INTRODUCTION

The Standards and Metrology Institute for Islamic Countries (SMIIC), an affiliated institution to the Organisation of Islamic Countries (OIC), as a sound mechanism for harmonization of standards among the OIC countries and for preparation of new ones, aims at realizing harmonized standards in the Member States and eliminating technical barriers to trade and thus developing trade among themselves. It shall establish certification and accreditation schemes for the purpose of expediting exchange of materials, manufactured goods and products among Member States beginning with mutual recognition of certificates.

The SMIIC also aims at achieving uniformity in metrology, laboratory testing and standardization activities among Member States and providing education and training as well as technical assistance to the OIC Members in the domain of standardization, metrology and accreditation. Hence, the Institute encourages to cooperate with other regional and international organizations interested partially or wholly in standardization, metrology or related activities.

HISTORY OF SMIIC

At the first meeting of the Standing Committee for Economic and Commercial Cooperation (COMCEC) of OIC chaired by the Turkish President in 1984, it was emphasized that the standardization bodies of the Member Countries should harmonize their national standards for the purpose of eliminating technical barriers to trade and thus developing trade among themselves.

In this context, The Expert Group and Coordination Committee have convened 7 times (totally 14 meetings) from 1985 to 1997. According to the resolutions made at these meetings, it was decided to establish the Standards and Metrology Organization for Islamic Countries (SMOIC). The Expert Group in its 7th Meeting in 1996 decided to submit the draft statute of the SMOIC to the 12th COMCEC Meeting and it was decided that the name of the organization be changed as the Standards and Metrology Institute for Islamic Countries (SMIIC) in the 12th COMCEC Meeting.

Following the 12th COMCEC Meeting, member organizations sent their comments on the draft statute to the Turkish Standards Institution (TSE) and the OIC General Secretariat. During the 13th COMCEC Meeting held on November 01-04, 1997 in Istanbul, it was decided that the draft statute of SMIIC should be reviewed with respect to both technical and judicial content in the frame of the opinions received from member countries.

In the frame of this decision, the 8th Expert Group Meeting was held on March 24-26, 1998 in Ankara by the participation of the experts representing their standardization bodies, Deputy Secretary General of OIC and OIC Chief Judicial Adviser. During this meeting, the draft statute was re-written in the frame of the opinions of member countries, judicial rules of OIC and international experience of TSE and circulated to the member countries as a final draft. Furthermore, the submission of the draft statute for its approval at 14th COMCEC Meeting was decided.

The mentioned draft statute was included to the agenda (Article 7) of the 14th COMCEC Meeting held on November 01-04, 1998 in Istanbul and approved after comprehensive
negotiations. Consequently, an important step was taken in order to begin the official work of SMIIC as a regional standardization organization.

The Statute of SMIIC was first submitted to the member countries for its signature during the 15th COMCEC Meeting held on November 04-07, 1999 in Istanbul.

The Statute entered into force after fulfilling the ratification requirement of 10 OIC member countries on May 2010. 13 OIC Member Countries (in alphabetical order) which ratified the SMIIC Statute are:
1- People’s Democratic Republic of Algeria,
2- Republic of Cameroon,
3- Republic of Guinea,
4- Hashemite Kingdom of Jordan,
5- Libya,
6- Republic of Mali,
7- Kingdom of Morocco,
8- Islamic Republic of Pakistan,
9- Republic of Somalia,
10- Republic of Sudan,
11- Republic of Tunisia,
12- Republic of Turkey, and
13- United Arab Emirates.

At the 3rd General Assembly Meeting held on 04-05 May 2012,
- Republic of Gabon,
- Republic of Gambia,
- Islamic Republic of Iran and
- Republic of Senegal
became the new members of SMIIC.

ACTIVITIES

THE FIRST BOARD OF DIRECTORS (BOD) MEETING OF SMIIC

After the inaugural First General Assembly Meeting of SMIIC held in Ankara, Republic of Turkey on 02-03 August 2010, resulting in the establishment of SMIIC; The First Board of Directors Meeting of SMIIC was held in Istanbul, Republic of Turkey on 08 January 2011. The meeting was attended by Member States who have membership in the SMIIC Board of Directors.

The Board unanimously adopted the Action Plan for SMIIC for the term 2011-2012 to enable the Institute to effectively fulfil its designated missions. The Action Plan embodies promotional and organizational activities, which includes: inter alia, attracting OIC countries to the membership of SMIIC, representation of SMIIC at the relevant international and regional platforms; establishing organizational units and human resources of the Institute; and initiating work to revise the SMIIC Statute to keep up with the present approaches in the world.
The Board endorsed that SMIIC is the ideal platform for undertaking the mandate of halal food standards and procedures, and decided to consider the three draft standards (prepared by Standardization Expert Group, before the establishment of SMIIC, mandated by COMCEC) as SMIIC standards.

The Board decided to establish a Technical Committee on this issue with the involvement of both SMIIC members and non-members (as observers) which are OIC Member States to undertake any further tasks with regard to the halal food standards.

Within this frame, the Technical Committee Meeting was held in Yaoundé, Republic of Cameroon on 16-17 May 2011, with the participation of 33 representatives from various OIC Member States. The mentioned Technical Committee Meeting considered and adopted the three documents, with the contributions of 39 OIC-SEG Member Countries and the International Islamic Fiqh Academy (IIFA), as OIC/SMIIC Standards, namely;

- “OIC/SMIIC 1:2011, General Guidelines on Halal Food”,
- “OIC/SMIIC 2:2011, Guidelines for Bodies Providing Halal Certification” and
- “OIC/SMIIC 3:2011, Guidelines for the Halal Accreditation Body Accrediting Halal Certification Bodies”.

The mentioned standards entered into force as of 17 May 2011. The adoption of the first three SMIIC standards were communicated to the National Standards Bodies of all OIC countries as well as the General Secretariat of the OIC (28 May 2011-SMIIC 2011/9).

THE SECOND GENERAL ASSEMBLY MEETING OF SMIIC

The Second SMIIC General Assembly (GA) was held in Istanbul, Republic of Turkey on 12-13 July 2011. The decisions taken at the General Assembly generated important steps that would pave the way for a more efficient SMIIC.

Among the steps taken are the designation of SMIIC logo and the revision of SMIIC Statute in a way that would better address the current needs and facilitate membership procedure. According to the revised provision of the Statute (Article 4), the membership of SMIIC no longer requires the ratification of the SMIIC Statute by the Member State. Instead, the National Bodies of the OIC Member States can now be admitted into the Institute as a member upon their application to the SMIIC General Secretariat. With this greatly simplified membership procedure, SMIIC will surely flourish at a quick pace by attracting more OIC Member States.
The General Assembly also endorsed the encouragement of the implementation of OIC/SMIIC Standards by the SMIIC members as their national standards and with regard to halal issues, decided to encourage the mutual recognition of the certificates issued in line with OIC/SMIIC Standards.

Option A: Stunning is prohibited in general. This option will lead to a high number of A-deviations making the European Standard less applicable in European countries.

Option B: Stunning is allowed under certain conditions, e.g. the stunning shall ensure that the process is reversible, methods of stunning complying with these conditions can be indicated in an Annex of the European Standard (same approach in the OIC/SMIIC 1).

Technical Committees have the significant role to form new OIC/SMIIC Standards which will be useful to improve trade and the infrastructure of Member States within OIC. For the functioning of the Technical Committees it is vital that all Member States and Correspondents actively participate in their selected Committees. General Secretariat would like to stress that the actual SMIIC work will take place in these committees and SMIIC members and as well as OIC members are strongly encouraged to participate and contribute to SMIIC technical work with their voting rights and/or comments in fields in which they feel themselves technically strong and more experienced. Non-member countries are also very much welcome to contribute to the technical committee work with an observer status.

In facilitation of these activities, a SMIIC SUMMIT will be held during the first half of November 2012. The SMIIC SUMMIT 2012, will function as a platform to draw together experts and representatives from the fields of standardization, accreditation and metrology. During the SMIIC SUMMIT 2012 discussions regarding the current situation of these fields internationally and in the OIC Member States, steps that need to be taken and the projects that need to be launched will take place.
RECOMMENDATIONS

1- SMIIC General Secretariat expects from all members of SMIIC (ideally from all OIC Member States after completing the membership procedure) to adopt the existing OIC/SMIIC Standards as their national standards and launch certification activities for the sake of supporting a common standard and common certification mechanism among OIC Member States.

   1- Republic of Azerbaijan
   2- Burkina Faso
   3- Republic of The Gambia
