

List of Activities of the OIC Institutions Relating to the Implementation of Sustainable Development Goals

Following the MDGs Agenda, which was mainly focused on the challenges facing the least developed countries, the 2030 Agenda for Sustainable Development and Sustainable Development Goals (SDGs) was announced at the UN Special Summit in September 2015, bringing a new perspective with new goals and targets to be achieved by 2030. With 17 Sustainable Development Goals and 169 targets, the 2030 Agenda has brought a more comprehensive and ambitious development perspective for all countries, regardless of their level of development.

Given the importance of the issue, the COMCEC added this important topic to its agenda while the aforementioned new development agenda was still in the preparation process. Before the adoption of the SDGs in September 2015, the 30th COMCEC Session held in November 2014 requested the COMCEC Coordination Office (CCO) and the Islamic Development Bank (IDB) to conduct a joint study on the critical success factors that are expected to play an essential role in the implementation of the SDGs in the OIC Member Countries. The Study identified five critical success factors; namely, governance, data and monitoring, capacity building, finance and policy coherence for the effective implementation of the SDGs in the OIC Member Countries. This Study was welcomed at the 31st COMCEC Ministerial Session held in November 2015.

The 32nd Follow-up Committee Meeting of the COMCEC held in May 2016 requested the IDB and CCO to further study this issue with a view to identifying the potential contributions of the relevant OIC institutions for the implementation of the SDGs in the Member Countries. Accordingly, the IDB and CCO in cooperation with the SESRIC, ICDT, ICCIA, and SMIIC, conducted the study titled “Contributions of the OIC Institutions to the Achievement of the Sustainable Development Goals (SDGs)”. The 32nd Session of the COMCEC welcomed this study and requested the CCO to compile the activities of the OIC Institutions relating to the implementation of the SDGs in the Member Countries and submit a report to the 33rd COMCEC Session.

Accordingly, along with the COMCEC Coordination Office (CCO), the relevant OIC Institutions, namely the Islamic Chamber of Commerce, Industry and Agriculture (ICCIA), the Islamic Centre for Development of Trade (ICDT), Standards and Metrology Institute for Islamic Countries (SMIIC) and the Statistical, Economic and Social Research and Training Centre for Islamic Countries (SESRIC), have prepared the attached list of their SDG related activities implemented/for implementation in 2017 and their activities scheduled for 2018.

Within their fields of competence, the OIC institutions are implementing various activities for facilitating the implementation of the SDGs in the Member Countries. Each institution focuses on some of the goals and specific targets under the SDGs.

The ICCIA conducts activities on Goals 1, 2, 5 and 8, which are related to poverty, food security, gender equality and sustainable economic growth, respectively. As an example, the ICCIA implemented a Workshop on “Key Infrastructure for Rural Growth for OIC Countries” in April 2017, which is related to the implementation of Goal 2: “End hunger, achieve food security and improved nutrition and promote sustainable agriculture.”

ICDT conducts activities on “Trade-Related Technical Assistance,” which is a specific target under the SDG 8: “Promote sustained, inclusive and sustainable economic growth, full and productive employment and decent work for all.” To illustrate, the ICDT organized a Workshop on “The Mechanisms for settlement of Trade and Investment Disputes among the OIC Member States” in February 2017. Various dimensions of trade, including trade in services, non-tariff barriers, free zones, pharmaceuticals etc., are the main topics handled by the ICDT. For the year of 2018, the ICDT is planning to conduct activities on health, halal, agribusiness, fisheries, and real estate areas, from a trade and business perspective. In this context, the activities of the ICDT serve the SDG Goal 8 target 8.A: “... Trade-Related Technical Assistance ...”.

With regard to the SDGs-related activities of the SMIC, the technical committee meetings are held on the development/revision of standards, which is related to the target of 17.11; namely, “Significantly increase the exports of developing countries, in particular with a view to doubling the least developed countries’ share of global exports by 2020.” These technical committee meetings convey importance, as the harmonization of standards could enhance the acceptance of the trade products and commodities of the Member Countries and thereby increase exports.

The SESRIC’s activities are mainly in the form of research and training and cutting several goals under the SDGs. The SESRIC conducts training activities on statistical capacity building in the areas of trade, finance, agriculture, tourism, labour, environment, population and migration, education, poverty, health, gender, transport etc. Moreover, in line with the relevant resolutions of the COMCEC, the SESRIC is also conducting a tendency survey investigating the priority areas of the OIC member states with regard to the implementation of the SDGs.

The CCO organizes Working Group Meetings twice a year in six cooperation areas; namely, trade, tourism, agriculture, transport and communications, poverty alleviation, and financial cooperation. The Working Groups serve as a suitable platform for sharing knowledge and experiences in many areas, which are also included in different goals and targets under the SDGs. Some key goals under the SDGs are directly targeted and handled by the Working Groups. For example, with its various dimensions, under Goal 2, “End hunger, achieve food security and improved nutrition and promote sustainable agriculture” has been subject to investigation. The Agriculture Working Group discussed preventing food losses and waste, and also ensuring well-functioning agricultural market performance. The Poverty Alleviation Working Group (PAWG) also organized a Meeting on reducing malnutrition, which directly relates to target 2.2 and which states, “By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed

targets on stunting and wasting in children under 5 years of age ...” The PAWG also covers the issues in the education and health sectors that intersect with poverty. In this respect, Goal 3, “Ensure healthy lives and promote well-being for all at all ages” and Goal 4, “Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all” are being handled by the PAWG.

In addition to the Working Groups, in addition to the OIC institutions, Member Countries are encouraged to conduct projects through the COMCEC Project Funding (CPF) on the supported themes, many of which are associated with the SDGs. The Member Countries and the OIC institutions have the opportunity to conduct projects within the framework of the CPF with a view to enhancing institutional and human capacity in the OIC. For instance, Indonesia has implemented a project in 2017, titled “Improving Income of Small and Medium Scale Farmers in OIC Member State through Reducing Losses of Livestock Production,” which has served the implementation of target 2.3 and indicates that “By 2030, double the agricultural productivity and incomes of small-scale food producers ...”

LIST OF ACTIVITIES OF THE OIC INSTITUTIONS RELATED TO THE SDGs

No	Institution	A. Activities / Projects / Programs held / to be held in 2017	Date (DD-MM-YYYY)	Venue (City, Country)	Implementing Partner(s)	Relevant Critical Success Factor(s)	Relevant Goal(s) and Target(s) under the SDGs	Explanation	Contact Person
1	COMCEC COORDINATION OFFICE (CCO)	9th Meeting of the Agriculture Working Group on "Reducing Food Waste in the OIC Member Countries"	February 23rd, 2017	Ankara/Turkey	MCs, OIC and other international institutions, private sector representatives	Policy Coherence	Goal 2: End hunger, achieve food security and improved nutrition and promote sustainable agriculture Target 2.1 Goal 12: Ensure sustainable consumption and production patterns Target 12.3	The 9th Meeting of the Agriculture WG handled food waste issue. The participants shared their experiences, major causes and measures of food waste during the Meeting. Some policy recommendations have been formulated about reducing food waste in the member countries.	Mehmet Akif Alanbay Expert malanbay@comcec.org 90 312 294 57 18
