BACKGROUND

The Islamic Centre for Development of Trade (I.C.D.T) is a subsidiary organ of the Organisation of Islamic Cooperation (O.I.C) in charge of Trade Promotion between Islamic Countries. ICDT was mandated by the Secretary General of the O.I.C and the Standing Committee for Economic and Commercial Cooperation for Islamic Countries (COMCEC) to follow up, in collaboration with the Group of the Islamic Development Bank, on the multilateral trade negotiations organised by the World Trade Organisation (W.T.O) and extend support, provide relevant training and technical assistance to the OIC Member States in this field. Within this framework, I.C.D.T submits on a regular basis, progress reports on these negotiations to the COMCEC annual meetings, the Islamic Commission for Economic, Cultural and Social Affairs of the O.I.C and the Council of the Foreign Affairs Ministers (CFM).

Likewise, ICDT produces reports and studies in preparation of the WTO Ministerial Meetings in order to shed light on the positions of Islamic Countries at these meetings and identify a common platform to coordinate their positions.

Besides, the Centre organizes seminars and workshops on the Multilateral Trade Negotiations for the benefit of the representatives of the OIC Member States from both the public and private sectors and on intra-OIC trade negotiations.

- This report is divided into three sections:
 - ✓ Section I: Recent developments of the WTO activities relating to the OIC Member States;
 - ✓ Section II: ICDT activities in the field of the WTO;
 - ✓ Section III: Status of accession negotiations to WTO of OIC Member States.

SECTION I:
**RECENT DEVELOPMENTS OF THE WTO ACTIVITIES RELATING
TO THE OIC MEMBER STATES**

I) RECENTS DEVELOPMENTS OF WTO

a) Trade Facilitation Agreement Facility

At the request of the ACP group, the Trade Facilitation Agreement Facility (TFAF) conducted a half-day workshop on Trade Facilitation notifications on 22 July 2019 at the World Trade Organization in Geneva, Switzerland.

The workshop focused on assisting non-LDC ACP WTO Members to complete outstanding notifications under the WTO Trade Facilitation Agreement (TFA) that are required in order to allow developing countries to take advantage of implementation flexibilities. An August 22, 2019 deadline, which is the final deadline for developing countries, relates to the notification of definitive dates for the implementation of provisions of the Agreement which developing country WTO Members have self-designated as requiring technical assistance and capacity building before implementation ("Category C").

The workshop was graciously opened by Her Excellency, Cheryl Spencer, Permanent Representative of Jamaica to the United Nations and other International Organizations in Geneva and Coordinator of the ACP Group in Geneva.

This workshop followed a similarly-focused retreat conducted for Least Developed Country (LDC) Members in June in Lausanne, Switzerland. And had an agenda which covered the review of Members' TFA implementation to date, notification requirements, deadlines, experience-sharing and was designed specifically to the current status of the Members in attendance.

Concluding with a working group session, participants of the non-LDC ACP workshop completed an action plan of how they would advise their national TF committee in the capital to meet the August 22 deadline. Presenters were from the WTO Secretariat, the Government of Guyana, Summit Alliances International and the United Nations Conference on Trade and Development (UNCTAD). Presenters also facilitated the working groups and answered remaining questions on the notification process.

Seventeen delegates attended the workshop. In addition, the event was live-streamed and accessible to capital-based officials in the ACP countries.

This workshop was followed by several scheduled drop-in sessions during which Members received one-on-one advice on their notification situation.

Trade Facilitation Week took place at the WTO from 14 to 18 October 2019. Events were centred around the WTO Trade Facilitation Committee on 15 October and the Committee's annual dedicated session on technical assistance on 16 October.

Building on the success of a similar initiative in 2018, TFA Facility funded government officials with trade facilitation expertise from more than 50 LDC and developing country WTO Members to attend the week.

TFAF invited donors and partners to host sessions or to propose topics for workshops on either side of the Committee meeting. This approach allowed the Geneva-based TF community to benefit from the attendance of the capital-based experts and kept the travelling participants engaged and involved throughout the week. Topics covered by partners ranged from TFA and disaster response, legislative and policy considerations to a UNOHRLLS experts group meeting on improving transit cooperation and trade facilitation. Pacific and island countries also had dedicated sessions covering TFA implementation issues specific to them, including automation

and the facilitation of Food and Agriculture trade. The UK's Department for International Development and the EU each held sessions on monitoring and evaluation and the REX registered exporter system for LDCs respectively.

Sessions organized by TFA Facility reflected an increasing focus on implementation of the Agreement following a successful push to meet notification deadlines over the summer. A special emphasis was placed on sessions designed to bring together development partners and Members seeking assistance to implement provisions of the Agreement designated under Category C – requiring technical assistance to implement.

b) Notifications and ratifications

The Trade Facilitation Agreement (TFA) concluded in Bali in December 2013 came into force on 22 February 2017, following its ratification by two-thirds of WTO members. The last countries that have ratified the EFA are: Guinea, Burundi, Cape Verde, Tanzania, Vanuatu, Tunisia and Colombia (10 August 2020), bringing the increase to 153 the total number of ratifications out of the 164 WTO members.

Among the Member States that have ratified the EFA, 41 out of 153: Malaysia, Niger, Togo, Pakistan, Guyana, Côte d'Ivoire, Brunei, Mali, Turkey, United Arab Emirates, Albania, Kazakhstan, Saudi Arabia, Afghanistan, Senegal, Bahrain, Bangladesh, Gabon, Kyrgyzstan, Mozambique, Nigeria, Oman, Chad Jordan; Qatar, Gambia, Indonesia, Djibouti, Benin, Uganda, Burkina Faso, Cameroon, Morocco, Egypt, Tajikistan, Guinea and Tunisia.

We recall that 44 OIC Member States are WTO members with Afghanistan, which acceded to it on 29 July 2016. Eleven OIC Member States are in the process of joining the WTO.

c) ACCESSION TO WTO

The WTO accessions take place on the interrelated pathways multilateral, plurilateral and bilateral negotiations. Some processes have made significant progress in 2013, while others have not progressed as expected due to various factors, including further negotiations with Members, technical complexities, internal difficulties and choices.

Significant technical work has been undertaken on several accessions. Thus, the combination of technical assistance and outreach activities of the Secretariat is essential to help Members and acceding governments in their negotiations and better understand the effects and results

of accession mean for the future of the Organization. In this regard, the contributions of the Chairmen of working groups were vital. It should be noted that technical assistance benefitted from the financial contribution of the following countries: Australia, Brazil, China, the United States, India and the European Union (EU) and its individual Member States.

Important technical work has been undertaken on several accessions. Thus, the combination of the Secretariat's technical assistance and outreach activities is essential to help Members and governments enter their negotiations and to better understand what the effects and outcomes of accessions mean for the future of the Organization. In this regard, the contributions of the Chairs of the working groups have been vital. It should be noted that this technical assistance has seen the financial contribution of the following countries: Australia, Brazil, China, the United States, India and the European Union (EU) and its various Member States.

The Secretariat organized a five-day training course on Goods Schedules for acceding governments from 18 to 22 November 2019. Twenty officials from 12 acceding governments (Algeria, Azerbaijan, Belarus, Bhutan, Bosnia and Herzegovina, Comoros, Ethiopia, Lebanese Republic, Serbia, South Sudan, Sudan, Uzbekistan) attended the week-long course, together with officials from three WTO Members. The advanced course provided in-depth training on accession related aspects of trade in goods, including scheduling techniques, discourses on commitments and concessions in goods market access as well as experience sharing sessions where participants could interact with WTO Members involved in accession negotiations. In addition, former negotiators from four recently acceded Members - Kazakhstan, Lao PDR, Montenegro, and Yemen shared their experiences in the market access negotiations and offered advice to the acceding governments. The thematic focus will be "Economic Transformation through WTO Membership and AfCFTA Implementation". The target participants are government officials responsible for WTO accession and private sector representatives from African acceding governments.

The practice of meetings with various groups of members at the WTO has intensified, in order to focus on the specific issues and concerns of each group. The overall objective is to report to Members on the activities of the calendar year, to gather their observations and to identify concerns to be addressed.

The Secretariat met with the LDC Advisory Group, the Informal Group of Developing Countries, the Asian Group of Developing Countries, GRULAC, the African Group and the Arab Group. During these meetings, he briefed the groups on the status of accessions, reported on its activities, exchanged views on the responsibilities of neighbors/regional groups, discussed the concerns raised by accessing governments and members, and consulted with its interlocutors on technical accession priorities for 2014.

d) TECHNICAL ASSISTANCE AND AWARENESS

Technical assistance and capacity building related to accession are focused on training government officials. They also include outreach activities for parliamentarians, the private sector, academia, civil society and the media.

Technical Assistance and capacity building activities were provided as follows:

- (i) National seminars;
- (ii) Sessions on accessions during advanced trade policy courses, regional courses and introductory courses for LDCs;
- (iii) Workshops;
- (iv) Technical missions;

- (v) Visits by working group chairs;
- (vi) Creating or strengthening WTO reference centers;
- (vii) Online training;
- (viii) Dialogue with WTO member groups;
- (ix) And attending conferences.

Between 9 and 12 October 2019, WTO Members held a meeting of the Trade Facilitation Committee and additional workshops on EFA-related topics. Thus, these workshops are open to all WTO members and observers during which the EFA donation program is launched on 9 October 2019. Additional closed sessions will be held for LDCs and Pacific Island countries.

Eleven OIC Member States are in the process of joining the **WTO**. While there are clear benefits to membership, accession negotiations are a challenge for all acceding governments, including LDCs. The terms and conditions of accession require domestic reforms. Accessing LDCs have limited technical and human capacity and financial resources to deal with the complexities of WTO accession.

Providing technical assistance to accessing governments, particularly to developing and least developed countries (LDCs) accessing, is a key priority for the OIC and the WTO. Technical assistance, capacity building and accession awareness activities are organized, with the WTO Secretariat, the IDB and the ICDT responding to specific requests from an acceding government. These activities are carried out in close coordination with the Accession Division and the Institute for Training and Technical Cooperation (IFCT).

e) TOOLS FOR ACCESSIONS

In July 2016, the WTO launched a new Intelligent Membership Portal that improves access to wto membership information as well as many new features, such as direct access to all laws notified for completed memberships. The portal is available at:

<https://www.wto.org/accessions>. Membership Commitments Database (ACDB): The Membership Commitments Database was launched in May 2012. It provides access to all of the commitments and related information contained in the membership working group reports and membership protocols of the 31 Members under Article XII MC (<http://acdb.wto.org>). In 2018, the database has been updated to include the accession protocols of all Article XII Members and the commitments contained in them.

The Second Regional Dialogue on WTO Accessions of the Great Horn of Africa was held in Djibouti from 3 to 6 December 2018. It was organized by the WTO Secretariat in partnership with the Djiboutian government and the International Trade Centre (ITC) and focused on "Trade in the Service of Peace through WTO accession". The Dialogue attracted more than 80 participants, including ministers, senior officials and private sector representatives from LDC governments accessing the OIC in the region such as Comoros, Somalia and Sudan. Other participants from Member States include Afghanistan, Yemen and Djibouti, development partners (the Intergovernmental Authority on Development, the Trade Policy Training Centre in Africa, the United Nations Economic Commission for Africa and the World Bank) and international experts,

including ministers, senior officials and private sector representatives from LDC governments accessing the OIC in the region such as Comoros, Somalia and Sudan. Other participants from Member States include Afghanistan, Yemen and Djibouti, development partners (the Intergovernmental Authority on Development, the Trade Policy Training Centre in Africa, the United Nations Economic Commission for Africa and the World Bank) and international experts.

The 3rd Regional Dialogue on WTO Accessions for Africa, Addis Ababa, 12 – 14 February 2020
The Secretariat will organize the Third Regional Dialogue on WTO Accessions for Africa from 12 to 14 February 2020. The event will take place in Addis Ababa, at the United Nations Conference Centre. Partners for this activity are the African Union Commission (AUC), the International Trade Centre (ITC), the United Nations Economic Commission for Africa (UNECA), the World Bank and the Government of Ethiopia. The thematic focus will be "Economic Transformation through WTO Membership and AfCFTA Implementation". The target participants are government officials responsible for WTO accession and private sector representatives from African acceding governments.

on 29 June – 3 July 2020, the Secretariat delivered the first virtual Accessions Week. The week-long activity comprised ten 90-minute webinars of lectures, training, dialogues and roundtables, covering topical issues in accession.

The Accessions Week started with a High-Level Opening session focused on the present and future value of WTO membership, with the participation of WTO Deputy Director-General Alan Wolff, Ambassador Zhanar Aitzhanova of Kazakhstan, former Chief Negotiator for WTO Accession, Ms. Luisa Santos, Deputy Director-General of Business Europe, and Professor Monika Mrazova from the University of Geneva.

This was followed by sessions providing an overview of accessions and bilateral market access negotiations on goods. The rest of the Week had three dialogues focused on Eurasia, Arab region and LDCs and four roundtables of Chief Negotiators, Working Party Chairpersons, development partners and the private sector. In total, the Accessions Week benefited from knowledge, experience and insights from 42 experts who have been directly involved and associated with accessions.

A total of 857 participants from acceding governments, WTO members, IGOs, academia and the private sector, were connected to various webinars, injecting questions and comments and actively engaged with panellists. Overall, the feedback was very positive.

At the invitation of the Group, WTO Deputy Director-General Alan Wolff shared his views on the impact of the COVID 19 pandemic on the WTO and on accessions. He welcomed the active engagement by several acceding governments despite the pandemic crisis and highlighted the importance of trade integration during this crisis.

On 9 June 2020, the Informal Group of Acceding Governments (IGAG) held a virtual meeting at the level of Heads of Delegation, chaired by Ambassador Yury Ambrazevich of Belarus. The meeting was attended by 35 officials from 17 acceding governments, including a Minister and four Chief Negotiators connected from their capitals.

Nine acceding governments intervened to share their views on the impact of COVID 19, globally and nationally, including on their respective accessions. Notwithstanding the current crisis, acceding governments reiterated their full commitment and readiness to move forward in their accession processes. On 21 July 2020, the IGAG, jointly with the Group of Article XII Members coordinated by Panama, met with H.E. Ms. Amina Mohamed (Kenya) and H.E. Mr. Tudor Ulianovschi (Moldova) – candidates for the post of the next WTO Director-General. A significant part of the discussion was devoted to WTO accessions and the possible role of the Director-General in facilitating accessions.

II – TRADE IN SERVICES:

On 9 April 2018, WTO members appointed Ambassador Aitzhanova, Chair of the Services Trade Negotiations Committee, who stressed the importance of the services sector to all countries, regardless of their level of development, and the dynamism of the sector. It announced that it would consult with Members to facilitate future discussions.

Services negotiators expressed their willingness to resume negotiations on:

- (i) Better access to service and service provider markets for other WTO members;
- (ii) the development of new disciplines to make domestic regulation more objective and transparent and to ensure that domestic regulation is not unnecessarily cumbersome;
- (iii) the services aspects of e-commerce (the electronic provision of services).

Some Member States have indicated that this could help pave the way for the potential outcomes of the Services at the Eleventh Ministerial Conference in 2017.

SECTION III

STATUS OF ACCESSION NEGOTIATIONS TO WTO

OF OIC MEMBER STATES

The total number of the WTO Member reached 164 countries with the accession of the Islamic Republic of Afghanistan during the 10th WTO Ministerial Conference. Currently, 44 WTO Member States are OIC Members, that is to say more than the quarter of the WTO Members. The WTO Member States account for about 97% of the world economy.

The current number of the OIC Member States that have applied for accession to the WTO is 11, these are: Algeria, Azerbaijan, Iraq, Iran, Lebanon, Libya, Uzbekistan, Sudan, Syria, Comoros and Somalia.

During the meeting on WTO accessions, Mr. Wolff Alan, Deputy Director General of the Informal Group of Governments acceding to the WTO held on 25th April, had supported these countries to meet regularly and share their experience with a view to furthering their accession negotiations and inquiring about WTO reforms.

At the individual level, for many candidates - especially small economies - the main net positive contribution to the Multilateral Trading System will come from the domestic reform processes that drive accession negotiations.

At the systemic level, the accession process also contributes to the evolution of the international trading system and, in other words, to the development of rules by the WTO. In total, over 1 500 paragraphs containing commitments have been incorporated into the legal framework of the WTO through 36 accessions concluded under Article XII since 1995.

Each of the new accession protocols was adopted with the aim of strengthening multilateral disciplines and represented a constituent element of the Multilateral Trading System. In many cases, this has resulted in a new benchmark for WTO rules. Transparency is an example, with more than 250 specific commitments in this single area.

Accession commitments also provide an opportunity to stimulate discussions on rule-making at the multilateral level.

Members have consistently pursued a set of trade objectives in the accession negotiations on various aspects of the current rules, paving the way for the development of new approaches.

Accessions have always been a step ahead of the multilateral trade negotiations, particularly in the areas of trade facilitation, tariff quota disciplines and export subsidies.

Do Members have the opportunity to look into the experience of WTO accessions as an additional source of inspiration for the ongoing debate on the reform of the Organization?

In the area of notifications and transparency, many Members under Article XII have made significant contributions through extensive notifications, sometimes in areas where the results of the original Members were weak, or in areas where there were no multilateral disciplines yet (such as the reporting of privatization programs).

Although multilateral disciplines have in many respects bridged their gap with the results of accession negotiations through the entry into force of the TFA, some reference levels of transparency established through accessions have not been met (eg publication requirements).

The fact that acceding and candidate Members incur greater commitments than some existing Members is in their interests because it allows for effective reforms and integration into the

global trading system, but it also benefits the system by paving the way forward.

In addition, the accessions took into account the need for differentiation among Members in terms of specific flexibilities tailored to explicitly expressed needs. The Legislative Action Plan provided a simple and effective tool for defining these needs in a structured way.

In this area, and in others, dialogue requires investment from all parts. Members under Article XII and the Observer Governments that are currently aspiring to join are key stakeholders in the ongoing debate, and their voices should be heard.

Joint initiatives on e-commerce, micro, small and medium-sized enterprises, investment facilitation, domestic regulation of services and women's participation in trade are of great interest to small and medium-sized developing economies, which are the bulk of the acceding countries. Many Members under Article XII are already participating in these discussions.

It should be noted that these initiatives are opened not only to all WTO Members but also to observers.

The current status of WTO accessions is as follows:

- Working Party established for Libya, Syria and Somalia.
- Memorandum on the Foreign Trade Regime submitted by Iran, Iraq and Uzbekistan.
- Factual Summary of Points Raised circulated by Sudan.
- On-going bilateral market access negotiations on goods by Algeria, Azerbaijan, Lebanon, Sudan and Uzbekistan.
- Draft Report of the Working group circulated by Algeria, Azerbaijan and Lebanon.

The activities related to the accession of Comoros, Sudan and Somalia have intensified especially during the second half of 2016. For example:

- the Comorian team has worked intensively, held two Working Party meetings, and last month, concluded several bilateral market access negotiations. And now, they are very focused to conclude their accession in the coming months.
- Sudan started a conversation about its reactivation, again, here in Nairobi on the margins of MC10. Half year later, in July last year, Sudan officially announced the reactivation of its accession process to the entire WTO membership at a meeting of the General Council. This was followed by an intensive work of updating their documentation. This year, Sudan had two Working Party meetings to register concrete progress, and concluded two bilateral market access negotiations so far.
- Somalia is one of the latest applicants to start the accession process in December 2016 after its application letter was first submitted during Nairobi MC10. Somalia is working on the Memorandum on its Foreign Trade Regime, which will be the base document to kick off the accession negotiations.
- Azerbaijan told WTO members at an accession working party meeting on 28 July 2017 that it intended to “concentrate on the bilateral” as well as implement the legal reforms necessary to bring the domestic trading regime in line with WTO requirements. Azerbaijan had undertaken a number of reforms over the past six months, including adopting 12 “strategic roadmaps” for the development of the country’s economy as well as regulations covering trade facilitation and the improvement of trade and logistic infrastructure. Implementation of the roadmaps by 2020 would serve as a “foundation” towards successful accession to the WTO.

1. Algeria:

With an observer status since 1987, Algeria officially submitted to the WTO a report on its foreign trade regime in June 1996. The submission of this report represented the first step in the membership procedure in this organisation.

The working group on the accession of Algeria, which is chaired by M.C Perez Del Castillo (Uruguay), numbers 43 countries.

Since then, some WTO Member States, such as the United States, the EU, Switzerland, Japan and Australia, sent a series of questions to Algeria. The answers were sent to the WTO secretariat and a first meeting of the working group on the accession of Algeria to the WTO was held in Geneva in April 1998.

Algeria held five rounds of multilateral negotiations (April 1998, February 2002, May 2002 then November 2002 and May 2003, in 2004 and 2005) and two rounds of bilateral negotiations in the agricultural, industrial and services sectors (April 2002 and November 2002). The examined subjects are: agriculture, customs system, State trade, transparency and legal system reform and TRIPS.

With respect to bilateral meetings, Algeria has met about ten countries; these are: the United States, Japan, Switzerland, Australia, Canada, the European Union, Cuba, Uruguay, Turkey and the Republic of Korea.

Algeria submitted initial offers concerning goods and services in March 2002 and revised offers were distributed on 18th January 2005. The revised elements of a draft report of the working group and the latest new facts concerning the legislation were also examined during the meeting of the working group on 25th February 2005.

The 9th meeting of the working group in charge of the accession of Algeria to the WTO took place on October 21st 2005 at the headquarters of the WTO.

The agenda items of this meeting dealt with the progress of bilateral negotiations relating to market access, the consideration of the draft report of the working group and the new development of the Algerian legislation.

The working group in charge of the accession of Algeria to the WTO is currently tackling a document entitled "draft report of the working group on the accession of Algeria to the WTO". This document will comprise the main issues that will be discussed at the meeting of 21st October 2005.

Besides, on the side lines of the 9th meeting of the working group, bilateral meetings were held during the period going from 18th to 20th October 2005 with the representatives of some WTO Members, particularly with the United States, Switzerland, New Zealand and Malaysia within the framework of the resumption of talks relating to the market access of commodities and services.

The Bilateral Negotiations in the field of market access are underway on the basis of revised offers concerning goods and services. The multilateral review on the foreign trade regime is underway and a revised draft report of the Working Party was circulated in June 2006.

On 17 January 2008, members reviewed the revised draft Working Party report:

The Working Party report describes Algeria's foreign trade regime and the reforms undertaken in recent years to bring Algeria's legal and institutional framework into compliance with WTO rules. Members also evaluated the progress made in the ongoing bilateral negotiations on market access for goods and services.

Members have acknowledged Algeria's progress in reforming its trade regime in order to be fully compatible with WTO rules. Algeria has passed new legislation on Technical barriers to trade (TBT); sanitary and phytosanitary (SPS) issues; intellectual property (TRIPS);

antidumping, safeguards and countervailing measures; pricing policies; customs valuation; importation of pharmaceuticals products; exports of beef, sheep and palm trees.

The Algeria's Working Group revised an offer on specific commitments in services and was circulated in February 2012.

The long march of Algeria for its accession to the WTO is explained also by the will of the Algerian government to lead, first, internal reforms, to successfully upgrade some areas likely to be threatened by competition and to achieve a diversification of its economy. A roadmap to accelerate the negotiation process of Algeria's accession to the WTO was developed and a series of bilateral talks to resolve differences and finalize agreements is planned between March and April in addition to the holding of an informal meeting with the Working Group on the accession of Algeria to the organization, in anticipation of the formal meeting to be held in June 2012.

Bilateral negotiations on market access of goods and services:

Algeria has completed negotiations with Brazil, Uruguay, Cuba, Venezuela and Switzerland. It still needs to conclude negotiations with the EU, Canada, Malaysia, Turkey, the Republic of Korea, Ecuador, the USA, Norway, Australia and Japan.

The tenth meeting of the working Group took place in January 2008.

Additionally, five bilateral agreements were signed by Algeria within the framework of the negotiations process for its accession to the World Trade Organisation (WTO) on 28th February 2012 with Brazil, Cuba, Venezuela and Argentine. Negotiations on the conclusion of a similar agreement with the EU, main trading partner of the United States have reached an advanced stage.

Negotiations for the signature with the other WTO Member States are still undergoing and Algeria is on the verge of concluding an agreement with Switzerland, Australia and New Zealand, while talks with Japan, Canada, Malaysia, Turkey and Ukraine are progressing well. The long progression of Algeria towards its accession to the WTO reflects the will of the Algerian government to conduct, first, internal reforms, successfully upgrade some areas that might be threatened by competition and achieve a diversification of its economy.

The eleventh meeting of the Working Group was held on 5 April 2013 in the presence of the Minister of Trade, Mr. Mustapha Benbada. On this occasion, Algeria introduced for consideration by the working group twelve documents relating to revised offers for goods and services, the revised legislative action plan and proposals for amendments, supplements and updating of the draft report of the group. Mr. Minister stressed that Algeria is willing to "bring its trade regime into conformity with WTO agreements." However, he wished "the granting of reasonable periods of transition" for some measures, which are not compliant with the agreements. He also indicated that a program was drawn up under which member countries should send their questions before 10 May 2013 to Algeria, which has pledged to make the answers at the end of June or on 15 July 2013 and propose to hold another round of negotiations in Autumn 2013.

The Algerian delegation met on 2, 3 and 4 April 2013 the delegations of twelve Members of the WTO. These are from Malaysia, Indonesia, Ecuador, Argentina, the United States of America, El Salvador, Canada, Norway, New Zealand, Japan, Australia and Turkey.

Four bilateral agreements with Uruguay, Cuba, Switzerland and Brazil already signed were deposited at the WTO secretariat, while two other agreements with Venezuela and Argentina are being finalized.

- The Working Party on the Accession of Algeria met on 31st March 2014 in order to take stock of the situation regarding Algeria's negotiations for the accession to the WTO. During this meeting, WTO members expressed satisfaction at the significant progress made by Algeria.

Members' comments focused on quantitative import restrictions, including prohibitions, restrictions on investment, export subsidies, discriminatory application of domestic taxes, the system for recording information on geographic indications, price policies, marketing rights and agricultural policies.

The other issues to be tackled concern industrial policies and subsidies, technical barriers to trade, sanitary and phytosanitary measures, Trade-Related Aspects of Intellectual Property Rights and trade related investment measures.

On May 8, 2018, the WTO General Council confirmed the appointment of Ambassador José Luís Cancela Gómez, Permanent Representative of Uruguay to the WTO, as the new Chairman of the Working Group.

At the invitation of the Government of Algeria, Ambassador José Luis Cancela (Uruguay), Chairman of the Working Party, visited Algiers at the end of November 2018. During his 3-day visit, he met with the Minister of Commerce, the National Committee on WTO Accession, the Chamber of Commerce, the Intellectual Property Office and a think tank.

The Accession is seen as a fundamental element in unlocking Azerbaijan's economic potential, especially given its role as a logistical and transit hub linking Asian and European markets. The meetings also helped to better define Azerbaijan's policy priorities in terms of policies, the domestic dynamics of the accession process and some of the difficulties related to this process. “proactively engage and advance market access negotiations” with members and to focus in particular on bilateral market access talks, “whose progress, in my view, has fallen behind other areas of the accession negotiations”.

H.E. Mr. Mahmud Mammad-Guliyev, Azerbaijan’s Deputy Minister of Foreign Affairs and Chief Negotiator, said his government intended to “concentrate on the bilateral”, which he acknowledged as “one of the weak parts of our accession process”, as well as implement the legal reforms necessary to bring its domestic trading regime in line with WTO requirements.

The Deputy Minister noted that Azerbaijan had undertaken a number of reforms over the past six months, including adopting 12 “strategic roadmaps” for the development of the country’s economy as well as regulations covering trade facilitation and the improvement of trade and logistic infrastructure. He noted that implementation of the roadmaps by 2020 would serve as a “foundation” towards successful accession to the WTO.

The objective of the training was to familiarize the members of the Inter-Agency Commission on WTO Accession with key concepts and principles of the WTO TBT Agreement. The preparation of a TBT Checklist was also discussed at the workshop. On 25 July, the Secretariat circulated Uzbekistan's Memorandum on the Foreign Trade Regime (MFTR) - an updated version of the 1998 memorandum. This is the first document submitted by the Government of Uzbekistan since the Working Party last met in October 2005. Members were invited to submit questions on the Memorandum by end of August. Uzbekistan plans to submit shortly the annexes to the MFTR and other accession documents with a view to holding the fourth Meeting of the Working Party as soon as possible.

Following the circulation of the Memorandum on the Foreign Trade Regime (an updated version of the 1998 MFTR) on 25 July, Uzbekistan has received questions from 5 Members. On 5 September, Uzbekistan submitted 5 additional annexes to the MFTR. Uzbekistan is currently working on the replies to the questions and other negotiating inputs, such as the Legislative Action Plan, the Agriculture Supporting Tables, the various checklists and questionnaires, as well as the market access offers. The Government aims to formally resume the Working Party process by the end of the year. The Working Party last met in 2005. The Secretariat delivered a training activity on trade in services in Tashkent, on 11-12 September. Uzbekistan has requested additional technical assistance on the TRIPS Agreement.

On the margins of the Eighth China Round Table, Mr. Badriddin Abidov, Deputy Minister of Investments and Foreign Trade and Chief Negotiator for WTO accession, informed the Secretariat that Tashkent was working to finalise the remaining documents for circulation to the Working Party in early 2020. He expressed Uzbekistan's desire to officially resume the Working Party process in the spring of 2020.

On 16 July 2020, the bilateral market access negotiations between Uzbekistan and WTO, the Secretariat was organised a day-long online training for Uzbekistan's negotiating team. Over 60 government officials, including the Chief Negotiator and several deputy ministers, participated in the training which consisted of lectures on goods and services schedules and an experience-sharing round table with former accession chief negotiators from recently acceded Members. Since 20 July, Uzbekistan started bilateral market access negotiations, through virtual platforms.

10. Somalia:

Somalia's Working Party was established on 7 December 2016.

The delegation of Somalia, led by Chief Negotiator Mrs. Maryan Hassan, met on 26 July 2018 with Members, Partners and the Accessions Division of the WTO. Issues addressed included the country's preparedness and the technical and institutional support it needs to complete its accession process.

H.E. Mr. Dahir Adan Abdullah, State Minister for Commerce and Industry, noted that his Government was currently finalizing the Memorandum on the Foreign Trade Regime (MFTR). Moreover, Somalia had been undertaking reforms, such as, enacting laws on trade licensing, intellectual property rights, investment and government procurement. The importance of

technical assistance for building capacity was stressed.

Following the circulation of Somalia's Memorandum on the Foreign Trade Regime in early May, a total of 176 questions were received from six Members and have been transmitted to Mogadishu. Currently, Somalia is preparing its replies to these questions, which will be the basis for holding the first Working Party meeting, in addition to the Memorandum.

Deputy Director-General Alan Wolff, on behalf of the Chair of the General Council, continues with the process of securing a Working Party Chairperson, as the deadline for nominations is being extended until early September 2020.

11. Syria:

The Syrian Arab Republic's Working Party was established on 4 May 2010. The Working Party has not yet met.

Expression of interest of Turkmenistan:

On 2-4 July, a high-level delegation from Ashgabat visited the WTO to attend the Aid for Trade Global Review 2019. The delegation was led by Deputy Minister of Finance and Economy Ezizgeldi Annamammedov, and included representatives of the Ministry of Foreign Affairs, and the Ministry of Trade and Foreign Economic Relations, who were accompanied by Ambassador Atageldi Haljanov, Permanent Representative of Turkmenistan to the United Nations in Geneva. At his meeting with WTO Deputy Director General Alan Wm. Wolff, the Deputy Minister conveyed Turkmenistan's interest in applying for WTO Membership. He also invited the WTO to participate in the First Caspian Economic Forum, scheduled to take place on 12 August, in Avaza, Turkmenistan. He requested that the WTO co-organize with the Ministry of Foreign Affairs a national seminar on WTO accession on the margins of the Forum, for members of the Governmental Commission on WTO Accession, which has been tasked with making recommendations on Turkmenistan's application for WTO accession. The Accessions Division also delivered a presentation to the delegation of Turkmenistan on the WTO accession process, which was followed by an interactive session of questions and answers on various aspects of accession, including the benefits of WTO membership.

On 30 July, the Secretariat held a virtual meeting with Mr Vepa Hajiyev, Deputy Minister of Foreign Affairs and Chairman of the Government Commission on WTO Accession. The meeting discussed various activities which Turkmenistan could participate in the WTO, such as attendance in formal meetings and technical assistance and training activities organised by the Secretariat.

Conclusion:

WTO membership provides clear benefits, accession negotiations pose a challenge for all acceding governments, especially LDCs. The terms and conditions of accession impose internal reforms. Acceding LDCs have limited technical and human capacity and financial resources to deal with the complexities of WTO accession. ICDT and IsDB organise every year capacity building programs to assist OIC Countries in the field of raising awareness on trade and investment negotiations and technical assistance for acceding countries.

Providing technical assistance to the governments of the acceding countries, is a key priority of OIC and WTO. Technical assistance, capacity building and awareness-raising activities related to accessions are organized by the Accessions Division.

In this regard, twenty-nine officials from 15 governments in the process of acceding to the WTO participated in a Seminar on WTO Accessions Rules, which took place in Geneva from February 4th to 15th 2019. The event was the first WTO Secretariat activity to focus on WTO accession rules.

The main objective of the seminar was to give participants in-depth information on WTO legal disciplines at issue in Working Party reports on the accession process. The aim was also to enhance

awareness of the content of commitment paragraphs in accession reports and how they relate to the relevant legal disciplines.

During the two-week training course, participants had the opportunity to draw on the experience of experts from divisions across the WTO regarding specific areas of WTO rules. Participants also heard from highly experienced negotiators for WTO members – both original members active in accessions and members who have acceded to the WTO in more recent years. In addition, the seminar provided a platform for experience-sharing among the participants, who are all currently directly involved in their countries' accession negotiations.

Moreover, there are serious risks in the present era, but it offers even greater opportunities, unprecedented in recent years. To maintain its relevance, the WTO must accept the metamorphosis it is currently going through as being the "new norm".

Members can either adapt to change and seek to direct it to their collective advantage, or ignore it and risk losing relevance to the WTO.
