

IsDB Technical Assistance Program for Regional and Global Integration in Trade

The IsDB Group delegation, usually headed by the President of the IsDB, participates in the annual session of the COMCEC, which is held in Istanbul, Türkiye. The IsDB and the other members affiliated to the IsDB Group participate in different committees and meetings of the working groups of COMCEC, such as the Financial Cooperation Working Group, the Poverty Alleviation Working Group, the Transport and Communication Working Group, the Agriculture Working Group, and the Trade Working Group. The IsDB publishes an annual report on the Technical Assistance Program (TAP) for Regional and Global Integration in Trade.

IsDB Technical Assistance Program for Regional and Global Integration in Trade

I. Introduction

The IsDB submits regular progress reports on the implementation of the Technical Assistance Program (TAP) to the COMCEC meetings. These reports highlight the major WTO-related technical assistance activities undertaken under the TAP since the 38th Session of the COMCEC held in Istanbul, Türkiye, in November 2022.

The Technical Assistance Program for Regional and Global Integration in Trade assists IsDB 57 member counties in their efforts aimed to achieve integration among themselves and with the rest of the world, through training, policy advice and technical assistance. The interventions led under the program aim at rapid integration and increasing connectivity in order to unlock global opportunities for member counties as they become more integrated with the global market.

II. Background

The IsDB WTO-related Technical Assistance and Capacity Building Program (WTO-Program) was launched in 1997 with the prime objective of helping IsDB member countries upgrade their human and institutional capacities to adjust to the new multilateral trading system. The aim of the program is to provide greater awareness to the OIC member states on WTO agreements and their implementation, and to facilitate the process of their accession to the WTO. It also serves as a forum where relevant officials from member countries can exchange views and discuss various multilateral trade matters. In recent years, the program has put more focus on helping the member countries access the WTO and strengthening their negotiation skills on issues related to the framework of the Doha Work Program. The program which was later renamed (IsDB Technical Assistance Program (TAP) for Regional and Global Integration in Trade), aims to build the institutional and human capacities of IsDB member countries in the area of multilateral trade negotiations, such as those conducted under the auspices of the WTO, including acting as an interface for regional trading arrangements with the view to facilitating their effective participation into the global economy and fostering regional integration.

III. Major components of the program

The main components of the TAP consist in organizing seminars and workshops on the WTO and other regional agreements; conducting technical courses on trade policy; organizing consultative meetings on important issues and in preparation for the WTO ministerial conferences; undertaking WTO-related studies; and providing advisory services through financing of experts/consultants to member countries on WTO-related matters. The following is a brief summary of the activities undertaken under the TAP since inception:

1- Seminars and workshops

The IsDB organizes seminars and workshops covering a wide range of regional integration and trade issues with the aim of familiarizing member countries with the contents and provisions of the regional trade and WTO agreements as well as the activities of WTO to help to be in a better position to defend their interests. As of October 2023, 181 seminars and workshops were organized.

2- Trade policy courses

Organized in collaboration with the WTO, these courses are short versions of the WTO trade policy course which is a three-month curriculum offered by the WTO in Geneva. The trade policy course covers a wide spectrum of topics such as market access, customs and trade administration, agriculture, textile and clothing, sanitary and phytosanitary measures, technical barriers to trade, government procurement, general agreements on trade in services, intellectual property rights, anti-dumping, subsidies and countervailing measures, dispute settlement, agreement on trade-related investment measures, trade and competition policy, trade and environment, and regionalism. Since inception, the programs has been offering these courses.

3- Special studies

Based on member countries' requests, the IsDB undertakes in-depth studies on WTOrelated issues. The studies conducted so far covered the sectors of agriculture, investment and services, trade-related aspects of intellectual property rights, and e-commerce. Each study featured a set of case studies on OIC member states and contained valuable practical tips and negotiation strategies on various issues concerning the OIC member states.

4- Consultative Meetings

The IsDB organizes consultative meetings for its member countries, mostly in conjunction with the WTO ministerial conferences. These meetings provide a forum for member countries' delegations to exchange views and, where possible, coordinate their positions on matters related to the WTO. So far, the IsDB has organized nine consultative meetings.

5- WTO specific technical assistance to OIC/IsDB member countries

The IsDB also provides specific technical assistance to member countries through hiring consultancy services or fielding in-house WTO experts on vital WTO issues such as accession to WTO, drafting national laws, establishing WTO units, and providing capacity building for all general purposes.

IV. Activities planned/organized after the 38th Session of the COMCEC

Based on member countries' feedback and requests, the TAP shifted its focus to two themes, namely (i) accession and other WTO-related matters and (ii) regional integration. Due to COVID-19 pandemic, there were a few delays in implementing some TAP activities in 2020. The following are the main activities organized/planned by the IsDB since the 38th Session of the COMCEC:

V. Conclusions

The Islamic Development Bank continues to support OIC member states' efforts aimed to build their human and institutional capacities in order to meet the challenges of the multilateral trading system. The IsDB highly appreciates its collaboration of the WTO, international organizations, and national bodies and OIC institutions. The IsDB welcomes new ideas and suggestions to further enhance the impact of the Technical Assistance Program and looks forward to working more closely with all partners for the effective delivery of the program.
