Project Funding facility. These projects may include the organization of seminars, training programs, study visits, exchange of experts, workshops and preparation of analytical studies, needs assessments and training materials/documents, etc.

CLOSING SPEECH BY H.E. AMBASSADOR MEHMET METİN EKER, 
PERMANENT REPRESENTATIVE OF THE 
REPUBLIC OF TURKEY TO THE OIC 
THIRTY SIXTH MEETING OF THE 
FOLLOW-UP COMMITTEE OF THE COMCEC 
(Ankara, 21 October 2020) 

Distinguished Members of the Follow-up Committee, Esteemed Delegates,

At the outset, I would like to express my sincere gratitude for the active participation of all delegations and their valuable contributions to the deliberations. In a virtual environment but with real and intensive deliberations, we have successfully concluded the 36th Follow-up Committee Meeting of the COMCEC. We have reviewed various cooperation issues and new initiatives under the COMCEC and drawn up its agenda for the 36th Ministerial Session.

Esteemed Guests,

Around 1.1 million people lost their lives worldwide due to the COVID-19 pandemic and hundred thousand of others are still struggling with the virus. Maybe some of us have already lost their dear relatives, close friends, or colleagues. May Allah the Almighty shower His blessings on our brothers and sisters who lost their lives due to the pandemic. I also wish that all our patients including those who suffer from the coronavirus recover soon.

Dear Guests,

As you all know, very strict measures that we have never seen in our normal lives have been taken all over the world to prevent the spread of the virus. The pandemic has brought significant changes in our daily routines and conduct of life. Our behaviors, social habits have been influenced heavily, and we are yet to know where this COVID pandemic will take us to.
One positive aspect of this new situation, in other words of this isolation is probably that we may have started to think more on the meaning of life that may end so suddenly even from an attack by an invisible virus. I have been really surprised to learn that the world, the humanity is going through this extremely difficult time only due to a few grams of corona virus.

We are also witnessing profound adverse impacts of the Pandemic on our economies as it has upturned our daily life and paralyzed trade both within and among nations. Economies are experiencing significant downsizing in 2020. In an environment where the economy has slowed down so much, I think we should use our cooperation instruments we have in the most efficient way.

As the main economic and commercial cooperation platform of the OIC, COMCEC has been exerting intense efforts to further economic cooperation among the Member Countries since its inception. By providing a new dynamism our cooperation endeavors, the COMCEC Strategy is being implemented successfully through its implementation mechanisms namely Working Groups and COMCEC Project Funding.

I am really glad to observe that the cooperation efforts under the auspices of COMCEC continue uninterruptedly despite heavy circumstances and restrictions stemming from the pandemic. I would like to express my special thanks and appreciation to all our colleagues in CCO as well as all the member countries and contributing partner institutions towards that end.

I am also pleased to observe that the 36th COMCEC Ministerial Session will be held next month as planned. Although the Ministerial Session will be held in a virtual-only format, as we have experienced here, it is quite important and crucial for COMCEC to sustain its regularity as a platform that has been able to convene uninterruptedly for 35 years towards Islamic solidarity and brotherhood.

Regarding the two new programs that have been initiated by the COMCEC Coordination Office namely the COMCEC COVID Response (CCR) and COMCEC Al-Quds Program, I hope that all the member countries and relevant OIC institutions will contribute to these programs at the highest level. I wish every success to all partners in the implementation of these programs.
Esteemed Delegates,

During our Meeting, we have dwelt on various critical issues. I would like to just briefly highlight some of these points.

As discussed during the working session, there are only a few pending issues to make the TPS-OIC System operational. Relevant authorities will discuss the issues arising from the concession lists for the implementation of the TPS-OIC system in a Virtual Consultative Meeting next week. I hope this Meeting would be beneficial towards operationalizing the System.

Another important project of the COMCEC is the OIC Arbitration Center. The Center would be fully effectuated once the Board of Trustees and the Board of Directors of the Center are established. I hope our relevant institutions namely the Islamic Chamber of Commerce, Industry and Agriculture (ICCIA) and TOBB will expedite the formation of necessary Boards and institutional set up for the Center.

Esteemed Guests,

Before concluding, I would like to thank all the Members of the Follow-Up Committee, the OIC General Secretariat, SESRIC, ICDT, ICCIA, SMIIC, ITFC, ICIEC and ICD for their participation and valuable contributions to the meeting. I would also like to thank our colleagues in the COMCEC Coordination Office, the staff on duty in this organization, interpreters, revisers and translators for their untiring efforts which helped us to render this meeting a real success.

Hope to see you soon. Thank you.

Esselamu alaikum ve Rahmetullah.
