RAPPORT DE SUIVI DE LA MISE EN ŒUVRE DU PROGRAMME EXECUTIF DE LA FEUILLE DE ROUTE POUR REALISER LES OBJECTIFS DU COMMERCE INTRA-OCI

I. HISTORIQUE

Le 3^{ème} Sommet Extraordinaire de l'OCI a adopté le Plan D'Action Décennal pour faire face aux défis auxquels la Oummah Islamique est confrontée au 21^{ème} Siècle, qui s'est concentré, entre autres, sur les mesures suivantes afin d'intensifier la Coopération Economique et Commerciale Intra-OCI :

- Accélérer la signature et la ratification par les Etats Membres de tous les accords commerciaux et économiques de l'OCI existants, et mettre en œuvre les dispositions pertinentes du Plan d'Action pour le renforcement de la Coopération Economique et Commerciale entre les Etats Membres de l'OCI;
- Assurer le soutien des activités de ce Plan par les Etats Membres au plus haut niveau possible;
- Encourager l'intégration économique régionale et le développement grâce aux accords de libre-échange, des unions douanières, des marchés communs et d'autres activités visant à renforcer le commerce intra-OCI et le développement";
- Aider les États Membres de l'OCI dans leurs efforts pour adhérer à l'Organisation Mondiale du Commerce (OMC), et promouvoir des positions concertées entre les États Membres au sein de l'OMC;
- Soutenir l'expansion du commerce électronique entre les Etats Membres de l'OCI;
- Etablir un fonds spécial au sein de la BID afin d'aider à contrer et réduire la pauvreté et offrir des possibilités d'emploi et charger le Conseil des Gouverneurs de la BID de l'établissement de ce fonds spécial, y compris les mécanismes de son financement;
- Demander au Conseil des Gouverneurs de la BID à prendre des mesures nécessaires pour assurer une augmentation substantielle du capital autorisé, souscrit et libéré de la Banque, de manière à lui permettre de renforcer son rôle en fournissant un soutien financier et une assistance technique aux États Membres de l'OCI, et de renforcer la Société Internationale Islamique de Financement du Commerce récemment créée au sein de la BID;
- Exhorter la BID à développer ses mécanismes et programmes visant à renforcer la coopération avec le secteur privé et à envisager de rationaliser et d'activer son processus décisionnel;
- Exhorter la BID et ses institutions à promouvoir les opportunités d'investissement et de commerce intra-OCI, et à mener d'autres études de faisabilité afin de fournir les informations nécessaires pour développer et promouvoir les coentreprises.

Ce Sommet a mandaté le COMCEC à promouvoir des mesures visant à élargir le champ du commerce intra-OCI, et à considérer la possibilité d'établir une zone de libre-échange entre les États Membres pour réaliser une plus grande intégration économique afin de porter à 20% le pourcentage du volume global des échanges au cours de la

période couverte par le Plan, et a appelé les États Membres à soutenir ses activités et à y participer au niveau le plus élevé possible.

Suite à des consultations entre le Bureau de Coordination du COMCEC et le Centre Islamique pour le Développement du Commerce (CIDC) et la Société Internationale Islamique de Financement du Commerce (SIFC), à Istanbul, le 24 Octobre 2008 en marge de la 24ème Session Ministérielle du COMCEC et l'adoption de la «Feuille de route pour le renforcement du commerce intra-OCI» par la Réunion d'experts sur cette question tenue à Ankara les 5 et 6 Juillet 2008, le Groupe consultatif de l'OCI visant à accroître le commerce intra-OCI a été créée.

Ce groupe est composé des institutions suivantes:

- ✓ Le Secrétariat Général de l'Organisation de la Coopération Islamique (Département des Affaires Economiques);
- ✓ Le Bureau de Coordination du COMCEC;
- ✓ Le Groupe de la Banque Islamique de Développement;
- ✓ La Société Internationale Islamique de Financement du Commerce (ITFC);
- ✓ La Société Islamique d'Assurance des Investissements et des Crédits à l'Exportation (ICIEC);
- ✓ La Société Islamique pour le Développement du Secteur Privé (SID);
- ✓ Le Département de la coopération et d'Intégration du Groupe de la BID ;
- ✓ Le Centre Islamique de Recherches et de Formation ;
- ✓ La Chambre Islamique de Commerce et d'Industrie et d'Agriculture (CICIA);
- ✓ Le Centre Islamique pour le Développement du Commerce (CIDC);
- ✓ Le Centre des Recherches Statistiques, Economiques et Sociales et de Formation pour les Pays Islamiques (SESRIC);
- ✓ L'Organisation de l'Association Islamique des Armateurs (OISA).

Le Groupe consultatif a tenu des réunions au Royaume du Maroc comme suit:

- ✓ Première réunion à Casablanca les 11 et 12 Février 2009;
- ✓ Deuxième réunion à Casablanca le 31 mai et 1er Juin 2010;
- ✓ Troisième réunion à Casablanca du 3 au 4 Février 2011;
- ✓ Quatrième réunion à Marrakech les 22-23 Février 2012.

Depuis 2009, les Organes Nationaux de Promotion du Commerce, les fonds et les organisations internationales ont également participé à des réunions de ce Groupe.

Le Groupe a adopté à sa première session le Programme Exécutif de la Feuille de route pour la réalisation des objectifs du commerce intra-OCI.

Ainsi, La 26ème Session du COMCEC a approuvé ce programme et a demandé aux institutions de l'OCI de mener à bien leurs activités, selon le Programme Exécutif et à la BID de fournir la contribution financière nécessaire à la réalisation des activités et des projets figurant dans le Programme exécutif et a exhorté le États Membres à accorder le soutien nécessaire aux institutions de l'OCI pour la mise en œuvre du Programme Exécutif et à participer activement à ses activités.

STRUCTURE DU GROUPE

La coordination et le secrétariat du «Programme Exécutif de la Feuille de route pour la réalisation des objectifs du commerce intra-OCI» sont pris en charge par le CIDC. Les institutions de l'OCI en charge de la mise en œuvre sont les suivantes:

- ✓ **Financement du Commerce** : SIFC et SIACE ;
- ✓ **Promotion du Commerce** : COMCEC, CIDC, SIFC et CICIA ;
- ✓ **Facilitation du Commerce** : COMCEC, OCI, CIDC, OISA, SIFC et CICIA ;
- ✓ **Développement des Produits Stratégiques** : SIFC, CIDC, et SESRIC.
- ✓ **Renforcement des Capacités** : SESRIC, SIFC, CICIA et CIDC ;
- ✓ **Négociations Commerciales** : COMCEC, et CIDC.

Chaque année, les Institutions de l'OCI adoptent le calendrier des actions communes à mettre en œuvre.

Au cours de la deuxième réunion, le Groupe consultatif a adopté à l'unanimité "les principes directeurs et les fondements de la coopération entre les institutions de l'OCI œuvrant dans le domaine de la coopération économique et commerciale".

Le Groupe a décidé de lancer une nouvelle vague d'activités conjointes basées sur des programmes intégrés, une approche axée sur les produits ciblés et des pays au cours de la 3^{ème} réunion.

L'objectif du programme sectoriel intégré est de mettre en œuvre l'approche globale afin de développer le commerce intra-OCI dans certains groupes de produits à fort potentiel commercial notamment:

Les Marchandises :

- Coton, textiles, vêtements et accessoires
- Matériaux de construction (ciment, acier et produits connexes)
- Cuir, chaussures et produits connexes
- Produits alimentaires ((huiles alimentaires, les céréales, les produits de la pêche)
- Produits pharmaceutiques
- Produits des Technologies de l'information.

Les Services :

- Transport et la logistique
- Construction et Ingénierie
- Services éducatifs
- Services de santé
- Services de la communication

Un mois avant l'organisation de la réunion du Groupe consultatif, chaque institution de l'OCI s'est engagée à envoyer au CIDC son rapport afin de préparer un rapport de synthèse qui reflète toutes les activités individuelles. Ce rapport est basé sur les données contenues dans les rapports du Groupe consultatif composé des Institutions et organisations suivantes : le Bureau de Coordination du COMCEC, la Société

Internationale Islamique de Financement du Commerce (ITFC), le Centre Islamique pour le Développement du Commerce (CIDC), la Chambre Islamique de Commerce et d'Industrie et l'agriculture (ICCIA) et l'Organisation islamique des Armateurs Association (OISA), la Société Islamique d'Assurance des Investissements et des crédits à l'Exportation (SIACE), la Société Islamique pour le Développement du Secteur Privé (SID) et le Centre de recherches statistiques, économiques et sociales et de Formation pour les Pays Islamiques (SESRIC).

Chaque année, le Directeur Général du CIDC soumet le rapport de synthèse aux Organes Compétents de l'Organisation de la Coopération Islamique, notamment, la Commission Islamique des Affaires Economiques, Sociales et Culturelles, les réunions du COMCEC (Session Ministérielle et le Comité de Suivi) et aux réunions du Groupe de travail sur le commerce intra-OCI.

Dans le cadre du suivi de la mise en œuvre du «Programme Exécutif de la Feuille de Route pour la Réalisation des Objectifs du Commerce intra-OCI» adopté par la quatrième réunion de ce groupe, le Centre Islamique pour le Développement du Commerce (CIDC) et la Société Internationale Islamique de Financement du Commerce (SIFC), membre de la Banque islamique de développement (BID) ont organisé, sous les auspices du Ministère de l'Industrie, du Commerce et des Nouvelles Technologies du Royaume du Maroc, à Casablanca, la 5^{ème} réunion du Groupe Consultatif pour le Renforcement du Commerce Intra-OCI et ce, du 27 au 28 Février 2013.

Ainsi, cette cinquième réunion a été organisée afin d'examiner les voies et moyens de la mise en œuvre de la nouvelle stratégie du COMCEC, en coopération avec les autorités compétentes chargées du commerce des Etats Membres de l'OCI. Le but de la réunion était également d'explorer les possibilités de coopération avec les organisations internationales et régionales dans le cadre du Programme Exécutif et de la nouvelle stratégie du COMCEC.

II. MISE EN ŒUVRE DU PROGRAMME PAR INSTITUTION DE L'OCI ET PAR DOMAINES D'INTERET

EVALUATION DE LA MISE EN ŒUVRE DU PROGRAMME **(Février 2009-Février 2013)**

Le Programme Exécutif de la Feuille de Route en vue de réaliser les objectifs du commerce intra-OCI est composé approximativement de 421 activités et projets répartis comme suit :

Tableau 1 : Evolution des activités planifiées par Institution Février 2010-Février 2013

| Institution | Février 2010 | Février 2011 | Février 2012 | Février 2013 |

III/ LA VOIE A SUIVRE

OBSTACLES ET DÉFIS

Il est vrai que les institutions de l'OCI se sont efforcées d'atteindre les objectifs du programme exécutif, toutefois, le programme tel qu'il a été mis en œuvre n'est pas une stratégie viable, en raison du fait que c'est seulement une compilation d'activités individuelles. Au cours de la 3ème réunion de ce Groupe en Février 2011, il a été décidé de combler cette lacune par le lancement d'une expérience pilote, comprenant une liste d'activités prioritaires de produits et services incluses dans un programme intégré de projets, mais malheureusement, aucune institution n'a jusqu'ici adhéré à cette expérience.

En dépit des efforts déployés par la SIFC, le Programme Exécutif mérite d'être doté d'un fonds spécial pour son fonctionnement.

Le Groupe met particulièrement l'accent sur le manque d'implication des États Membres et de leurs Organes de Promotion du Commerce (OPCs) dans les activités du Programme Exécutif des Institutions de l'OCI.

Nous pouvons également noter la duplication du travail des activités des Institutions de l'OCI.

En outre, les programmes de renforcement des capacités réalisées par les Institutions de l'OCI ne répondent pas aux besoins de la promotion du commerce intra-OCI et les activités de facilitation.

Enfin, nous pouvons également noter que la participation insuffisante des organisations internationales aux activités du Programme Exécutif en dépit des Mémorandums d'Accord signés entre les institutions de l'OCI et ces dernières.

- NOUVELLES MODALITES DE LA MISE EN ŒUVRE DU PROGRAMME EXÉCUTIF

Nouvelles modalités de la mise en œuvre du Programme Exécutif

Le programme général est le niveau opérationnel de la feuille de route adoptée en Juillet 2008 à Ankara par une réunion du Groupe d'experts, toutefois, le programme doit être amélioré puisque il s'agit d'une simple combinaison de différents programmes et activités qui doivent être mis en place et mis en œuvre en parallèle, ce qui le rend très complexe.

La réunion a également souligné que le Groupe devrait procéder à une évaluation globale de l'impact des activités adoptées en vue d'atteindre l'objectif fixé de 20% du commerce intra-OCI en 2015. L'évaluation peut se faire selon les indicateurs de performance suivants:

- ✓ Part des échanges intra-OCI ;
- ✓ Indice de la Facilité de conclure des affaires (Ease of Doing Business) ;
- ✓ Indice de performance de la logistique ;
- ✓ Financement du commerce ;
- ✓ Croissance nominal / réel des échanges ;
- ✓ Diversification des produits et des marchés ;
- ✓ Niveau d'utilisation des assurances de crédit à l'exportation dans les Pays Membres.

Le Groupe a également souligné la nécessité de développer une stratégie intra-OCI pour la période 2015-2025, en consultation avec les Institutions concernées de l'OCI (le Secrétariat Général de l'OCI et le Bureau de Coordination du COMCEC).

Au cours des débats de la 4^{ème} Réunion du Groupe Consultatif, les participants ont également souligné l'urgence d'adopter une stratégie commerciale de l'OCI pour un

développement durable du commerce intra-OCI en vue d'harmoniser différents programmes des institutions de l'OCI et de développer des synergies non seulement entre les institutions de l'OCI, mais également entre les programmes nationaux, régionaux et internationaux portant sur le commerce extérieur dans la région de l'OCI. À cet égard, le CIDC a présenté deux documents de travail couvrant la période s'étendant au-delà de 2015 à savoir «l'Agenda de Marrakech pour accroître l'efficacité du Programme Exécutif pour le Renforcement du commerce intra-OCI et le Plan d'Action pour le Renforcement du commerce intra-OCI.

Les Institutions de l'OCI opérant dans le domaine de la Coopération Economique et Commerciale sont dotées d'une expertise adéquate pour augmenter la part du commerce intra-OCI dans le commerce total des États Membres à 20% à l'horizon 2015.

Pour accroître l'efficacité du groupe, il serait souhaitable :

- ✓ D'organiser des activités conjointes impliquant au moins deux institutions de l'OCI et un nombre important d'États Membres ainsi que les Organisations Régionales et Internationales dans les activités des secteurs des produits et des services stratégiques des Pays de l'OCI en plus des régions identifiées par le Groupe Consultatif;
- ✓ D'allouer au Groupe consultatif un fonds spécialement consacré aux activités qu'il entreprend en collaboration avec les institutions régionales et internationales et les fondations qui opèrent dans les régions de l'OCI;
- ✓ D'impliquer davantage les autres institutions affiliées de la BID, telles la Société Islamique pour le Développement du Secteur Privé (ICD), le Département de la Coopération dans la mise en œuvre des activités du Programme Exécutif, en particulier, dans le cadre du GRTC;
- ✓ D'impliquer le secteur privé dans toutes les activités du Groupe consultatif en encourageant la participation des PME-PMI et des PMA par le biais d'un financement important par les Institutions de Financement de l'OCI;
- ✓ D'organiser des journées de marketing et de communication dédiées aux services fournis par les Institutions de l'OCI, membres du Groupe consultatif au profit des secteurs public et privé pour accélérer l'adhésion de certains pays de l'OCI à l'Accord SPC / OCI et à ses protocoles, ainsi qu'à la SIACE , l'Association Islamique des Armateurs (OISA), et à l'Institut Islamique de Normalisation et de Métrologie des Pays de l'OCI (SMICC).

L'amélioration du mécanisme de coordination du Groupe Consultatif de l'OCI en vue de renforcer son efficacité et ses performances requiert les actions suivantes :

- ✓ Mise en œuvre des lignes directrices de la coopération adoptées par la Deuxième Réunion du Groupe consultatif de l'OCI tenue à Casablanca du 31 mai au 1^{er} juin 2010;
- ✓ Le groupe doit tenir deux réunions chaque année, (réunion du Groupe Consultatif et en marge des réunions institutionnelles, notamment, celles de la Commission Islamique pour les Affaires Economiques, Culturelles et Sociales et les réunions du COMCEC, mes réunions de coordination etc.)

- ✓ Mettre en place un mécanisme de consultation et de suivi entre les Groupements Economiques Régionaux au sein de l'OCI afin de renforcer leur liens de coopération et d'harmoniser leurs réglementations (notamment: ECO, CCG, UEMOA, UMA, l'Accord d'Agadir, ZALE ...) et de leur permettre de se joindre aux réunions du Groupe Consultatif;
- ✓ Inviter les partenaires stratégiques, ayant intégré des programmes ou des activités dans le Programme exécutif révisé, à devenir Membres du Groupe Consultatif et de contribuer à l'amélioration, la conception, la mise en œuvre et l'évaluation des projets du Programme Exécutif.

Trade Promotion:

In the area of Trade Promotion, the ICCIA, has been working inter alia, in the area of Entrepreneurship Development. Workshops and Training programmes were held, with objective of encouraging the spirit of Entrepreneurship, with a special focus on startups, youth & women. In order to develop this culture, the ICCIA is in the process of working out with some relevant OIC Institutions and UNIDO in Bahrain, by introducing entrepreneurship activities and curriculums at all levels of the educational system.

Towards this end, in addition to the three Training programmes and one Conference already held in Pakistan, the ICCIA also organized a Forum for Businesswomen, in Bahrain in December 2012, which highlighted the role of women entrepreneurs. In addition, the ICCIA is also holding a Training Program on the Development of Entrepreneurship in Sharjah from 18th to 20th March 2013.

The 15th Private Sector Meeting and the 7th Businesswomen Forum will be held in Islamic Republic of Iran alongwith the Islamic Trade Fair from 28th -30th October 2013.

Another very important aspect of Trade Promotion is the need for an efficient and updated Networking system, so as to play an instrumental role in boosting commercial exchanges. The ICCIA will be developing its B2B Portal & Marketplace, which is expected to provide a compressive Trade Directory, adequate information on Islamic countries that include in-depth information on each country's exports, imports, markets, customs, rules and regulations...etc and at a later stage shall also provide, Live Rating System, Product Catalogs for companies offering products...etc. The ICCIA is however, will be willing to share and cooperate with other Institutions, having similar projects, so as to complement and supplement the existing efforts and avoid duplication.

Trade Facilitation:

It has been noted that in many countries Incubators have been very successful in the setting up new businesses which have in turn contributed to trade. However, at the same time there is a need in many developing OIC countries to develop an incubation system that encompass pre-incubation, incubation and post incubation services.

For this, the ICCIA has requested UNIDO Bahrain, which has prepared a system covering the various stages, as part of their programme on Enterprise Development and Investment Promotion (EDIP), to transfer it to member OIC Countries. In this context, it has been done to the members of the Arab Union of Chambers of Commerce and Industry. In collaboration with UNIDO Bahrain, ICCIA is hoping to transfer this programme to other member countries.

In the area of Halal, ICCIA, is cooperating with all relevant stakeholders and SMICC. Furthermore, ICCIA had signed a number of agreements with a number of its member chambers and federations in Pakistan, Saudi Arabia and Mauritania, in addition to other organizations working in the field of Halal Trade. The signing of these agreements, is part of ICCIAs efforts for promotion of benefits of strengthening Halal Trade and creating awareness about the religious significance of consuming Halal Products by Muslims.

These Agreements also lay emphasis to achieve the common objectives, of supporting, promoting and enhancing commercial exchange of Halal trade and services among OIC Member States and Islamic minorities in countries that are not members of the OIC.

Moreover, it underlines the necessity of coordination between the ICCIA and these organizations in the field of Halal based on the Standards of the OIC Group of Halal Experts.

Despite the fact that some of the OIC Agreements have become functional, it is noted that the private sector is not fully conversant about the importance, utility and benefits. The effective utilization of these Agreements, will play a major role in the enhancement of Intra Islamic Trade. The ICCIA, will be organizing a Seminar on the OIC Agreements in 2013, in Sudan, with the participation of a cross section of people, representing the Public Private Sector, the OIC, member chambers and all other relevant entities within the OIC.

Capacity Building:

Building capacity is an integral part of developing the economies of member countries. The holding of Workshops and Training programmes has been geared to eventually lead to building the capacity of the member countries.

ICCIA in collaboration with the Union of Chambers and Commodity Exchanges of Turkey (TOBB) and International Islamic Trade Finance Corporation (ITFC) initiated a program for enhancing the capabilities of Chamber of the OIC Member Countries. This networking and capacity development program was designed exclusively for the senior and top level management of the Chambers of OIC Member States with a view to support their institutional development as well as enhancing cooperation and collaboration among them. This intensive training program not only helps the participants update and improve their knowledge on core businesses of the chambers but also provides them the information on the innovative products and services developed by the successful chambers around the world. The first program was held 2011 and the second was held 2012 and the forthcoming third program will be held in 2013 Ankara- Turkey.

In addition, the ICCIA in collaboration with KOSGEB, trying to undertake training programs on SME development in the CIS Countries. However, some of the member chambers in these countries have responded, expressing their financial constraints, due to which they are unable to cooperate.

In view of the OIC Initiatives on Food Security, the ICCIA has also undertaken some activities related to Agri-business and Food Security. Taking into consideration that majority of the OIC countries have a strong agricultural base but at times lack the expertise in value addition, the ICCIA is working on providing training on how to add value to the production, by processing, packaging and marketing. In this context, the ICCIA will be organizing a Workshop on Workshop on Agribusiness and Value Addition for OIC Countries in Sudan later in 2013. The focus will be on value-adding, agro-processing Farm-to-Fork spectrum activities that can be carried out using relatively simple technologies. Emphasis will be on topics such as:

- Farm level diversification
- Product Differentiation through innovation
- Standardization
- Identifying Route-to-Market solutions
- Leveraging transformational distribution systems

The Workshop would also focus on:

- to learn lessons from previous efforts and successes to develop competitive agro-industries in the OIC countries;
- to ensure stronger collaboration and joint activities among multi-lateral organizations working on agro-industrialization; and
- to clarify the distinctive roles of the public sector, multi-lateral organizations and the private sector in agro-industrial development.

Way forward for the Executive Programme:

- To call upon the OIC, to appeal to member states to have a more proactive role to support the initiatives of Consultative Group and other OIC Institutions for the promotion of Intra-Islamic Trade.
- To have the member states, create greater awareness among the Chambers of Commerce and the private sector at large, about the existing potentials of trade and investment among the member states and in this context, encourage them to use the “Framework Agreement on Trade Preferential System among the Member States of the OIC (TPS-OIC)”.
- Finance is a significant factor in sustaining and developing businesses, therefore, there is a need to have some sort of a financial mechanism worked out for the implementation of the executive framework. In this context, IDB Group maybe called to extend their support.
- Facilitating smooth movement of entrepreneurs among OIC Member States is essential for increasing intra-OIC trade and investments. Therefore, in addition to facilities that are available to the business community of the regional blocs, there is a need to have more bi-lateral and multilateral agreements leading to an OIC Business Visa.
- In consideration of the importance of SMEs’ sector for the sustainable socio-economic development of the Member States, a more result oriented effort needs to be undertaken for the implementation of ICCI Strategic Plan for SMEs, which would effectively contribute to the promotion and development of this pivotal sector.

Mechanism of Cooperation:

- To look into the possibility of developing a mechanism wherein, the related OIC Institutions, keeping within their scope of activities, should work more in complementing and supplementing each others activities, so as to avoid any possible duplication.
- To call upon the ICCIA to continue with its efforts to use all its platforms and conduct Seminars to inform its member chambers of the “Framework Agreement on Trade Preferential System Among the Member States of the OIC (TPS-OIC)” and call upon them to contact their relevant Ministries, urging them to utilize this mechanism for the enhancement of the current level of commercial exchanges among OIC Member States.

Specific Strategy:

- To build on and strengthen the existing trade arrangements which are presently for the members of the regional blocs,(GCC,ASEAN,COMESA etc) and to gradually broaden their orbits, so that they could eventually cover some other member states, in the region, which are not yet in the bloc and thus contribute to enhancement of the Intra Islamic Trade.
- To further promote entrepreneurship culture by focusing on capacity building activities and by involving the concerned UN agencies and other international organization, so as to attract local and foreign investments.
- To make the youth an important element in the promotion of intra Islamic trade by developing the SMEs and setting up Incubators to facilitate their growth. In this context, to learn from the existing experiences. Reference is made here to the Enterprise Development and Investment Promotion Programme, which has been set up by UNIDO in Bahrain. This programme aims to simulate the emergence of new and growth of existing enterprises that produce goods and services for trade, provide employment and income for people, thereby leading to greater economic growth and increase in trade. This programme has two main components, enterprise creation and enterprise growth. So far this programme is in the process of being transferred to member countries of the Arab Union. ICCIA is now holding discussions with UNIDO Bahrain, to look into the possibility of transferring this programme to other OIC countries as well.
