

# COMCEC ProjectFunding

## LOGICAL FRAMEWORK APPROACH

June 10<sup>th</sup>, 2015 / Ankara, Turkey

# What is Log Frame Approach (LFA)?

# What is Log Frame Approach (LFA)?

con't

- ▶ *The LOGFRAME MATRIX is a participatory Planning, Monitoring & Evaluation tool*
- ▶ *whose power depends on the degree to which it incorporates the **full range of views of intended beneficiaries** and others who have a stake in the program design.*
- ▶ *It is a tool for **summarising the key features of a project** and is best used to help project designers and stakeholders*

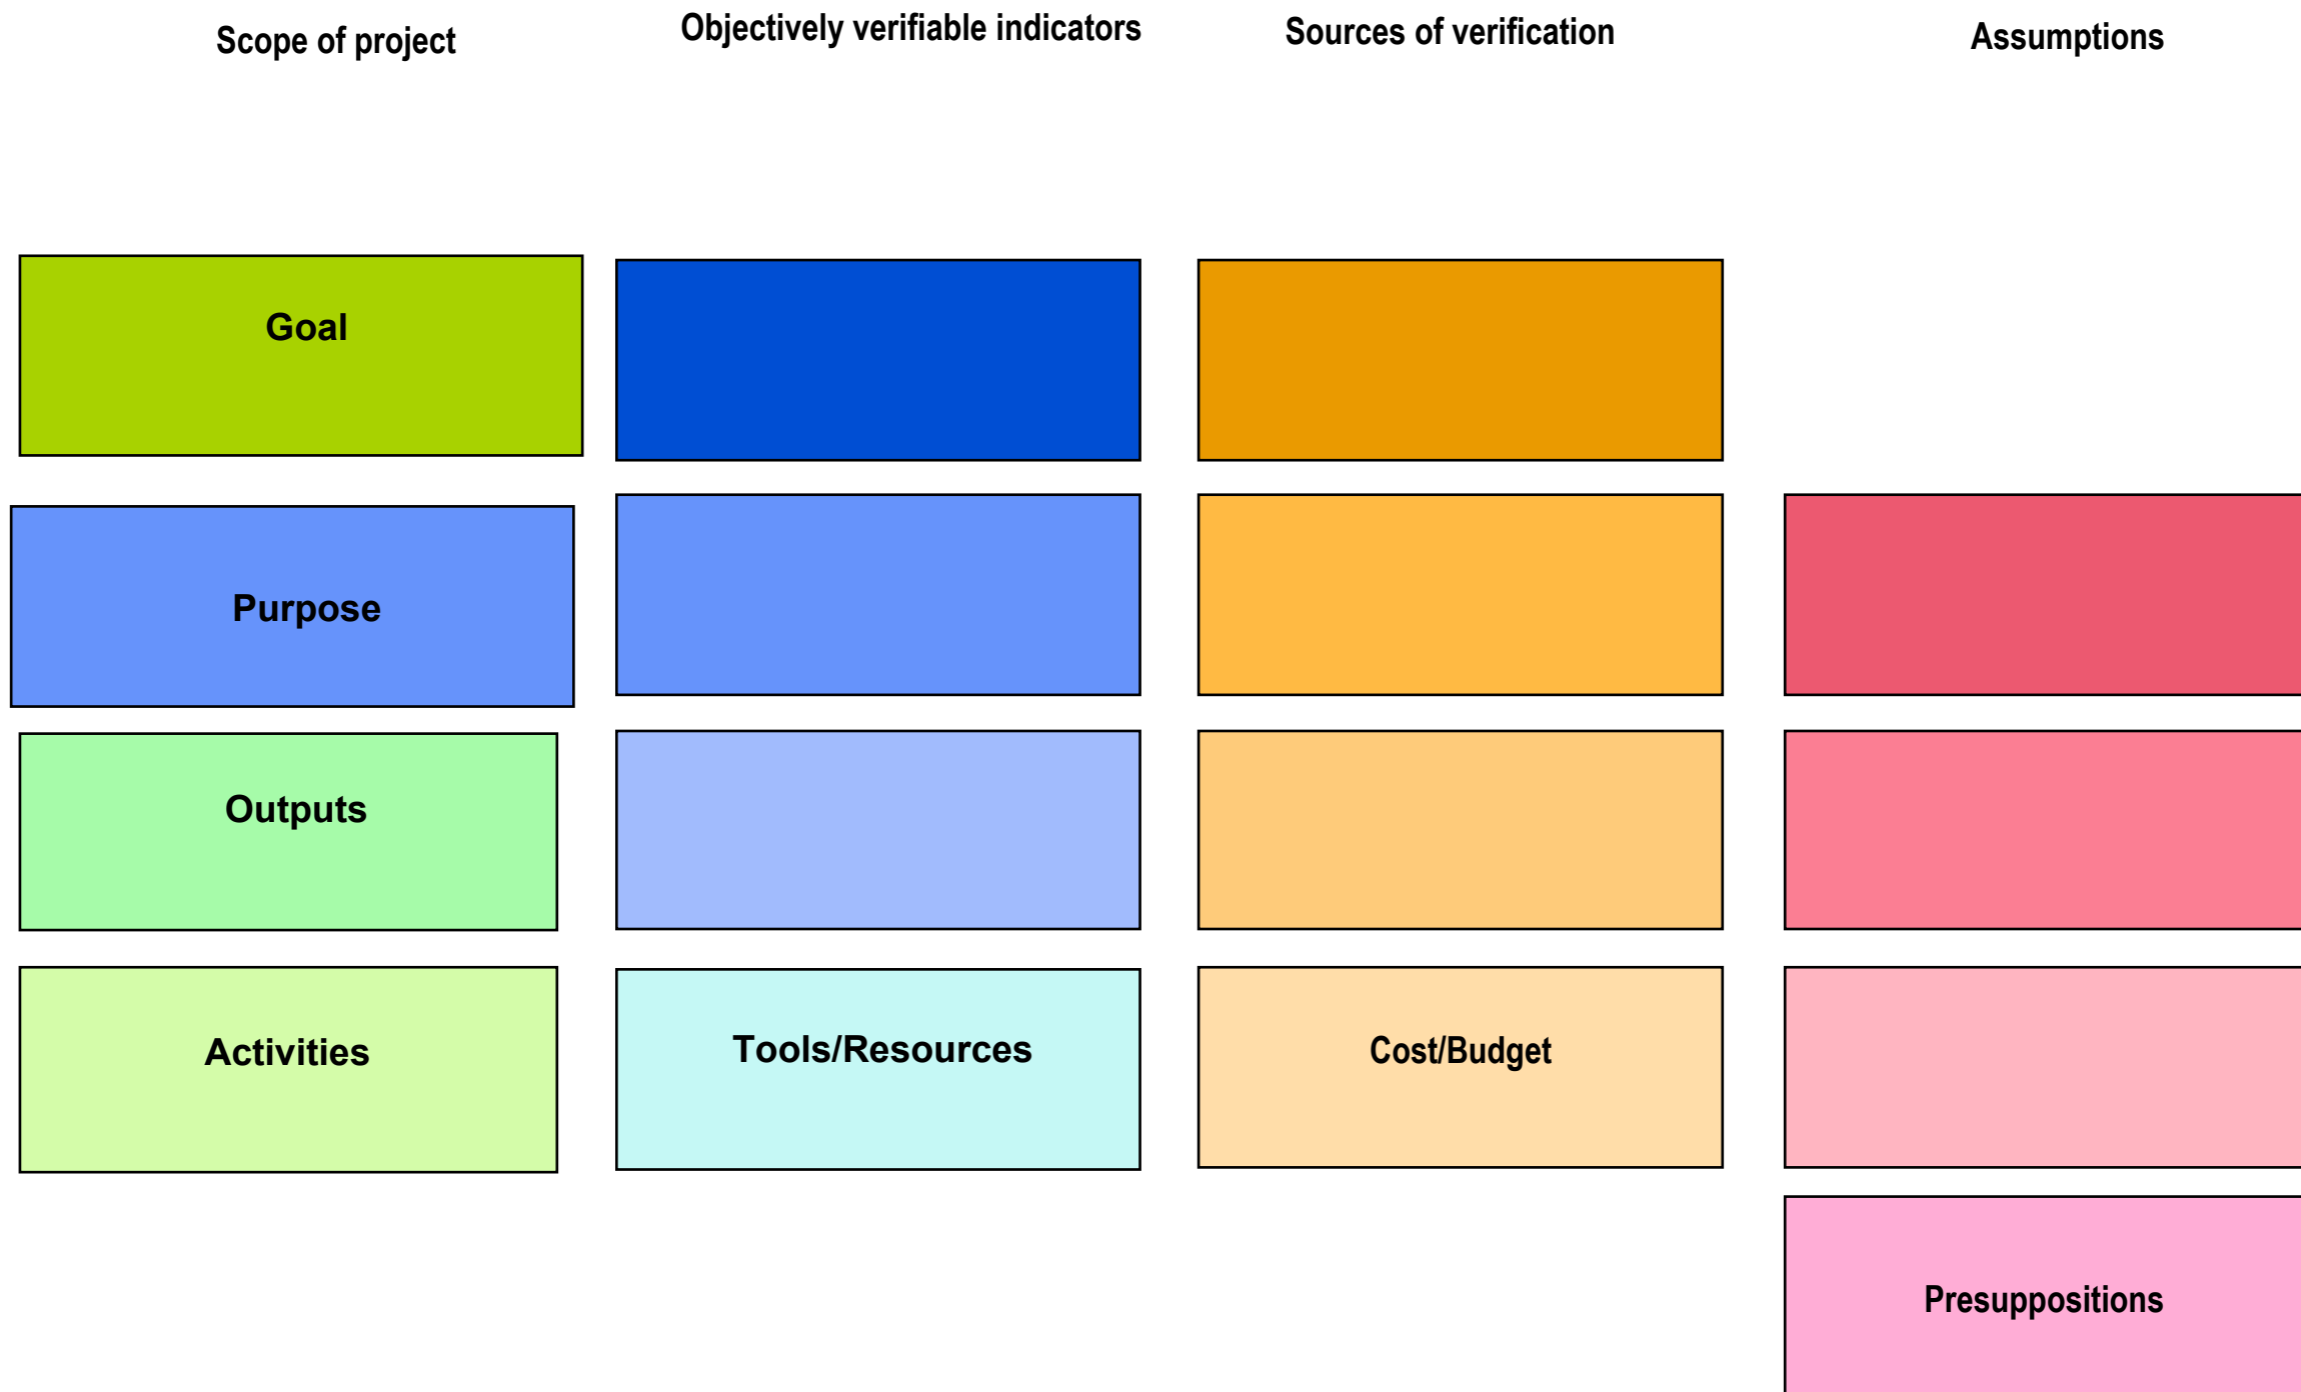

# What is Log Frame Approach (LFA)?

*con't*

- ▶ LFA is a **systematic planning procedure** for a complete project cycle management
- ▶ It is a problem solving approach which **takes into account the views of all stakeholders**
- ▶ It also agrees on **the criteria for project success** and lists the major assumptions

*con't*

## ACTIVITIES

- ▶ *Tasks to be implemented as part of the project to produce the results of your project*
- ▶ *Use of resources based on the defined budget and time. Production of the results that will allow you to reach the project objectives.*

# What is Log Frame Approach (LFA)?

*con't*

# What is Log Frame Approach (LFA)?

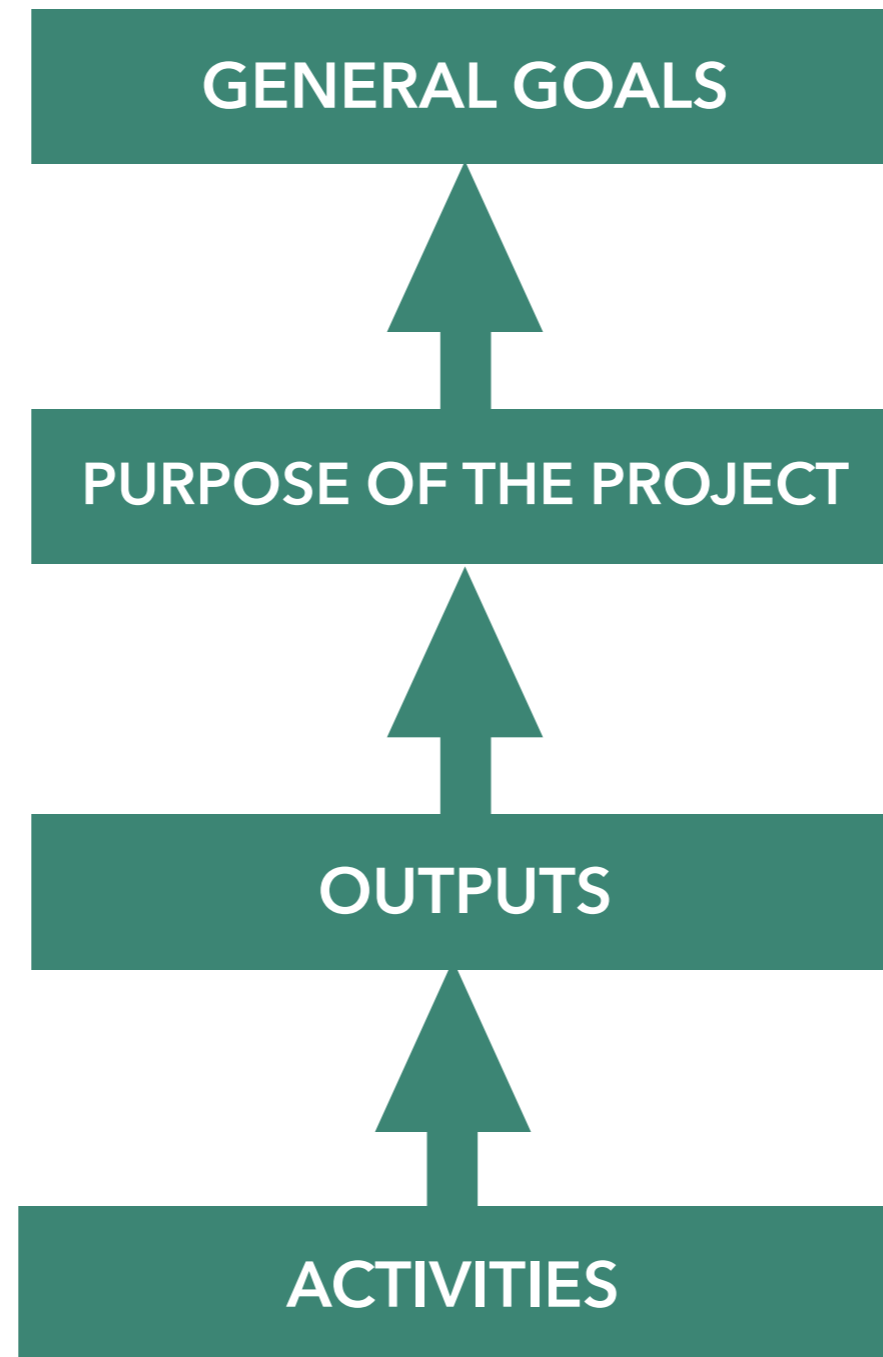

*con't*

## OUTPUTS

- ▶ *The products of the activities*
- ▶ *Sub-targets need to be defined in a measurable and achievable manner in order to realise your objectives.*

# What is Log Frame Approach (LFA)?

*con't*

# What is Log Frame Approach (LFA)?

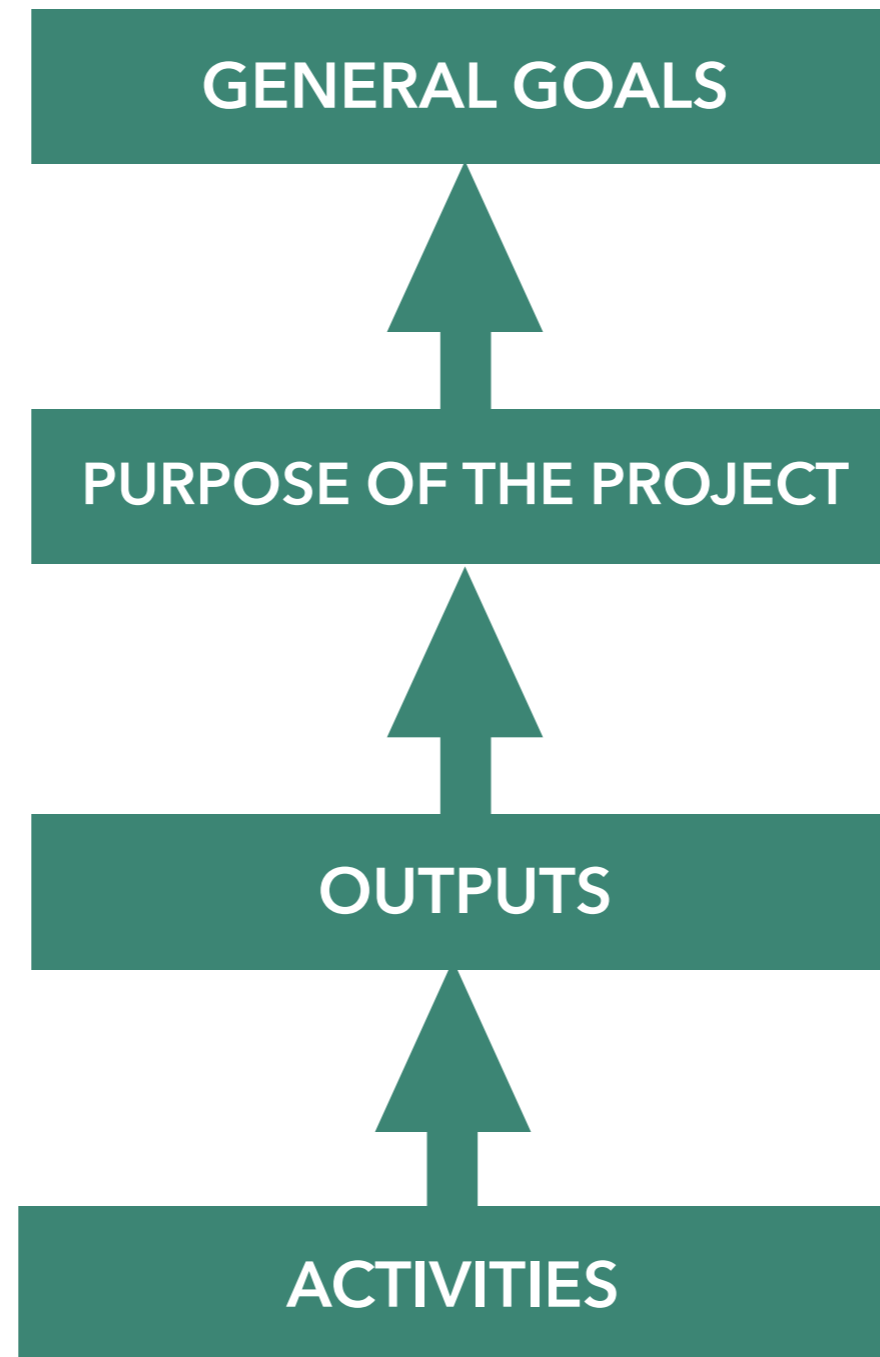

con't

## PURPOSE OF THE PROJECT

- ▶ *The main purpose of your project in terms of providing sustainable benefits for the target group*
- ▶ *Realised/achieved at the end of your project. Purposes should be unique, measurable, attainable, realistic and defined depending on a specific time and place.*

# What is Log Frame Approach (LFA)?

*con't*

# What is Log Frame Approach (LFA)?

*con't*

## GENERAL GOALS

- ▶ *The higher level objectives that your project is going to contribute*
- ▶ *Ideal - realised in the long term*

# Assumptions

---

- ▶ **Risks**: *all the negative effects and external factors which we refer to as important for the success of your project.*
- ▶ **Assumptions** : *positively expression of the external factors that influence or determine the success of your project*
- ▶ **Presuppositions**: *conditions that must be overcome before activities start*

# Indicators of Success

---

## ▶ *What is it?*

- ▶ *It is a tool that allow you to measure the operational objectives and performance of the project,*
- ▶ *monitor every stage of the project.*
- ▶ *give brief information about the quality, quantity, time and place of intervention.*

## ▶ *How Does It Benefit?*

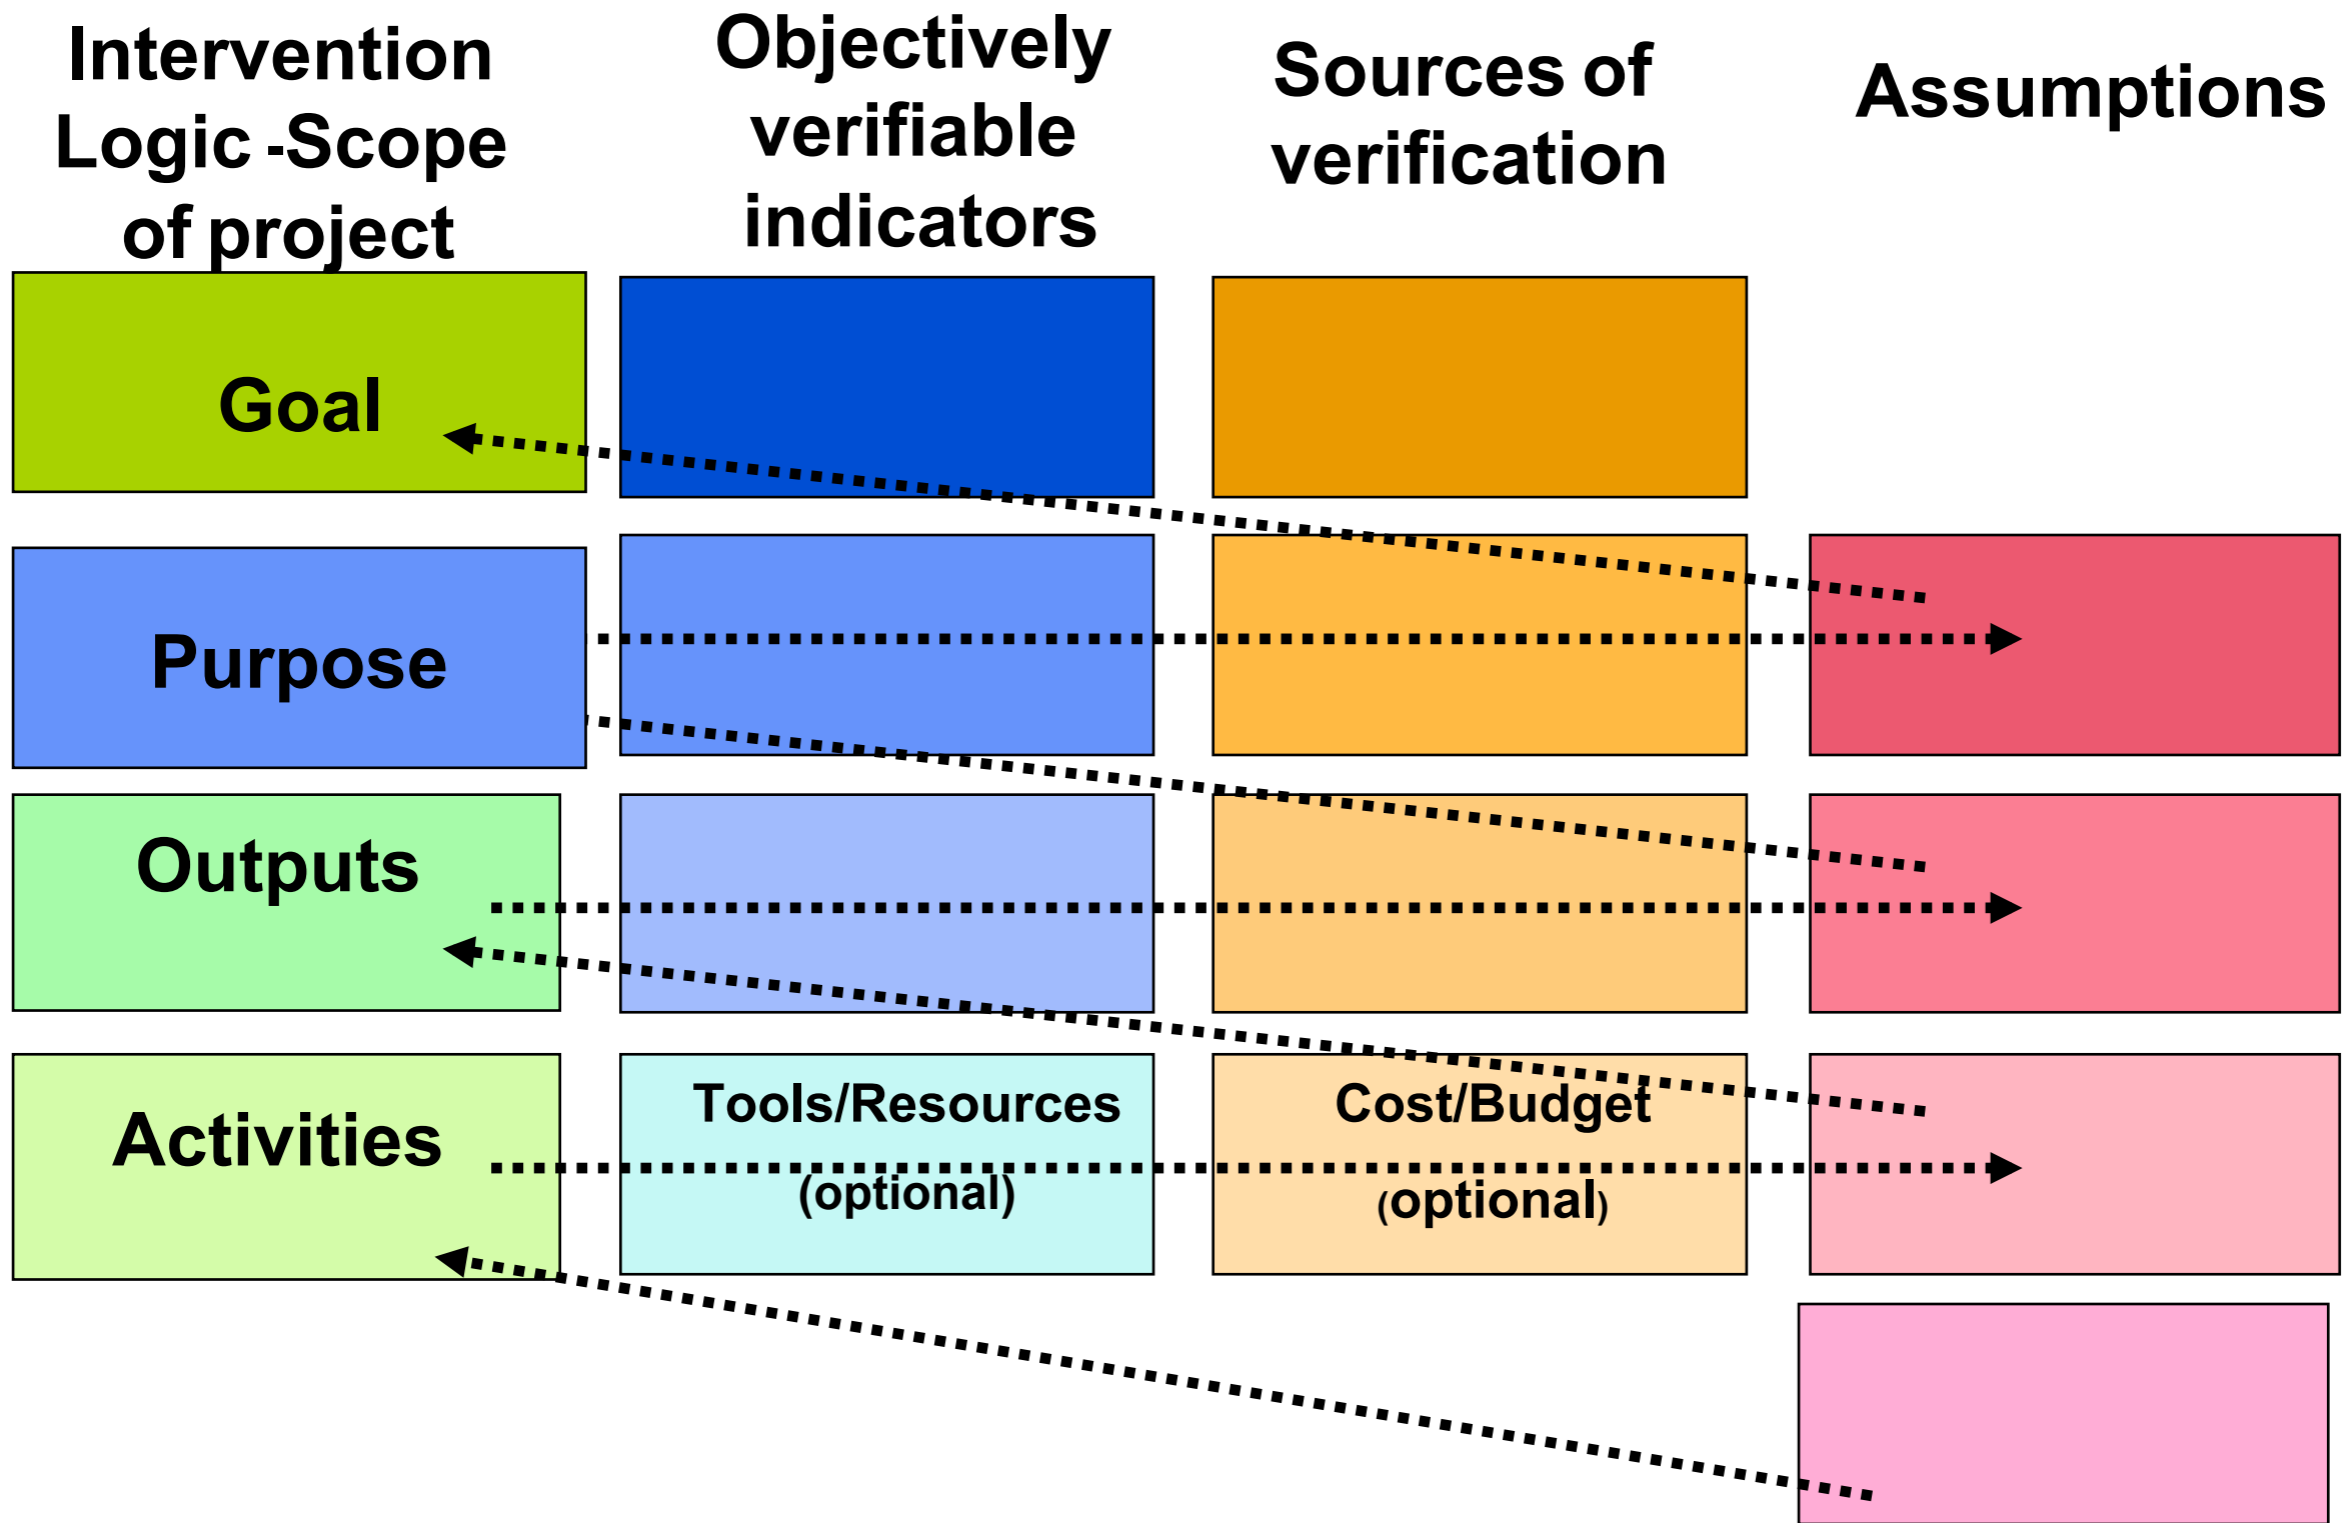

- ▶ *Clarify overall objectives, the project purpose and the results of the characteristics.*
- ▶ *Allow you to manage projects more objective manner.*
- ▶ *Form a basis for performance measurement, monitoring and evaluation.*

# Sources of Verification

---

- ▶ *Verification Resources are documents, reports, and other resources that will provide the necessary information for controlling the indicators*
- ▶ *Verification resources should also be specified simultaneously with the identification of indicators.*
  - ▶ ***Verification resources should provide the following information :***
    - ▶ *Format for information to be provided (ex: progress reports, project accounts, project records, official statistics etc.)*
    - ▶ *Who will provide information*
    - ▶ *Which frequency the information will be provided (ex: monthly, quarterly, annually, etc.)*

# After the Coffee Break...

- ▶ *Workshop for Preliminary Project Proposals (6 discussion groups)*
  - ▶ *Simple project fiche*
  - ▶ *Project Budget*

***Duration: 1:45 hours***
