REPORT ON THE IMPLEMENTATION OF THE COMCEC STRATEGY

PROGRESS REPORT ON THE IMPLEMENTATION OF THE COMCEC STRATEGY

1. Introduction:

The Standing Committee for Economic and Commercial Cooperation of the Organization of Islamic Cooperation (COMCEC) has been functioning as the responsible body under the OIC for enhancing economic and commercial cooperation among the OIC Member States since 1984.

In order to make the COMCEC a more fruitful platform to meet the growing needs of the OIC Member States, the 4th Extra-ordinary Islamic Summit Conference held on 14-15 August 2012 in Mecca, Kingdom of Saudi Arabia has adopted the COMCEC Strategy.

The COMCEC Strategy brought a new dynamism in the efforts for enhancing economic and commercial cooperation among the OIC Member States. The Strategy does not only put forward a clear vision for the Islamic Ummah, but also defines implementation instruments for reaching its objectives. Accordingly, COMCEC serves as a forum among the Member States for exchanging experiences and good practices, disseminating knowledge and approximating policies. Member States showed a great interest and support to the implementation instruments of the Strategy namely the COMCEC Working Groups and the COMCEC Project Cycle Management during the three years of Strategy's implementation.

COMCEC Working Groups have been established in the six cooperation areas defined by the COMCEC Strategy, namely trade, transport and communications, tourism, agriculture, finance and poverty alleviation. Since the 31st Session of the COMCEC, six Working Group Meetings were held in the February-March period. All the publications regarding the working group meetings namely the analytic studies, sectoral outlooks and the meeting proceedings are available on the COMCEC website in e-book format (<http://ebook.comcec.org/Default.aspx?lang=2>).

The COMCEC Project Funding, the second implementation instrument of the COMCEC Strategy also enjoyed great interest from the Member States and OIC Institutions. In 2015, 14 projects have been implemented successfully by the Member Countries and OIC Institutions. Moreover, 10 new projects have been found eligible for funding for 2016. The Fourth Project Call will be made in September 2016.

The successful implementation of the COMCEC Strategy and revised Statute was also acknowledged by the 13th Islamic Summit, held in İstanbul, Republic of Turkey on 14-15 April 2016. In this regard, the Summit Conference “*expressed its profound appreciation for the successful implementation of the COMCEC revised statute and strategy adopted at the 4th Extraordinary Summit. It called on Member States to enhance the implementation of the revised COMCEC statute and strategy, in close coordination and cooperation with the General Secretariat and in accordance with the OIC Charter, and requested Member States to continue to actively participate in the work of the COMCEC under the chairmanship of H.E. Recep Tayyip Erdoğan, President of the Republic of Turkey.*”

This report summarizes the progress achieved since the 31st Session of the COMCEC towards the implementation of the COMCEC Strategy.

3. Implementation of the COMCEC Strategy

3.1. Meetings of the COMCEC Working Groups

In line with the relevant resolutions of the 31st Session of the COMCEC, the 7th round of COMCEC Working Groups was held in February-March 2016 (6th for the Financial Cooperation Working Group). The rationale behind establishing Working Groups is the necessity of in-depth elaboration of issues relating to cooperation areas at technical level. In this respect, Working Groups have an informal and flexible working methodology enabling them to better focus on substantive issues with necessary competence and expertise. In other words, these groups are work-oriented technical expert gatherings with less procedure and formality. The working groups serve to producing and disseminating knowledge, establishing a common understanding and approximation of policies among the member states.

Apart from the relevant public institutions, representatives from the private sector and NGOs of the Member Countries, as well as relevant international organizations are also invited to working group meetings to ensure that a wide range of stakeholders may reflect on the theme of the meeting.

For each Meeting, the CCO submitted research reports on the theme of the Meeting as well as sector-based Outlook reports. After the Working Group Meetings, proceeding documents were prepared to put together the discussions and outcomes of the WG Meetings. All the documents and presentations made during the WG Meetings are available on the COMCEC website. (www.comceec.org)

During the period under review, 6 research reports and 6 proceedings were published by the COMCEC Coordination Office.
