WHAT HAVE BEEN DONE-1

- The SW had been held in National Plan
- Circular order of Prime Ministry for single window is in force as of 20th of March 2012
- Action Plan has been prepared
- Shareholders have been determined
- Accompanying documents have been determined
- Meetings have been held with shareholders
- Articles related to SW have been added to the protocols related to exchange of data

WHAT HAVE BEEN DONE-2

- Data set was prepared for accompanying documents
- Designing of the system was completed
- The need for software determined
- Software was prepared by IT Department
- Software was tested with a public authority
- Training and pilot phase was done
- E-document application was put into practice with a public authority

WHAT HAVE BEEN DONE-3

- Legal amendments were made
- E-Application phase came into effect by 19.04.2016
- Firms started to make application.

DESIGNING THE SYSTEM-1

**The system is implemented in two phases:
e – Application :**

-Trader applies to single point (customs)

-If there is need for permission/licence the system transmits data to relevant institution.

-Relevant institution sends response
(negative/positive)

DESIGNING THE SYSTEM -2

e- Document :

- Data within permission/licence etc. is transmitted
- Customs administration uses this data in customs transactions
- Customs administration provides feedback

Integrated Institutions

21 Public Institutions
and
117 documents

THANK YOU
