FOREWORD

The Fifth Session of the Standing Committee for Economic and Commercial Cooperation of the Organization of the Islamic Conference and the First Ministerial Meeting on Energy of the OIC Member States have been concluded successfully with a high level of participation on the part of the Member States.

The Fifth Session, like the previous ones, certainly owes its success to the spirit of cooperation, which prevailed, the determined efforts to raise the quality and the standard of work, and the valuable and indispensable contribution of the Member States, the General Secretariat and Subsidiary and Affiliated organs of the OIC, without which this Session could not have achieved concrete results beneficial to all the Member Countries and realize such a success.

The present book contains the Reports and Resolutions of the Fifth Session of the COMCEC.

The book consists of two main parts.

The first part contains basic reference documents, namely, the Resolutions adopted at the Third, Fourth and Fifth Islamic Summit Conferences regarding the establishment and functioning of the COMCEC.

The second part contains the Report of the Fifth Session of the COMCEC and the list of documents presented at this Session.

The List of Participants, the Agenda of the Fifth Session of the COMCEC, the Report of the Senior Officials Meeting, Resolutions of the Fifth Session and Statements made at the opening and closing sessions are attached as annexes to the report.

The other documents considered at the Fifth Session of the COMCEC, which are shown in the list contained in Section II of Part Two of this Book, are available through the COMCEC Coordination Office.

I am sure that the resolutions adopted at the Fifth Session of the COMCEC will constitute the most reliable means towards peace and prosperity for our nations and the world as a whole and will be instrumental in the overall performance designed to attain the economic cooperation objectives of the OIC Member States.

I am convinced that resolutions adopted at the present session will be fully implemented by the Member States, the General Secretariat and the subsidiary and affiliated organs of the OIC.

INAUGURAL STATEMENT OF H.E. KENAN EVREN,
PRESIDENT OF THE REPUBLIC OF TURKEY
CHAIRMAN OF THE COMCEC

(Istanbul, 5 September 1989)

Your Excellencies,
Distinguished delegates,
Esteemed guests,

I would like to express my pleasure in opening the Fifth Session of the COMCEC and the First Meeting of the Ministers of Energy, and I wish to welcome you once again in Turkey.

I would like to take this opportunity to congratulate H.E. Dr. Hamid Al Gabid for his appointment as Secretary General of the Organization of the Islamic Conference, and wish him all success in his new and difficult tasks. I should also like to thank him for his diligence during the short period since the beginning of his tenure, as regards the restructuring of the organization as well as the implementation of the resolutions adopted at the Islamic Summit Conferences and the Meetings of the Foreign Ministers.

I am convinced that these efforts will increase the efficiency of the Organization of the Islamic Conference. Undoubtedly the restructuring in the Organization should also contribute positively to the work of the COMCEC.

Distinguished delegates,
Esteemed guests,

Past and present experience has clearly shown that an international organization able to tackle with understanding the problems encountered by the member countries is of utmost importance as regards cooperation and solidarity among those countries; and it is a pleasure for us to observe that the Organization of the Islamic Conference has, without hesitation, addressed itself to many issues concerning the member countries, and has provided the necessary support.

Although I have always stressed in my speeches that we should restrict our agenda to concrete economic cooperation projects, I cannot but refer to a matter relating to a country outside our community, and mention the problems of the Moslem Turkish minorities in Bulgaria in view of the policies violating human rights that are being pursued.

The oppression and persecution to which the Moslem Turkish minorities in Bulgaria are subjected, especially the forced emigration policy of the Bulgarian government, stand out as the

most recent and the most striking example of the plight endured by Moslem minorities in the world. Turkey has recently welcomed, as she has always done throughout history, all refugees wishing to take asylum, and provided all means within its power to secure their happiness and well being. Turkey possesses the power and means to save the Moslem Turkish minorities in Bulgaria from this inhuman persecution, and to provide for their basic needs.

I should like to take this opportunity to once again express my sincere gratitude to all member countries that have extended their moral support, adopted a firm stand, and made declarations backing Turkey's efforts, as well as to H.E. Dr. Hamid Al Gabid, Secretary General of the Organization of the Islamic Conference, who takes an active interest in the matter, and to H.E. Ahmed Mohamed Ali, President of the Islamic Development Bank. I believe that the timely adoption of necessary measures through the OIC regarding such issues concerning human rights that may be encountered by any of the member countries will provide an effective guarantee against the occurrence of similar problems in future.

Distinguished delegates,
Esteemed guests,

In accordance with the stipulations of the Constitution of the Republic of Turkey I shall, in the coming months, leave my

post as President of the Republic and turn my duties over to a successor to be elected by the Turkish Grand National Assembly. I am pleased to see that useful work has been initiated during my chairmanship of the COMCEC since 1984, thanks to your valuable and positive contribution. It shall be a source of special happiness to me to see that this work has brought along concrete results during the tenure of my successor.

With the Meeting of the Ministers of Energy held concurrently with the Fifth Session of the COMCEC, all areas of priority stipulated in the Plan of Action as coming within the purview of the COMCEC will have been taken up.

Starting with the First. Session of the COMCEC held in November 1984, the Meetings of Ministers held concurrently with each COMCEC Session made it possible to initiate work in the fields of priority stipulated in the Plan of Action as adopted by the Fourth Islamic Summit Conference, while efforts were made to give a new impetus to activities that are underway. So far, the activities started in the fields of industry, food security and agricultural development, transportation and communications, have been pursued under the direction of relevant Ministerial Meetings, and the results were reported to the COMCEC by the General Secretariat, either directly or through the Follow-up Committee.

While the priority areas of cooperation I mentioned above were taken up by the Ministerial Meetings held under the auspices of the COMCEC, it was mostly projects for strengthening commercial cooperation and matters related to economic cooperation strategy that formed the agenda of COMCEC itself.

I feel that it should be a source of satisfaction to all of us to observe that, among the projects appearing on the agenda of the First Session of the COMCEC, the Longer-Term Trade Financing Scheme has been established within the Islamic Development Bank and has already become operational, while several of the other projects have reached the stage of implementation. The said projects should create further possibilities, however modest, for cooperation among our countries. I would like to express my thanks to all member countries as well as to the General Secretariat and related organizations, for their efforts and contribution in achieving these results.

With the present Fifth COMCEC Session we are inaugurating, and the Meeting of the Ministers of Energy to be held concurrently, all priority areas of the Plan of Action will have been taken up within the time-limit set by the summit. It is possible that the future sessions of the COMCEC would be held parallel with meetings on the remaining areas of the Plan of Action, or that they would cover other subjects you would deem suitable.

In this connection, I should like to point out that Technical Cooperation is a field that is relevant to all areas of economic cooperation, and is a productive and useful subject worthy of consideration by the COMCEC.

I look forward to being with you again at the closing session tomorrow afternoon, and wish you all success in your work.

Kenan EVREN

Republic of Turkey

STATEMENT OF H.E. TURGUT ÖZAL
PRIME MINISTER OF THE REPUBLIC OF TURKEY
AND ALTERNATE CHAIRMAN OF THE COMCEC,
AT THE OPENING CEREMONY

STATEMENT OF H.E. TURGUT ÖZAL
PRIME MINISTER OF THE REPUBLIC OF TURKEY
AND ALTERNATE CHAIRMAN OF THE COMCEC,
AT THE OPENING CEREMONY

(Istanbul, 5 September 1989)

H.E. President of the Republic,
Honourable Ministers,
Distinguished Delegates,

On the occasion of the Fifth Session of the Standing Committee for Economic and Commercial Cooperation of the Organization of the Islamic Conference and the First Meeting of Ministers of Energy of the Member Countries, I welcome you all to Turkey on behalf of my Government and the Turkish people and wish you success in your work.

I should like to start my speech by congratulating H.E. Hamid Al Gabid who has recently been appointed Secretary General of the Organization of the Islamic Conference, wishing him all success. I am convinced that his wide experience, his deep understanding of the problems of the Islamic Nation and his dynamic personality should be instrumental in speeding up the

efforts of cooperation being extended within the framework of the Organization of the Islamic Conference and add to their significance.

Honourable Ministers,
Distinguished Delegates,

I note with satisfaction that, with the Meeting of the Ministers of Energy held for the first time this year, the scope of activities of the COMCEC has extended to cover another priority field of cooperation, namely Energy. I am convinced that this first meeting will initiate concrete projects of economic cooperation beneficial to member countries in the field of energy.

In our contemporary world, energy, both for developed and developing countries, stands out as a strategic factor, gradually increasing in importance in the context of economic development. Development and Industrialization are in a certain manner identified with growth in the production and consumption of energy. Faced with the rapid increase in the demand for energy, as well as with the possible depletion of conventional energy resources and their polluting nature, a large number of countries have started research to find new and renewable sources of energy, and to develop new technologies in this field. It goes without saying that the Moslem Countries, in order to speed up their economic development and increase their welfare level so as

to guarantee their future, should also increase their supply of energy and to this end seek efficient cooperation, through the rational utilization of energy resources and proper use of the means devised through technological progress all over the world.

At this point, I am pleased to state that Turkey, having achieved during the past few years considerable progress in the production and distribution of electrical energy, would be happy to share its knowledge and efforts with the brotherly Islamic countries.

Honourable Ministers,
Distinguished Guests,

World economy is presently overcoming the crisis faced during the first half of the 1980s. In fact, industrialized countries, through growth of investments and productivity, have been able to record an average economic growth of 4 % in 1988. This growth rate, relatively high in view of their economic and demographic structure, has been achieved with an inflation of 3 to 4% which falls below price increases witnessed during the 1970s and early 1980s.

This positive economic development observed in industrialized countries, backed up with cooperation efforts aiming at eliminating imbalances in foreign trade and extreme fluctuations in foreign currency rates, has made it possible to control to a certain extent the balance of payments deficits of

the United States, and the negative effects resulting from current account surpluses of Japan and Germany, paving the way for considerable progress in the re-establishment of stability in world markets of capital and currency. Parallel to this development, growth in the volume of world trade at the end of the last decade has reached its peak, climbing to about 9 % for 1988.

Such economic developments observed in the economies of the industrialized countries and in the volume of world trade have had varying impacts on developing countries and different country groups. Asian countries newly starting their development, benefited from the major part of the increase in trade volume and from world economic growth witnessed during the last few years. On the other hand, with few exceptions, other developing countries, some of which are member countries, continue to be confronted with problems of deficit in the balance of trade and foreign debts. Even if we disregard the political instability and natural disasters, still, the steady increase of protectionist policies applied by industrialized countries, the lack of harmonization and the structure itself of, the economies of developing countries, make it difficult for them to benefit from any positive developments in the world economy. On this occasion, I would like to express my satisfaction at noting that a great number of member countries are trying to overcome the negative aspects of their economies and achieve structural harmonization.

I am convinced that the problems of economic growth and balance of payments in the Islamic Countries could be solved to a great extent, if the necessary measures designed to obtain a larger share of world trade are taken. The development of economic cooperation among our countries would increase the participation of our people in the world trade and thus contribute to their welfare.

Honourable Ministers,
Distinguished Delegates,

Our Standing Committee has, since its very first session, concentrated its efforts on subjects pertaining to commercial cooperation, owing to their importance and priority, which I have already mentioned. The first concrete result of this effort has been the implementation of the Longer-Term Trade Financing Scheme within the Islamic Development Bank, which has become operational last year. Considerable progress has been achieved in other projects such as the Trade Information Network, the Regional Export Credit Insurance Scheme, and Trade Preferences Scheme. These mechanisms, once established and operational, will contribute to the increase of the share of our countries in the world trade.

Honourable Ministers,
Distinguished Delegates,

I cannot refrain from mentioning here a matter of human rights that deserves close concern from the whole of the Islamic world. Of the incidents involving Moslem minorities facing unfair treatment at various parts of the world, the matter I refer to is the plight of the Moslem Turkish minorities in Bulgaria. You are well aware that the Bulgarian administration has for years been exerting a policy of merciless oppression and cultural assimilation on the Moslem Turks who are their citizens. As a result of this outrageous and archaic policy, three hundred and twelve thousand of our kin and brothers were deliberately forced to emigrate into Turkey during the last two months, leaving behind their possessions, and in some cases even members of their families who are kept as, in a sense, hostages by the Bulgarians. In view of this situation, Turkey, while trying to secure, for the Moslem Turks of Bulgaria, the right to keep their identities, proceeded to call on Bulgaria to sign an immigration agreement to protect the rights and interests of our brothers who have and will emigrate to Turkey. As no positive response in this regard was observed on the part of the Bulgarian administrators, in order to prevent further violation of the rights and confiscation of the belongings of our brothers, Turkey has put the normal visa regime, temporarily suspended by ourselves, back into implementation.

Turkey is prepared, just as before, to accept all willing immigrants, in compliance with an immigration agreement to be signed with Bulgaria. There is no change in our basic policy.

Termination of the oppression and restitution of the rights of the Moslem Turks in Bulgaria is not merely a matter involving the two countries, but is of great concern to all of humanity and especially to the Islamic community.

I should like to join H.E. The President in expressing my thanks to Member Countries, to H.E. Hamid Al Gabid, Secretary General of the Organization of the Islamic Conference and to H.E. Ahmed Mohamed Ali, the President of the Islamic Development Bank, for their support.

I believe that your august assembly, which is sparing no effort to ensure the economic welfare of the Islamic world, in line with the objectives stipulated in the Charter of the Organization of the Islamic Conference, will continue to follow closely the inhuman treatment inflicted on the Turkish Moslem minorities in Bulgaria. Indeed, our Standing Committee has, to this moment, been following closely the human and economic problems facing Palestine and Lebanon, as well as the problems of Member Countries struck by all kinds of disasters, providing assistance when necessary. I am convinced that the same interest will be shown to our oppressed brothers in Bulgaria.

Before closing, I wish you all success in your work and a pleasant stay in Turkey.

Turgut ÖZAL

Prime Minister of the
Republic of Turkey

SPEECH DELIVERED BY H.E. DR. HAMID AL GABID,
SECRETARY GENERAL OF THE ORGANIZATION
OF THE ISLAMIC CONFERENCE,
AT THE OPENING CEREMONY

(Istanbul, 5 September 1989)

Bismillahi Rahmani Rahim

Your Excellency Mr. President,
Your Excellency MY. Prime Minister,
Distinguished Delegates,
Excellencies,
Ladies and Gentlemen,

ASSALAMU ALAIKUM WA RAHMATULLAHI WA BARAKATUH.

It is indeed a great honour and privilege for me to be present at the joint opening of the Fifth Session of the Standing Committee for Economic and Commercial Cooperation and the First Meeting of the Ministers of Energy of the Organization of the Islamic Conference. It also gives me immense pleasure to address for the first time, this august gathering which has been designated by the Third Islamic Summit as a policy making forum for stimulating and promoting economic cooperation and progress in the Islamic world.

I would like to begin by expressing my profound gratitude to His Excellency President Kenan Evren, the Chairman and His Excellency Prime Minister Turgut Özal, the Alternate Chairman, of the Standing Committee, for their continued keen interest in the implementation of the OIC Plan of Action to Strengthen Economic Cooperation. Their abiding commitment to the socio-economic progress of the Islamic States is indeed noteworthy and laudable. The inspiring inaugural address by His Excellency Kenan Evren and the lucid statement by His Excellency Turgut Özal also bear testimony to their firm resolve to further strengthen economic and commercial ties among the OIC Member States. I am confident that during their deliberations, the current session of the Standing Committee and the Ministerial Meeting on Energy will be guided by these inspiring addresses.

Mr. Chairman,

We are no strangers to this beautiful and historic city of Istanbul, a city which has stood for centuries as the proud standard bearer of Islamic traditions, culture and civilization. We are moved once again by the warm welcome and traditional hospitality so graciously extended to all the delegates by the Government and the brotherly people of Turkey. On behalf of the OIC, I would like to express our heartfelt thanks and appreciation to the Turkish Government and people for the excellent arrangements made for these two important meetings.

Mr. Chairman,

The Fifth Session of the Standing Committee for Economic and Commercial Cooperation takes place against the backdrop of a picture of international economic relations which remains sombre for the Islamic countries, all of which have been designated by the United Nations as developing countries. The period since the First Session of the Standing Committee held in November 1984, has been characterized by the continuing lack of political will on the part of the developed and industrialized world to provide the necessary impetus to the process of international economic cooperation based on equity and justice. The recovery of global economy, which bypassed a large number of OIC member countries, did not respond to the developing process within the Islamic States. Consequently, the economies of most of the Member States continue to suffer the serious effects of reduced aid flows and increased costs of servicing their debts, resulting in a net reverse flow of capital from them to the developed countries, rising walls of protectionism in the industrialized world and adverse terms of trade.

Mr. Chairman,

The Standing Committee for Economic and Commercial Cooperation has, since its inception and in pursuance of the decision of the Third Islamic Summit, played an effective role in

strengthening and expanding cooperation and collaboration among Member States of the Organization of the Islamic Conference in the economic and commercial fields. COMCEC, as we all know, has effectively focussed its activities on the implementation of the OIC Plan of Action and achieved encouraging success in translating the broad outlines of this Plan of Action into concrete programmes and projects of mutual cooperation, thus prompting Member States to adopt measures to boost their economic and commercial exchanges. It is, therefore, essential that the Islamic countries, notwithstanding differences in economic structures and potential, continue to work with firm resolve to promote economic cooperation among themselves, increase their commercial exchanges and help each other economically in order to strengthen and free their economies in the long term and not to fall prey to the vagaries of the international economic climate.

Mr. Chairman,

The Islamic countries are blessed by the Almighty Allah with a variety of resources, human and natural, which still remain to be exploited to the full for the benefit of the Islamic Ummah. The scope of cooperation among the Member States, both in economic and technical fields, is enormous. However, despite progress achieved during the recent years, intra-OIC trade is just about 15 percent of the total trade volume of the Member

States and this calls for intensified efforts, including a firm political commitment, to increase economic, commercial and technical cooperation. COMCEC has already approved a number of measures to promote these desired goals and I am confident that the Member' States will continue to support, in full measure, the recommendations of the Standing Committee as well as of other Islamic organs and Centres working under the umbrella of the OIC for the implementation of the Plan of Action.

Mr. Chairman,

The comprehensive background report submitted by the General Secretariat to this meeting contains, among others, a summary of achievements of the Standing Committee in the attainment of the tasks entrusted to it by the Summit Conferences. The activities of the General Secretariat of the Organization of the Islamic Conference have also been devoted to following-up the implementation of the decisions of the Ministerial Conferences on the priority areas of cooperation namely, Trade, Food and Agriculture, Industry, Transport and Communications. Ministerial Meetings have been held in all these areas and I am happy to note that the Governments of Indonesia and Egypt have decided to host the next Ministerial Meetings on Communication and Food Security and Agriculture respectively in 1991.

In this context, I may add that the Third Ministerial Conference on Food Security and Agricultural Development held in Islamabad, Pakistan, in October last year adopted, among others, a comprehensive resolution on the establishment of a Food Security Reserve to help OIC Member Countries cope with emergency food shortages and the Experts' Meeting held from 8-10 August 1989 in Jakarta, Indonesia chalked out operational mechanism for the Reserve. I would like to take this opportunity to launch a solemn appeal to the esteemed Member States to join the Reserve for the greater benefit of the Ummah as a whole.

The Agenda of the current Session of the COMCEC includes a number of important subjects, such as studies on Trade Preferential System among OIC countries, prepared by the Islamic Centre for Development of Trade, and the Regional Export Credit Insurance Scheme, undertaken by the Islamic Development Bank. All these subjects are of fundamental importance for the implementation of the Plan of Action. Besides, both the Islamic Centre for Development of Trade and the Islamic Development Bank are undertaking several feasibility studies on the establishment of a Trade Information Network for the Islamic Countries (TINIC) and on the Multilateral Islamic Clearing Union which, when operational, will facilitate and reactivate trade among the Member States. In this connection, I would like to further mention that the Longer Term Trade Financing Scheme started under

the Islamic Development Bank which is already serving as an effective mechanism to increase intra-Islamic Trade, is one of the significant achievements of this Standing Committee.

Mr. Chairman,

The First Ministerial Meeting on Energy of the OIC Member States is being concurrently held with the Fifth Session of the COMCEC. The convening of this meeting constitutes a step forward in the efforts to augment cooperation among OIC countries in view of the crucial importance of the energy sector in the overall development of their economies. After this meeting, all the priority areas of economic cooperation, indicated in the Plan of Action, will have been taken up by the Standing Committee. I am confident that the Honourable Ministers will stress the importance of cooperation among Member States in this vitally important sector as an essential corollary of cooperation in other fields.

Mr. Chairman,

The Islamic world has tremendous economic attributes which could produce a very happy and peaceful world for its people. It is richly endowed with natural resources, producing nearly fifty percent of the world's oil. However, conventional resources of energy are fast depleting due to increasing population and

increasing rate of consumption for development purposes. Therefore, many developing countries have realized that they have to prepare themselves for an early transition to the radically new energy mixes to maintain steady growth of their economies. Many new developments have already taken place in this field and a considerable number of renewable energy forms have already attained a stage of commercial viability. There is therefore the need, now more than ever, for collective and combined Ummah activity to benefit from an effective and united endeavour in this field.

Mr. Chairman,

I need not emphasize the importance of our present meeting which will discuss and review the important progress achieved so far during the earlier sessions of the COMCEC. I am confident this meeting will, like in previous years, be able to agree upon specific measures to expedite the implementation of the Plan of Action in order to further Strengthen Economic Cooperation among the Islamic countries. In this regard, I might mention that the growing financial difficulties faced by the General Secretariat of the Organization of the Islamic Conference and its institutions as a result of non-payment of contributions by Member States are liable to adversely effect their activities relating to economic and commercial cooperation. The

institutional structure of the OIC cannot be expected to discharge the responsibilities entrusted to them in the absence of necessary funds. I would, therefore urge the Hon'ble Ministers to devote some of their kind attention towards resolving these serious problems and to ensure that the OIC General Secretariat and its subsidiary bodies receive adequate financial support to discharge their functions more efficiently.

I trust that, inspired by the spirit of Islamic solidarity and with the spirit of brotherhood and understanding which traditionally characterizes such meetings, the Ministers will, as usual, evolve practical measures to accelerate the pace of mutually beneficial cooperation and collaboration among the Member States.

Mr. Chairman,

While dealing with the difficult economic situation prevailing in the OIC Member States, we cannot help thinking of our Turkish minority being expelled from Bulgaria. It would therefore be appropriate to mention here that the OIC Member States should bring pressure *on* Bulgaria so that the latter treats them well, besides extending all the necessary assistance to them.

In this respect, the Turkish authorities are doing all that they can, so as to come to their help materially, economically, and morally, in order to alleviate the suffering of these refugees coming from Bulgaria. We seize this opportunity to reiterate our appeal to the Bulgarian Authorities to accept discussing an Agreement on the situation of that minority.

Mr. Chairman,

I would be failing in my duty if I did not, before concluding, pay once again a very rightly deserved tribute to H.E. President Kenan Evren for the tireless efforts exerted by him in the service of the Islamic Ummah in general, and its economic goals in particular, during his term of office as Chairman of COMCEC.

Mr. Chairman,

In conclusion, I would once again like to thank you for giving me this opportunity to address this august gathering and to wish our two meetings a resounding success in their deliberations.

May Allah the Almighty bless our endeavors.

I thank you.

WASSALAMU ALAIKUM WA RAHMATULLAHI WA BARAKATUH.

The Senior Officials then established an open-ended Drafting Committee, under the chairmanship of the Rapporteur, to prepare the draft resolutions to be submitted to the COMCEC, and an open-ended Sessional Committee under the chairmanship of the Islamic Republic of Pakistan to review the activities of the OIC organs and institutions working in the field of economy and trade.

8. Under Draft Agenda Item 3, H.E. OUSMAN N. R. OTHMAN, Assistant Secretary General, in charge of the Economic, Science and Technology Department of the OIC General Secretariat, presented the Background Report of the General Secretariat. While presenting the Report, he congratulated the Chairman, H.E.

Dr. Ali TİGREL, and expressed his thanks and appreciation to the Government of Turkey for the excellent arrangements made for the Meeting and for the traditional hospitality extended to the participants.

H.E. the Assistant Secretary General gave a resume of the Report, highlighting the developments which took place since the Fourth Session of the COMCEC in the implementation of various resolutions on economic and commercial cooperation among the OIC Member States, pertaining to the priority areas of the OIC Plan of Action, namely, Trade, Industry, Food Security And Agricultural Development, Transportation and Communications, considered under the auspices of the COMCEC since its First Session in November 1984. H.E. the Assistant Secretary General, stated in his presentation that the Arab Republic of Egypt has offered to host the 8th Meeting of the Governors of Central Banks and Monetary Authorities of the Member States of OIC.

9. The participants, while appreciating the Report of the OIC General Secretariat, agreed on the inclusion of the progress achieved in areas taken up so far under the auspices of the COMCEC, namely, Food Security and Agricultural Development, Industry, Transport and Communications in the first draft resolution of the Fifth Session of the COMCEC, along with the projects pertaining to trade on the agenda of the COMCEC itself. The Senior Officials also appreciated the offer of the Arab

Republic of Egypt to host the 8th Meeting of the Governors of Central Banks and Monetary Authorities of OIC Member States.

10. Under Draft Agenda Item 4, the Rapporteur gave a summary of the Report of the Fifth Meeting of the Follow-up Committee which contained recommendations pertaining to the projects and issues on the agenda of the COMCEC. The Senior Officials continued their discussions on the rest of the Draft Agenda items in the light of the recommendations of the Follow-up Committee.

11. Under Draft Agenda Item 5, the Meeting was informed by ICDT that so far a few member countries have sent their comments on the Draft Framework Agreement for the Establishment of a Trade Preferential System Among OIC Member Countries. The Senior Officials, while appreciating the work done by ICDT in preparing the Draft Framework Agreement, agreed that holding an expert group meeting at this stage might as well hasten the responses of the Member Countries. Consequently, the Senior Officials requested ICDT to convene an expert group meeting as soon as possible to examine the Draft Framework Agreement and to submit its results to the Sixth Meeting of the Follow-up Committee. The Senior Officials also requested ICDT to circulate the Draft Framework Agreement together with the responses of seven Member Countries so far received by ICDT, among the Member Countries before the expert group meeting. The Senior Officials appreciated

the offer of the Government of Turkey to host the expert group meeting.

12. When discussing Item 6 of the Draft Agenda, the delegation of the Republic of Tunisia explained the proposal for "the constitution of a unit to publicize and promote the exports of Islamic States" which is designed to make use of the integrated and modern installations concentrated in the Tunis International Trade Fair by putting on display permanently samples of the products of Islamic States and by providing warehousing facilities for re-exportable goods by their owners to the various markets of the world.

The Senior Officials expressed their appreciation of the offer of the Tunisian Government to provide permanent facilities in Tunis with a view to encouraging trade among Member States.

13. Under Draft Agenda Item 7, following the explanations given by the COMCEC Coordination Office on the recirculation of the "Detailed Study on the Export Credit Insurance/Guarantee Scheme" among the member countries, the representative of IDB informed the Meeting that the Bank has not had any additional comment from the Member Countries since the last Follow-up Committee Meeting other than the responses of the 10 Member Countries already received. Taking advantage of the presence of the majority of the Member Countries, the Senior Officials discussed various aspects of the envisaged Scheme such as the scope of

insurance coverage, structure of rates of premiums, participation of the private sector, location of the scheme, under-writing capacity and country ceilings.

The Senior Officials agreed that the Scheme should cover both exports and investments in a step by step approach and the location of the Scheme would be IDB rather than setting up a new institution for it.

The Meeting, in view of fact that the participation in the Scheme would be on a voluntary basis and taking into consideration the consensus reached on the basic aspects of the proposed Scheme and considering that the remaining technical details of the Scheme could be worked out during the establishment process, decided to call on IDB to finalize the studies preparatory to the establishment of the envisaged Scheme.

14. Under Draft Agenda Item 8, the Senior Officials had detailed discussions on the recommendation of the Follow-up Committee regarding the renewal of the members of the Bureau of the COMCEC and the composition of the Follow-up Committee, which was not received, with consensus. At the end of their discussions the Senior Officials, in view of the importance of the subject and taking into consideration that the QIC General Secretariat is undertaking a study on the Rules of Procedure of the COMCEC, felt the need to defer the discussion of the subject until the

conclusion of the ongoing work on the Rules of Procedure of the COMCEC undertaken by the OIC General Secretariat to be submitted to the Sixth Meeting of the Follow-up Committee. The Senior Officials requested the OIC General Secretariat to circulate the Study on the Rules of Procedure of the COMCEC among the Member Countries prior to the Sixth Meeting of the Follow-up Committee.

15. Under Draft Agenda Item 9, the Senior Officials considered the suggestions made by some delegations in relation to economic measures in support of Palestine and Lebanon and agreed on the inclusion of separate chapters in the Second Draft Resolution on these issues.

16. Under Draft Agenda Item 10, the Senior Officials duly noted the recommendations contained in the Report of the Sessional Committee and agreed on their inclusion in the first draft resolution of the Fifth Session of the COMCEC.

17. Under Draft Agenda Item 11, upon request of the Turkish delegation, the representative of IDB made explanations in relation to the operations of the Longer Term Trade Financing Scheme.

18. Under Draft Agenda Item 13, following the explanations given by the COMCEC Coordination Office and after extensive discussions, the Senior Officials decided to recommend to the COMCEC that its Sixth Session would be held concurrently with

the First Ministerial Meeting on Technical Cooperation, on 7-10 October, 1990 in Istanbul. The Sixth meeting of the Follow-up Committee would be held on 20-22 March, 1990 in Istanbul. The Draft Agendas of the Sixth Session of the COMCEC and the First Ministerial Meeting on Technical Cooperation among the OIC Member States would be prepared at the Sixth Meeting of the Follow-up Committee.

19. At the closing session, the Senior Officials adopted the Report of the Meeting and reviewed the Draft Resolutions prepared by the Drafting Committee, reflecting the consensus reached by the Senior Officials on the items of the Draft Agenda and on other issues raised during the Meeting and decided to submit the Draft Resolutions through the Rapporteur to the Ministerial Session of the Fifth Session of the COMCEC.

20. The Chamber has decided to carry out feasibility studies on some selected projects jointly with the UNIDO.

4. Proposed that more Member States be urged to provide the legal framework for the establishment of Islamic financial institutions.
5. Noted with deep concern the continuing financial difficulties of the OIC subsidiary organs and affiliated institutions arising from the non-payment of the mandatory contributions and arrears on the part of Member States. This situation is seriously impeding the full realisation of the work programmes of these bodies.
6. Noted that the OIC subsidiary and affiliated bodies may in the future consider the possibility of raising funds through charging fees for the services they offer, such as training programmes and publications.
7. Further noting that this alone would not be sufficient to ease the financial difficulties of the Centres, urged the Member States to pay their mandatory contributions.
8. In view of the serious cash flow problems being experienced by the OIC subsidiary and affiliated bodies in general, and by the ICDT, ICTVTR and the SESRTCIC in particular, requested the Fifth Session of the COMCEC to launch an urgent appeal to the Member States who have not

SPEECH DELIVERED BY H.E. DR. HAMID AL GABID,
SECRETARY GENERAL OF THE ORGANIZATION
OF THE ISLAMIC CONFERENCE AT THE
CLOSING SESSION

Fifth Session of the COMCEC

(Istanbul, 6 September 1989)

Original : French

**SPEECH DELIVERED BY H.E. DR. HAMID AL GABID,
SECRETARY GENERAL OF THE ORGANIZATION
OF THE ISLAMIC CONFERENCE
AT THE CLOSING SESSION**

Fifth Session of the COMCEC

(Istanbul, 6 September 1989)

Mr. President, Chairman of the Standing
Committee for Economic and Commercial
Cooperation of the OIC,
Mr. Prime Minister, Alternate Chairman,
Honourable Ministers,
Excellencies,
Distinguished Delegates,
Ladies and Gentlemen,

Assalamu Alaikum Wa Rahmatullahi Wa Barakatuh

It is again a great honour for me to address the Joint Closing Session of the Fifth Meeting of the Standing Committee for Economic and Commercial Cooperation and the First Ministerial Conference on Energy.

At the very outset I would like to express our profound gratitude and thanks to His Excellency President Kenan Evren, the Chairman of COMCEC for his inspiring inaugural address yesterday which contained a comprehensive analysis of the positive results

achieved so far in the implementation of the OIC Plan of Action. His able guidance and wise leadership will always remain the guiding force for the economic activities of our Organization. At the same time, Prime Minister Turgut Özal's speech summarized the recent world economic developments and the protectionist policy of the industrialized world and their adverse effects on the economies of the Member States.

I wholeheartedly share and uphold the views expressed by their Excellencies the President and the Prime Minister that the problems of economic growth and balance of payments in the Islamic countries could be solved to a great extent, if the necessary measures designed to obtain a larger share of world trade *are* taken.

Mr. Chairman,

I am happy to note that the Fifth Session of COMCEC was concurrently held with the First Ministerial Meeting on Energy. We have had very fruitful and satisfying discussions during the past several days, both at the levels of Senior Officials and Ministers. The deliberations during these meetings were characterised by a high degree of pragmatism, seriousness of purpose, and a positive outlook to evolve practical and feasible measures to carry forward the process of joint action in the areas of the Plan of Action. I personally appreciate the

statement made by the Prime Minister regarding Turkish willingness to share the knowledge and experience she has acquired' in the production and distribution of electrical energy with the brotherly Islamic Countries. The Report and Recommendations of the Energy Ministers clearly set out the practical measures which are intended to be pursued in this vitally important sector of economic activity. I am confident that the measures of cooperation in the field of energy, which have been considered by the honourable Ministers, will produce for reaching results in our overall economic collaboration.

Mr. Chairman,

I would like to assure you, on behalf of the General Secretariat of the Organization of Islamic Conference and on my own behalf, our fullest cooperation in the implementation of the recommendation adopted by this Session of COMCEC as well as the Ministerial Meeting on Energy.

I would like to express our thanks and appreciation to the Government and the brotherly people of Turkey for their traditional generous hospitality and excellent arrangements made for the meetings. I also wish to express my thanks and appreciation to the Honourable Ministers, distinguished delegates and other observers from international organizations and subsidiary and affiliated bodies for their valuable contribution to the successful conclusion of these meetings.

Mr. Chairman,

Within a short span of time, COMCEC has played an effective role in strengthening and expanding cooperation and collaboration among the Member States of the Organization of the Islamic Conference in the economic and commercial fields and I can confidently say that this was entirely due to the able leadership and wise guidance of its Chairman, President Kenan Evren.

As we all know, President Kenan Evren will shortly be leaving on completion of his tenure as President of the Republic of Turkey and I, on behalf of the General Secretariat of the Organization of the Islamic Conference and on my own behalf, wish to record our deep gratitude and special tribute to him for his great services to the cause of Islam. I wish him good health, and a long and happy life.

May Allah bless him.

STATEMENT OF H.E. TURGUT ÖZAL
PRIME MINISTER OF THE REPUBLIC OF TURKEY,
ALTERNATE CHAIRMAN OF THE COMCEC
AT THE CLOSING SESSION

Fifth Session of the COMCEC

(Istanbul, 6 September 1989)

H.E. The President,
Honourable Ministers,
Distinguished Delegates,

As the four days' work of the Fifth Session of the COMCEC and the First Ministerial Meeting on Energy come to an end, I would like to express my thanks to the distinguished Heads and Members of the delegations from Member States, as well as to H.E. Hamid El-Gabid, Secretary General of the Organization of the Islamic Conference and his colleagues for their sincere efforts, and to the Islamic Development Bank and our other specialized Organs for carrying out the tasks they were entrusted with in a serious and dedicated manner.

Honourable Ministers,
Distinguished Delegates,

The developments and trends observed in world economy and politics necessitate further regional cooperation, while the

need for greater solidarity within the Islamic World is reconfirmed with every passing day. Economic and commercial cooperation stands out as the most realistic priority for cooperation among our countries. In today's conditions where, instead of self-sufficiency, reciprocal dependence and cooperation take the first place in international relations, economic cooperation contributes not only to the welfare of the countries, but also to regional and universal peace. I therefore wish to confirm once more that our Government attaches special importance to the COMCEC activities and, just as before, is prepared to give every possible support to those activities in the future.

Concurrent with the Fifth Session of the COMCEC, our Ministers responsible for Energy have had their first meeting and have laid the foundations of cooperation in yet another important area of priority. I wish to express my pleasure for the extension of COMCEC activities to cover cooperation on energy, and hope that the endeavours in this field will soon yield fruit in the form of tangible projects.

COMCEC has, through the five sessions held since its establishment, initiated cooperation in the six fields of priority stipulated by the Economic Cooperation Plan of Action, and has given impetus and discipline to the work that was already underway. The decision *you* have adopted on taking up Technical

Cooperation during the meeting to be held in 1990 is extremely appropriate, since cooperation in this particular area will bring an added impetus to the work in other cooperation areas previously selected, and will facilitate the accomplishment of the projects that are underway.

I am convinced that the completion of the work carried out by the General Secretariat on the scope and procedure of the COMCEC activities will also add to the efficiency of the work of the Standing Committee in future.

Honourable Ministers,
Distinguished Delegates,

Thanking once again all participating delegations for their efforts and invaluable contribution, I would like to express the sincerest good wishes of my Government and of the Turkish people to the brotherly Governments you represent and to your peoples. I hope that your stay in Istanbul was a pleasant one and that you are leaving Turkey with good memories. I wish to repeat my best wishes to you all.

Turgut ÖZAL

Prime Minister
Republic of Turkey

CLOSING SPEECH DELIVERED BY H.E. KENAN EVREN
PRESIDENT OF THE REPUBLIC OF TURKEY AND
CHAIRMAN OF THE COMCEC,
AT THE FIFTH SESSION OF THE COMCEC

(Istanbul, 6 September 1989)

Your Excellencies,
Distinguished Delegates,
Esteemed Guests,

We have come to the end of the work of the Fifth Session of the COMCEC and the First Meeting of the Ministers of Energy of Member States of the Organization of the Islamic Conference. During this work at Ministerial and Senior Officials level which has lasted four days, fruitful discussions have been made and wise decisions, which I believe to be beneficial to all Member States, were adopted.

I would like to thank the distinguished delegates, the General Secretariat of the Organization of the Islamic Conference, specialized organs of the OIC, and all technical and administrative staff, for their valuable efforts and contribution to the success of these meetings.

Distinguished Delegates,

With the Fifth Session of the COMCEC held concurrently with the First Meeting of the Ministers of Energy, foundations were laid for cooperation in a field of vital importance for the development and welfare of countries today. Once more, I would like to stress with satisfaction that our Committee has now taken up, within the allocated time, the six priority fields of cooperation stipulated in the Plan of Action, namely Commerce, Industry, Agriculture, Transport, Telecommunications and Energy.

Although the scope of the COMCEC activities will extend to cover other areas in the future, I believe that it will be more beneficial at this stage to concentrate our efforts on the tangible projects of our Agenda, which are part of the priority areas mentioned above, and the basic strategies of which are already defined.

As we all know, it was mostly matters relating to commercial cooperation that formed the COMCEC Agenda since the beginning. The follow-up and coordination of the activities initiated under the umbrella of the COMCEC in other fields have been carried out through well-defined methods and strategies. However, I am convinced that you will take the necessary measures to increase the efficiency of the COMCEC in its task of follow-up and coordination and to enable it to implement projects supporting the economic development of the Member Countries.

Your Excellencies,
Distinguished Delegates,

As I mentioned in my opening speech, in line with the Constitution of the Republic of Turkey, I shall soon leave my post as President.

It has been an honour and a pleasure for me to chair the COMCEC for five years since its foundation, during which, thanks to your valuable support and contribution, the COMCEC has been accepted as a forum where issues of economic cooperation among Islamic countries were dealt with and where high level authorities met to exchange their views.

I am convinced that activities of the COMCEC will continue to be as successful under the chairmanship of my successor, thanks to your invaluable contribution.

Before concluding, I would like to thank you all for your contribution in strengthening the economic cooperation among member countries and in the success of the COMCEC meetings since the beginning.

I would like to ask you to convey to the brotherly Heads of State and peoples of your respective countries my most sincere

greetings and those of the Turkish people, and I wish you all a happy and safe journey back to your countries.

Kenan EVREN

President
Republic of Turkey
