Objectifs de Développement Durable (ODD)

Activités connexes des institutions de l'OCI

Les Objectifs de Développement Durable (ODD), annoncés lors du sommet extraordinaire des Nations Unies en septembre 2015, ont apporté une nouvelle perspective sur la manière de relever les défis de développement auxquels font face tous les pays, quel que soit leur niveau de développement, avec de nouveaux objectifs et cibles à atteindre d'ici 2030. Avec 17 Objectifs de Développement Durable et 169 cibles, les ODD ont apporté une perspective de développement plus globale et plus ambitieuse au monde.

Conscient de l'importance de la nouvelle perspective de développement pour tous, le COMCEC a immédiatement ajouté cet important sujet à son ordre du jour. Conformément à la décision pertinente de la 30ème Session du COMCEC, le Bureau de Coordination du COMCEC (BCC) et la Banque Islamique de Développement (BID) ont mené une étude conjointe sur les facteurs essentiels de succès de la mise en œuvre des ODD dans les pays membres de l'OCI. L'étude a mis en avant cinq facteurs critiques de succès ; à savoir la gouvernance, les données et le suivi, le renforcement des capacités, le financement et la cohérence des politiques pour la mise en œuvre efficace des ODD dans les pays membres de l'OCI. Cette étude a été bien accueillie lors de la 31ème session ministérielle du COMCEC tenue en novembre 2015.

En outre, la BID et le BCC, en coopération avec le SESRIC, le CIDC, la CICIA et l'INMPI, ont mené l'étude intitulée "Contributions des institutions de l'OCI à la Réalisation des Objectifs de Développement Durable (ODD)" qui a été saluée par la 32ème Session du COMCEC. La 33ème Session du COMCEC a demandé au BCC de continuer à compiler les activités liées aux ODD des Institutions concernées de l'OCI et de soumettre la liste aux sessions annuelles du COMCEC.

En conséquence, avec le Bureau de Coordination du COMCEC, les institutions concernées de l'OCI, la CICIA, le CIDC, l'INMPI et le SESRIC, ont établi la liste ci-jointe de leurs activités liées aux ODD mises en œuvre / à mettre en œuvre en 2018 et de leurs activités prévues pour 2019.

Dans leurs domaines de compétence, les institutions de l'OCI mettent en œuvre de nombreuses activités de renforcement des capacités et de partage d'expériences afin de faciliter la mise en œuvre des ODD dans les Pays Membres. Chaque institution se concentre sur des objectifs et cibles spécifiques dans le cadre des ODD.

Le Groupe de la BID mène des activités de renforcement des capacités dans divers domaines intersectoriels liés à tous les ODD, plus particulièrement l'Objectif 6 (eau et assainissement), l'Objectif 11 (villes inclusives, sûres, résilientes et durables), l'Objectif 13 (changement climatique), et l'Objectif 17 (Partenariat mondial). Pour illustrer, la BID, en collaboration avec le PNUD, a organisé une activité de formation sur «La finance islamique pour atteindre les ODD», à İstanbul le 28 mai 2018 qui est liée à l'Objectif 17 (partenariat mondial).

La CICIA mène des activités sur les Objectifs 1, 5 et 8, liés respectivement à la pauvreté, à l'égalité des sexes et à la croissance économique durable. À titre d'exemple, la CICIA a mis en

œuvre un programme de formation sur « la Mobilisation des Technologies Entrepreneuriales et la Gestion des Incubateurs d'Entreprises & des Parcs Technologiques » à İstanbul les 23 - 25 avril 2018, qui est lié à la mise en œuvre de l'Objectif 8: "Promouvoir une croissance économique soutenue, inclusive et durable".

Le CIDC mène des activités contribuant à la mise en œuvre de l'Objectif 1 (Pas de pauvreté), l'Objectif 2 (Faim «zéro»), l'Objectif 3 (Bonne santé et bien-être), l'Objectif 4 (Education de qualité), l'Objectif 5 (Égalité entre les sexes), l'Objectif 9 (infrastructures résilientes, industrialisation durable), et l'Objectif 17 (partenariat mondial). Par exemple, le CIDC a organisé la 4ème Exposition Spécialisée sur les « Services de l'Enseignement Supérieur des États Membres de l'OCI» à Casablanca les 26-29 avril 2018, qui est liée à l'Objectif 4: «Assurer l'accès de tous à une éducation de qualité, sur un pied d'égalité, et promouvoir les possibilités d'apprentissage tout au long de la vie».

En ce qui concerne les activités de l'INMPI liées aux ODD, des activités de formation technique sont menées dans le but de réaliser l'Objectif 17.11. Par exemple, la «Formation en Tourisme Halal en Ouzbékistan» s'est tenue les 13 - 15 novembre 2018.

Le SESRIC s'efforce de contribuer à la réalisation des ODD par le biais d'activités de données et de suivi, de renforcement des capacités et de cohérence des politiques. Le SESRIC a mené diverses activités liées aux objectifs et cibles des ODD. À titre d'exemple, le Programme de Renforcement des Capacités Statistiques sur les Statistiques des Entreprises a été organisé les 22 - 24 octobre 2018, ce qui est étroitement lié à l'Objectif 17.19.

Le BCC organise des réunions des Groupes de Travail deux fois par an dans six domaines de coopération, notamment le commerce, le tourisme, l'agriculture, le transport et les communications, l'allègement de la pauvreté et la coopération financière. Les Groupes de Travail constituent une plateforme appropriée pour le partage des connaissances et des expériences dans de nombreux domaines, ce qui est également lié à différents objectifs et cibles des ODD. Le Groupe de Travail sur l'Allègement de la Pauvreté (PAWG) s'est penché sur les ODD liés à la pauvreté lors de ses dernières Réunions, à savoir la qualité de l'éducation et la formation professionnelle qui sont directement liées à l'Objectif 4: «Assurer l'accès de tous à une éducation de qualité, sur un pied d'égalité, et promouvoir les possibilités d'apprentissage tout au long de la vie».

Les pays membres de l'OCI sont également encouragés à mener des projets à travers le Financement de Projets du COMCEC (FPC) sur les thèmes soutenus, dont certains sont liés aux ODD. Les Pays Membres et les institutions de l'OCI ont la possibilité de mener des projets dans le cadre du FPC en vue de renforcer les capacités institutionnelles et humaines dans l'OCI. Par exemple, le Burkina Faso a mis en œuvre en 2018 un projet intitulé «Renforcer la résilience du secteur du tourisme face aux crises par la communication», en coopération avec le Niger et la Côte d'Ivoire, qui a servi la mise en œuvre de la cible 8.9 indiquant: «D'ici 2030, concevoir et mettre en œuvre des politiques visant à promouvoir un tourisme durable qui crée des emplois et favorise la culture et les produits locaux ».
