

Making Cooperation Work
COMCEC STRATEGY
For Building an Interdependent Islamic World

COMCEC AGRICULTURE OUTLOOK-2024

Prof. Dr. Erdogan GUNES
(Ankara University, Dept. Of Agricultural Economics)

**23th Meeting of COMCEC Agriculture Working Group
September 19-20th, 2024, Ankara/Türkiye**

Outline

1. Macro-Economic Agricultural Indicators

- ▶ Agricultural Value Added
- ▶ Agricultural Growth Rates
- ▶ Population and Employment
- ▶ Trade

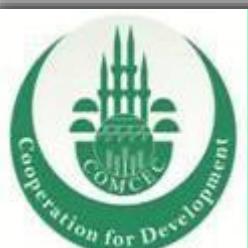

2. Sectorial Indicators

- ▶ Crop, Livestock and Fish Production
- ▶ Productivity (Production, Land, Labor etc.)
- ▶ Resource Use (water, fertilizer, mechanization)

3. State of Food Security

- ▶ Availability
- ▶ Utilization
- ▶ Access
- ▶ Undernourishment

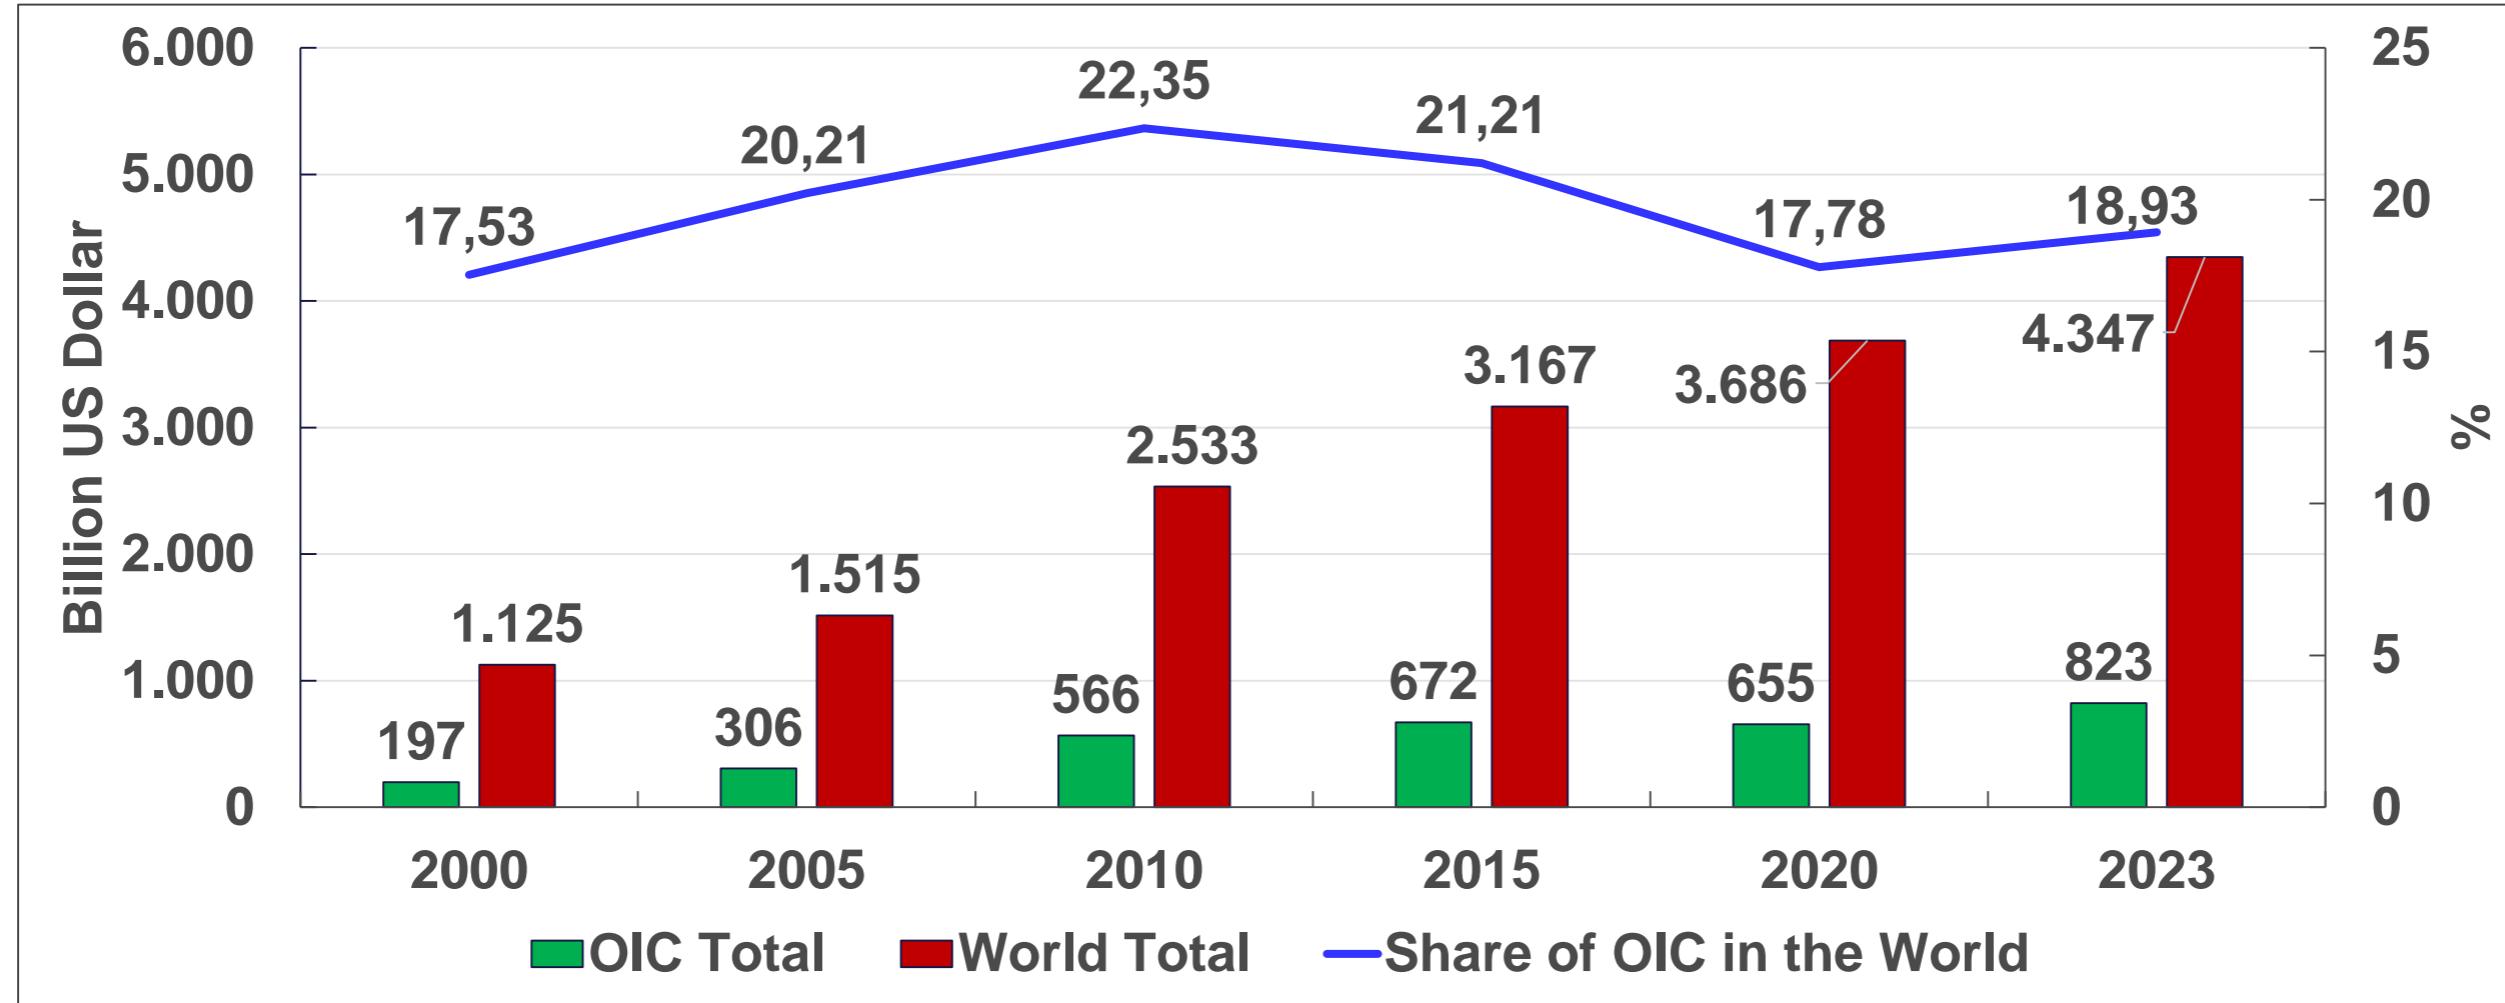

4. Problems and Policy Recommendation

1. Macro Agricultural Indicators

➤ Agricultural Value Added

Share of OIC Agricultural GDP and in the World

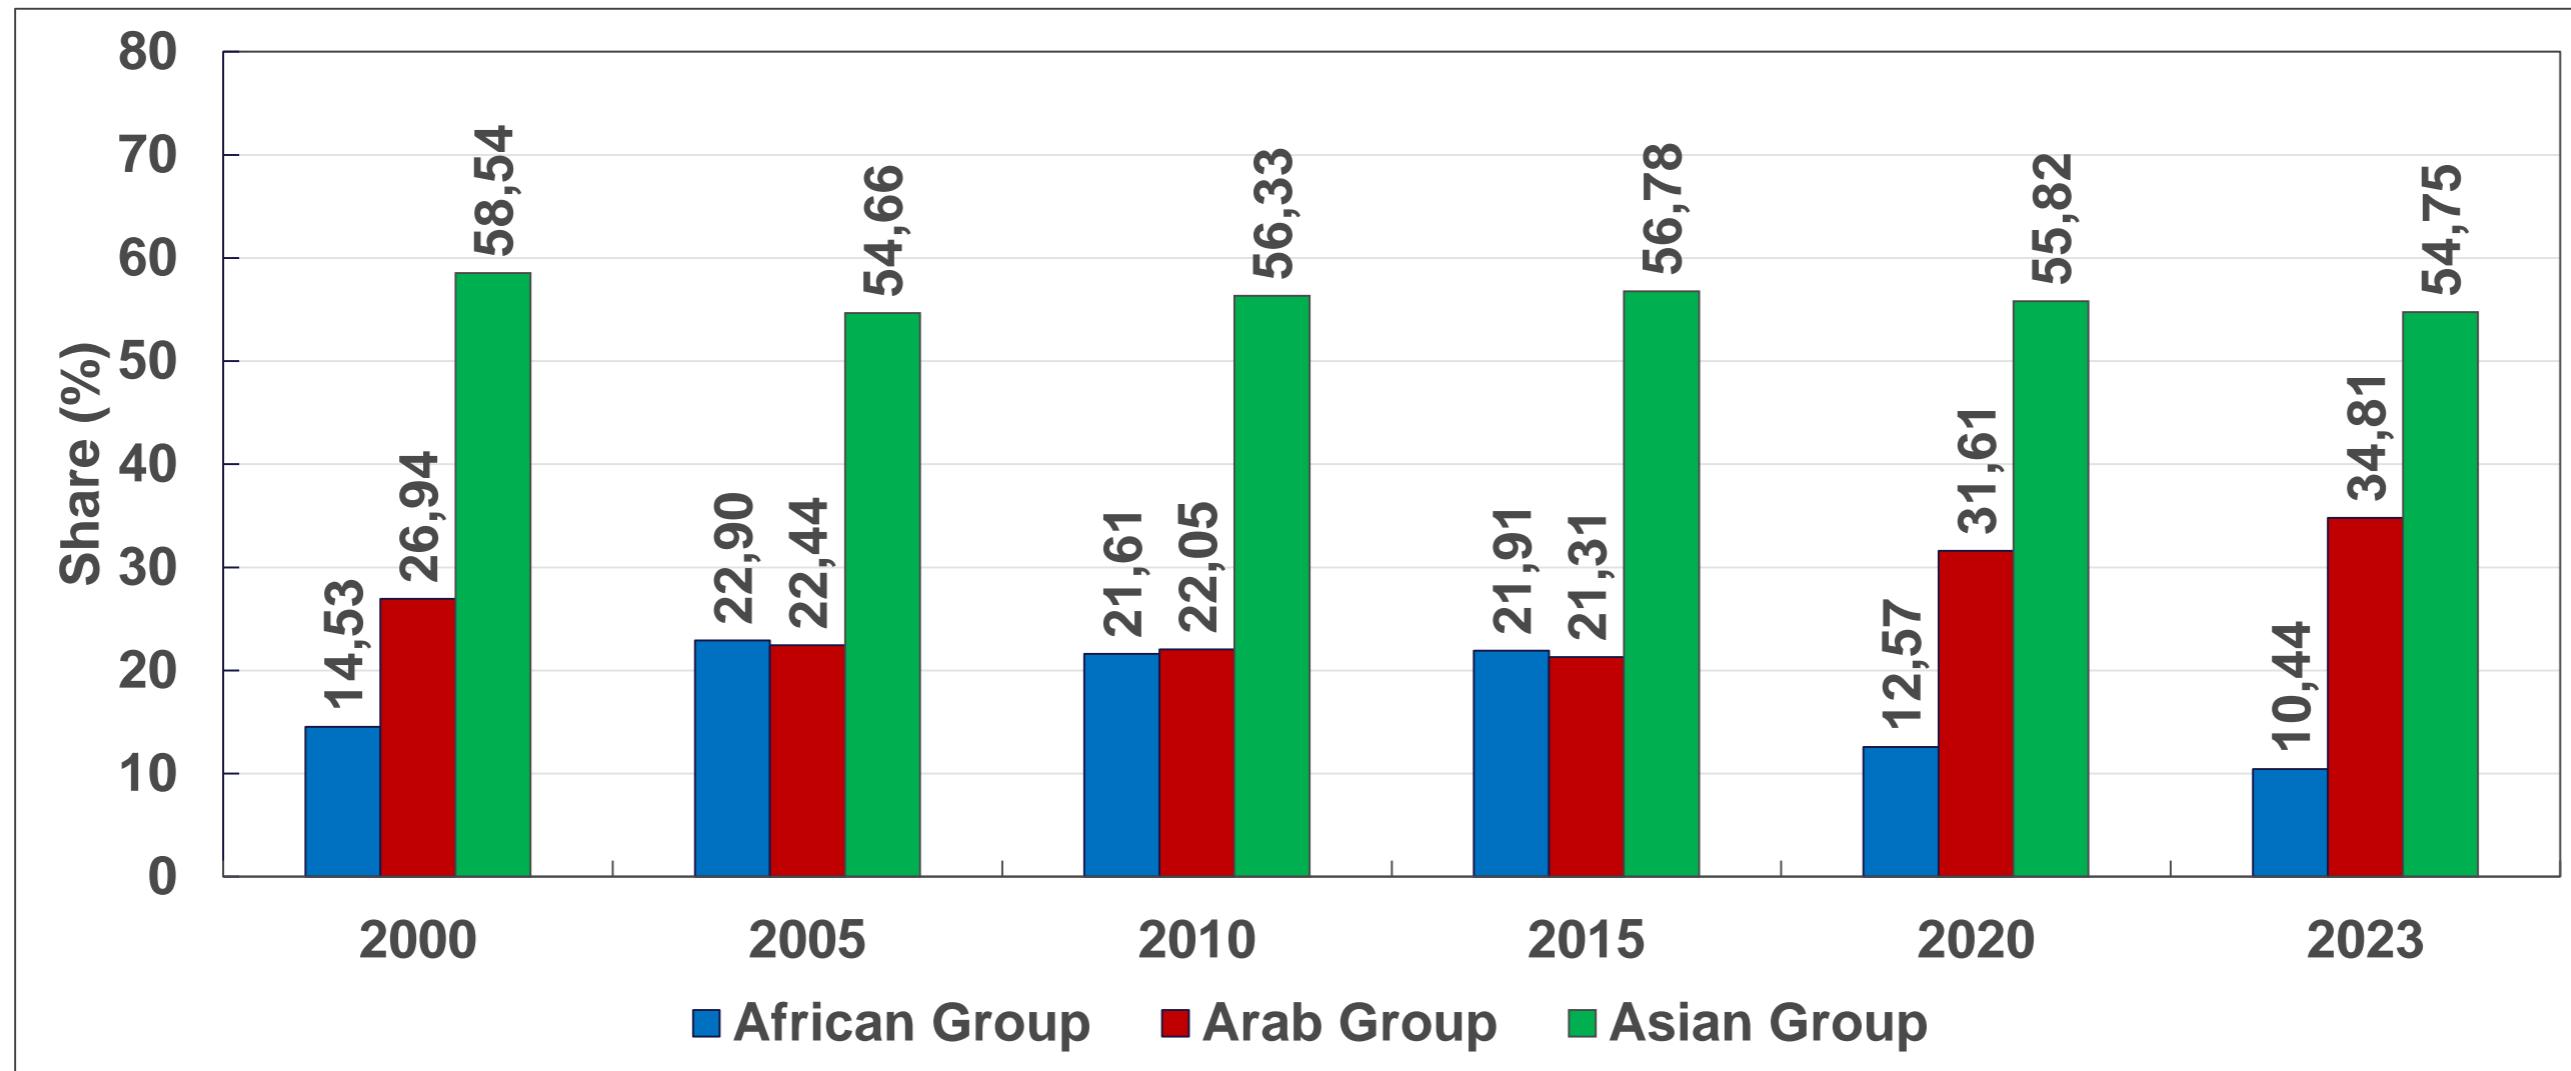

Source: Estimated from <https://prosperitydata360.worldbank.org/en/indicator/FAO+STAT+5>

1. Macro Agricultural Indicators

➤ Agricultural Value Added

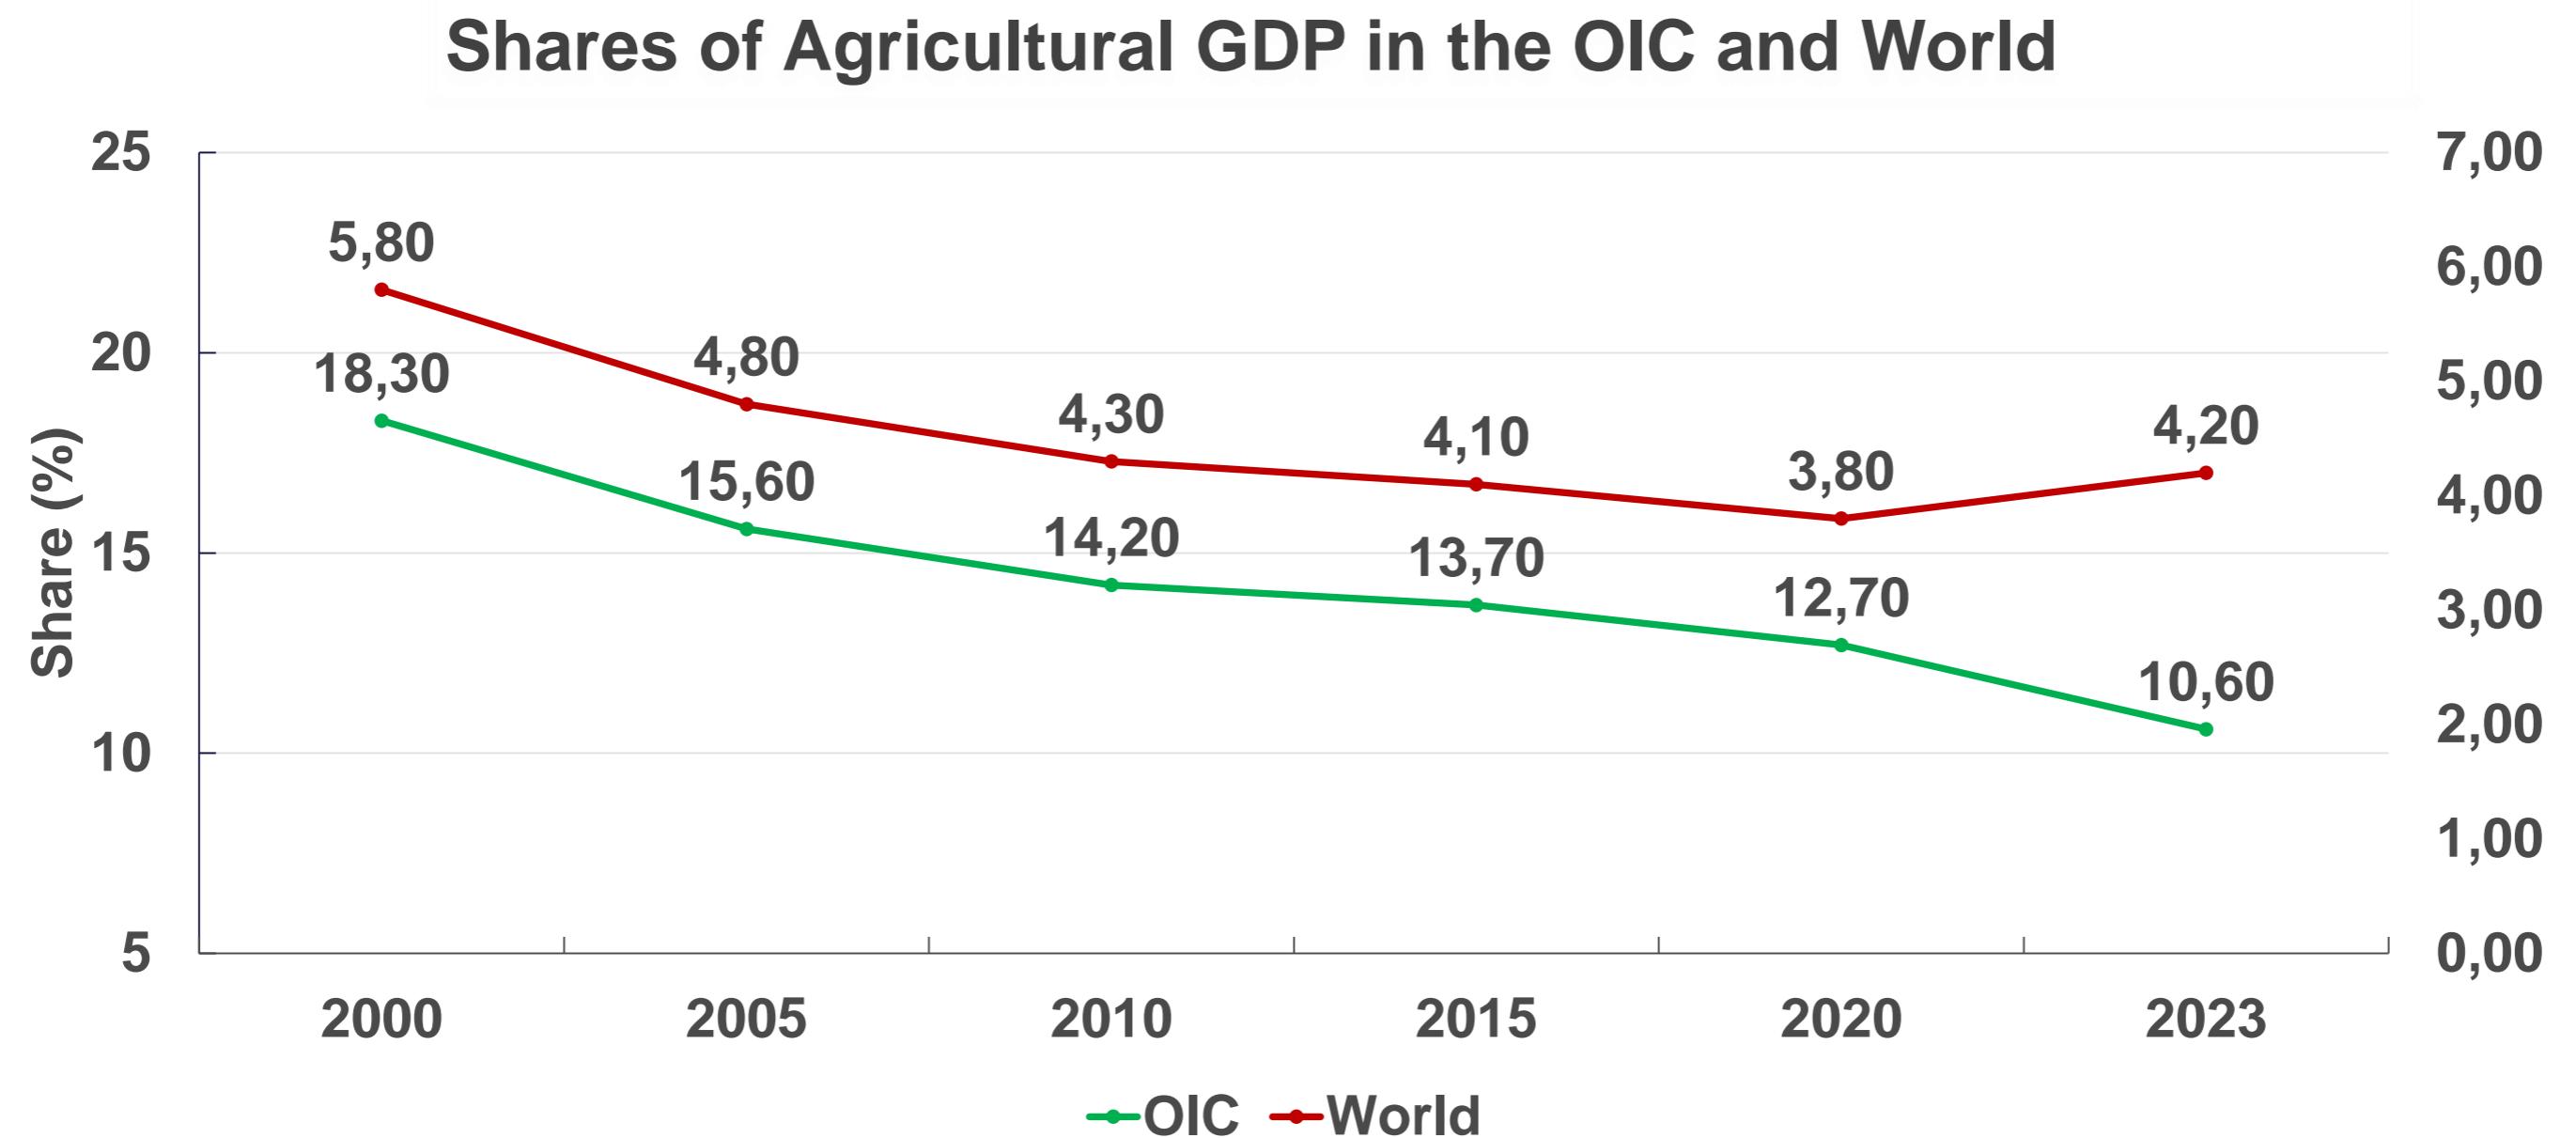

Agricultural GDP by Sub-Regions and their Shares

Source: Estimated from <https://data.worldbank.org/indicator/NY.GDP.MKTP.KD>

1. Macro Agricultural Indicators

➤ Agricultural Value Added

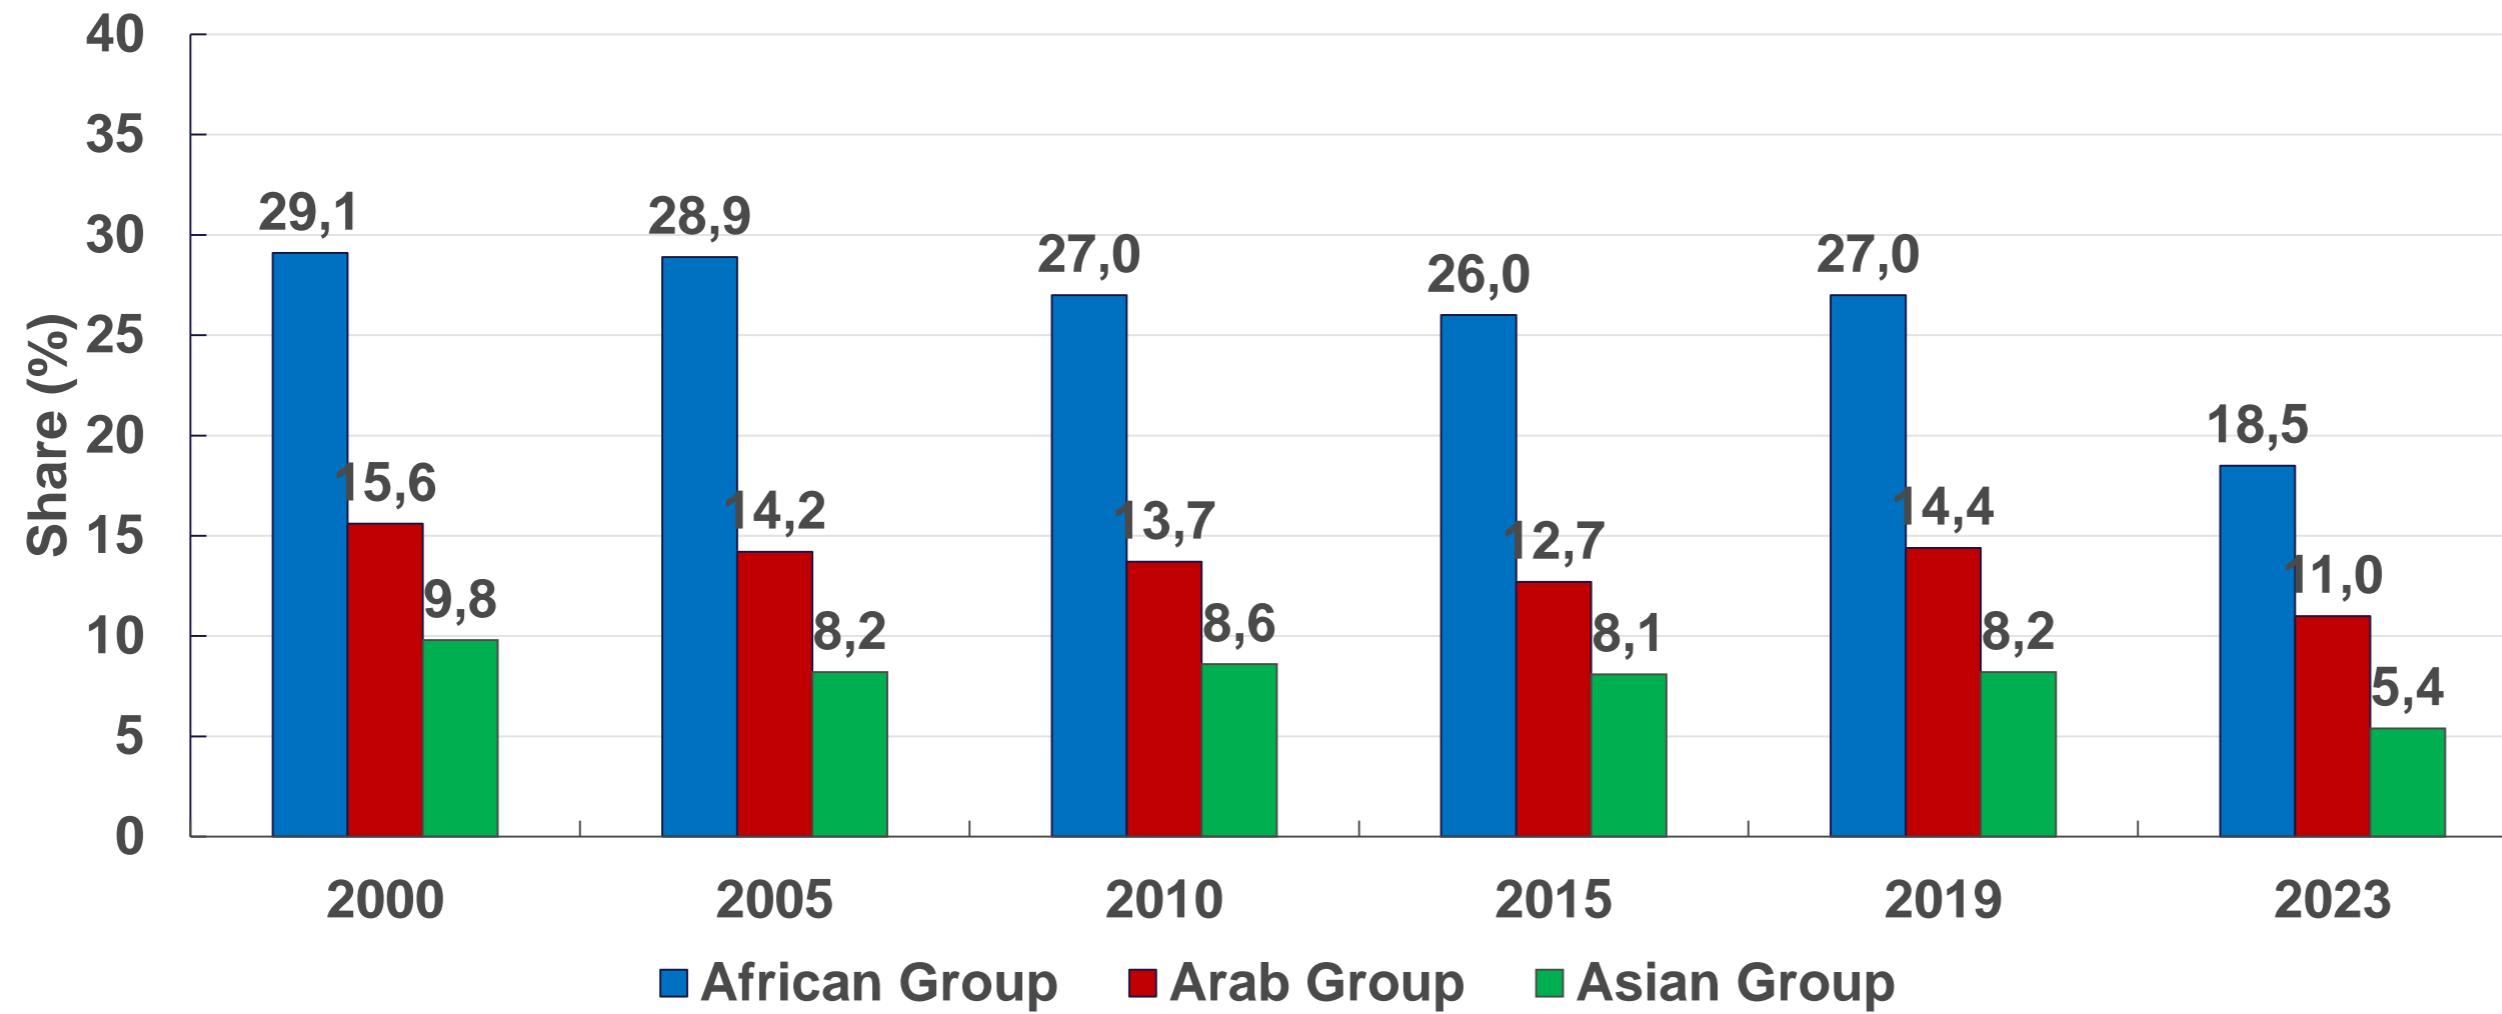

Source: estimated from <https://databank.worldbank.org/source/world-development-indicators>

1. Macro Agricultural Indicators

- Agricultural Value Added

Share of Agricultural GDP in Total GDP by Sub-Regions

Sources: Estimated by <https://databank.worldbank.org/source/world-development-indicators>

1. Macro Agricultural Indicators

➤ Agricultural Value Added

Agricultural GDP Rankings in the OIC

	2015		2023		Share (%)
	Agricultural GDP (Billion Dollar)	Share %	Agricultural GDP (Billion Dollar)	Share (%)	
1	Indonesia	116,2	17,29	Indonesia	171,8 32,00
2	Nigeria	100,4	16,25	Nigeria	82,2 15,31
3	Pakistan	64,4	10,43	Pakistan	79,1 14,74
4	Türkiye	59,4	9,62	Türkiye	68,5 12,76
5	Iran	40,4	6,54	Iran	52,3 9,74
6	Egypt	37,5	6,07	Bangladesh	48,1 8,96
7	Bangladesh	28,8	4,66	Egypt	42,0 7,82
8	Uzbekistan	25,2	4,08	Malaysia	26,5 4,94
9	Malaysia	25,0	4,05	Algeria	31,6 5,89
10	Sudan	20,8	3,37	Saudi Arabia	29,0 5,40
Top Ten Total		518,10	77,13%	Top Ten Total	536,8 76,00%
OIC Total		671,7	21,21%	OIC Total	832,9 19,00%
World		3166,9		World	4347,0

1. Macro Agricultural Indicators

➤ Growth Rates

Average Annual Agricultural Growth and Economic Growth (%)

Period	OIC		World	
	Agricultural Growth	Economic Growth	Agricultural Growth	Economic Growth
(1995-2004)	4.25	4,43	2.66	3.18
(2005-2014)	3.57	4.87	2.84	2.83
(1995-2019)	3.90	4.34	2.71	2.97
2023	3,00	4,20	2,10	2,90

Average Annual Agricultural Growth by OIC Sub-Regions (%)

Period	African Group		Arab Group		Asian Group	
	Agricultural Growth	Economic Growth	Agricultural Growth	Economic Growth	Agricultural Growth	Economic Growth
(1995-2004)	4.30	4.47	4.28	4.65	3.31	4.56
(2005-2014)	3.91	4.83	3.36	4.94	3.22	5.41
(1995-2019)	4.12	4.59	3.73	4.54	2.81	3.18
2023	3,20	4,00	3,00	4,60	2,80	4,00

1. Macro Agricultural Indicators

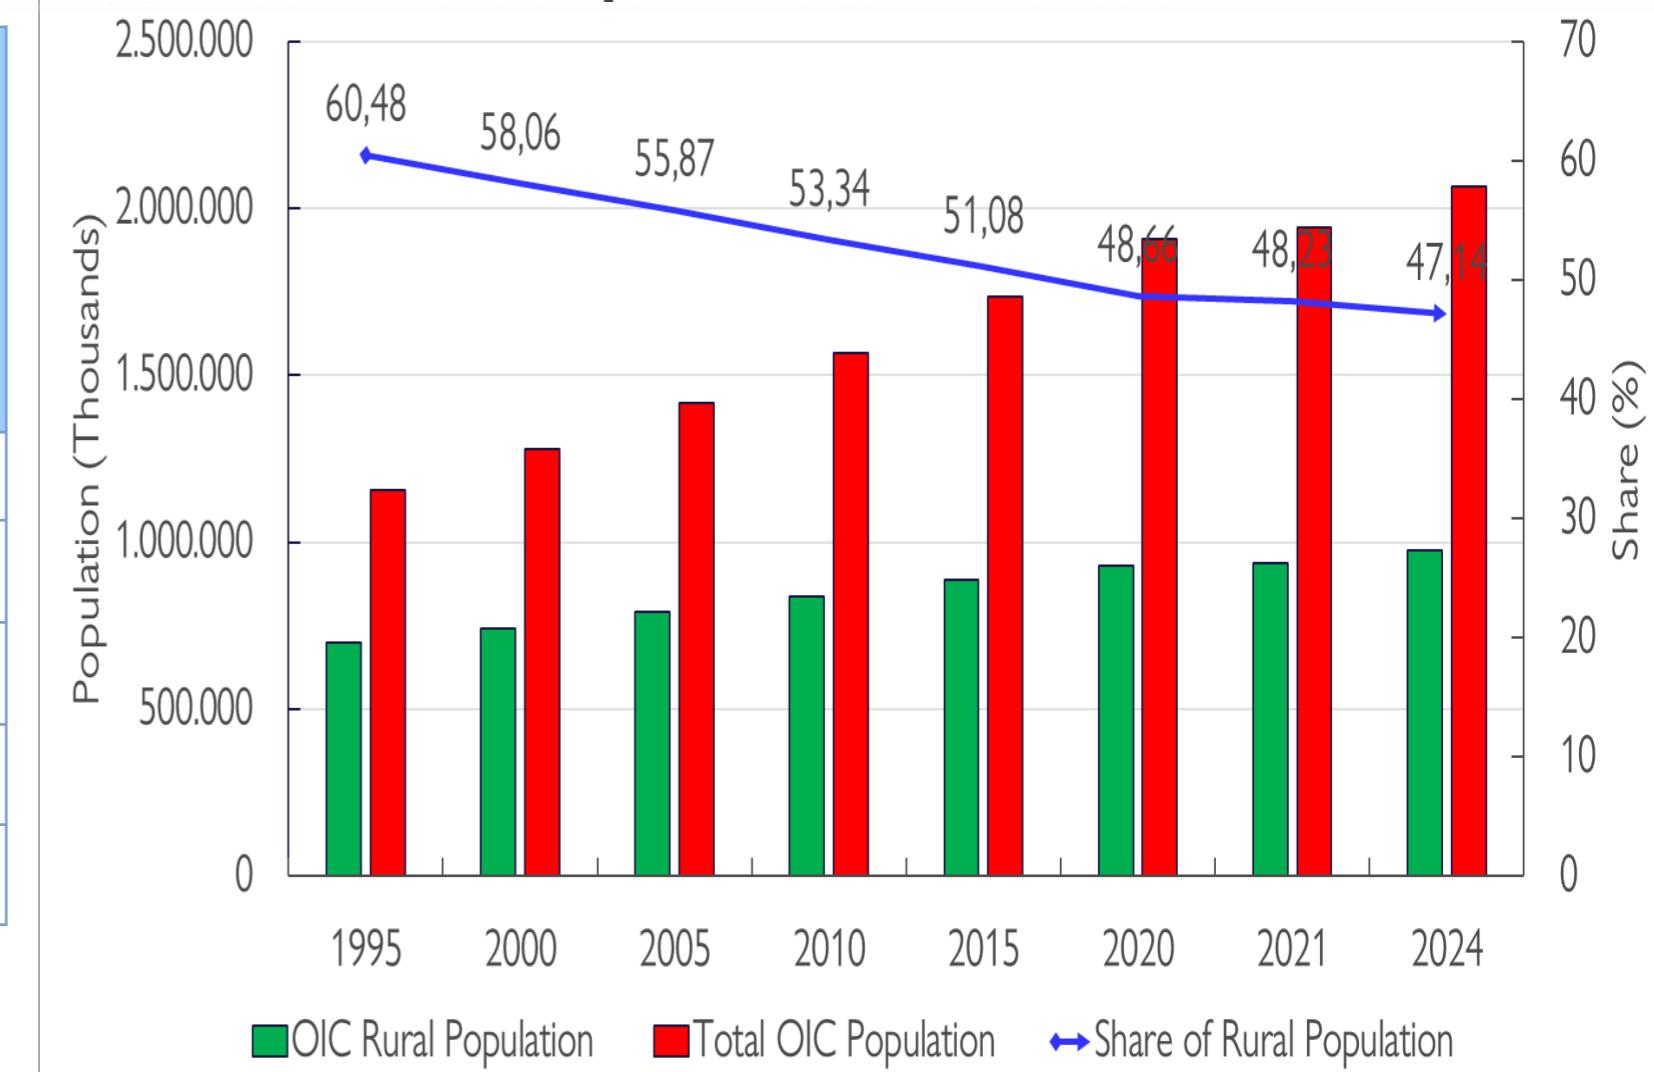

➤ Total and Rural Population/Growth rate

Some Main Indicator of Population OIC and World (2024)

	Total Population (Million)	Rural Population	The Rate of Rural Population (%)	The Rate of Male in Total Population (%)	The Rate of Female in Total Population (%)
African Group	540,5	289,6	53,59	50,00	50,00
Arap Group	476,6	191,1	40,09	51,49	43,96
Asian Group	1.049,9	493,6	47,01	50,34	49,66
OIC Total	2.066,9	974,3	47,14	50,61	49,39
World Total	8.097,9	3.420,5	42,24	50,10	49,90

Source: Estimated from <https://databank.worldbank.org/source/world-development-indicators>

Share of Rural Population in the OIC

Source: Estimated from <https://databank.worldbank.org/source/world-development-indicators>

1. Macro Agricultural Indicators

- Total and Rural Population by sub countries group

Population Growth Rate in the OIC and World (%)

Period	African Group	Arab Group	Asian Group	OIC	World
(1995-2005)	2.71	2.19	1.71	2.04	1.32
(2005-2016)	2.83	2.32	1.53	2.01	1.20
(1995-2018)	2.83	2.85	1.48	2.41	1.26
(2021-2024)	2,75	2,00	1,75	2,00	1,15

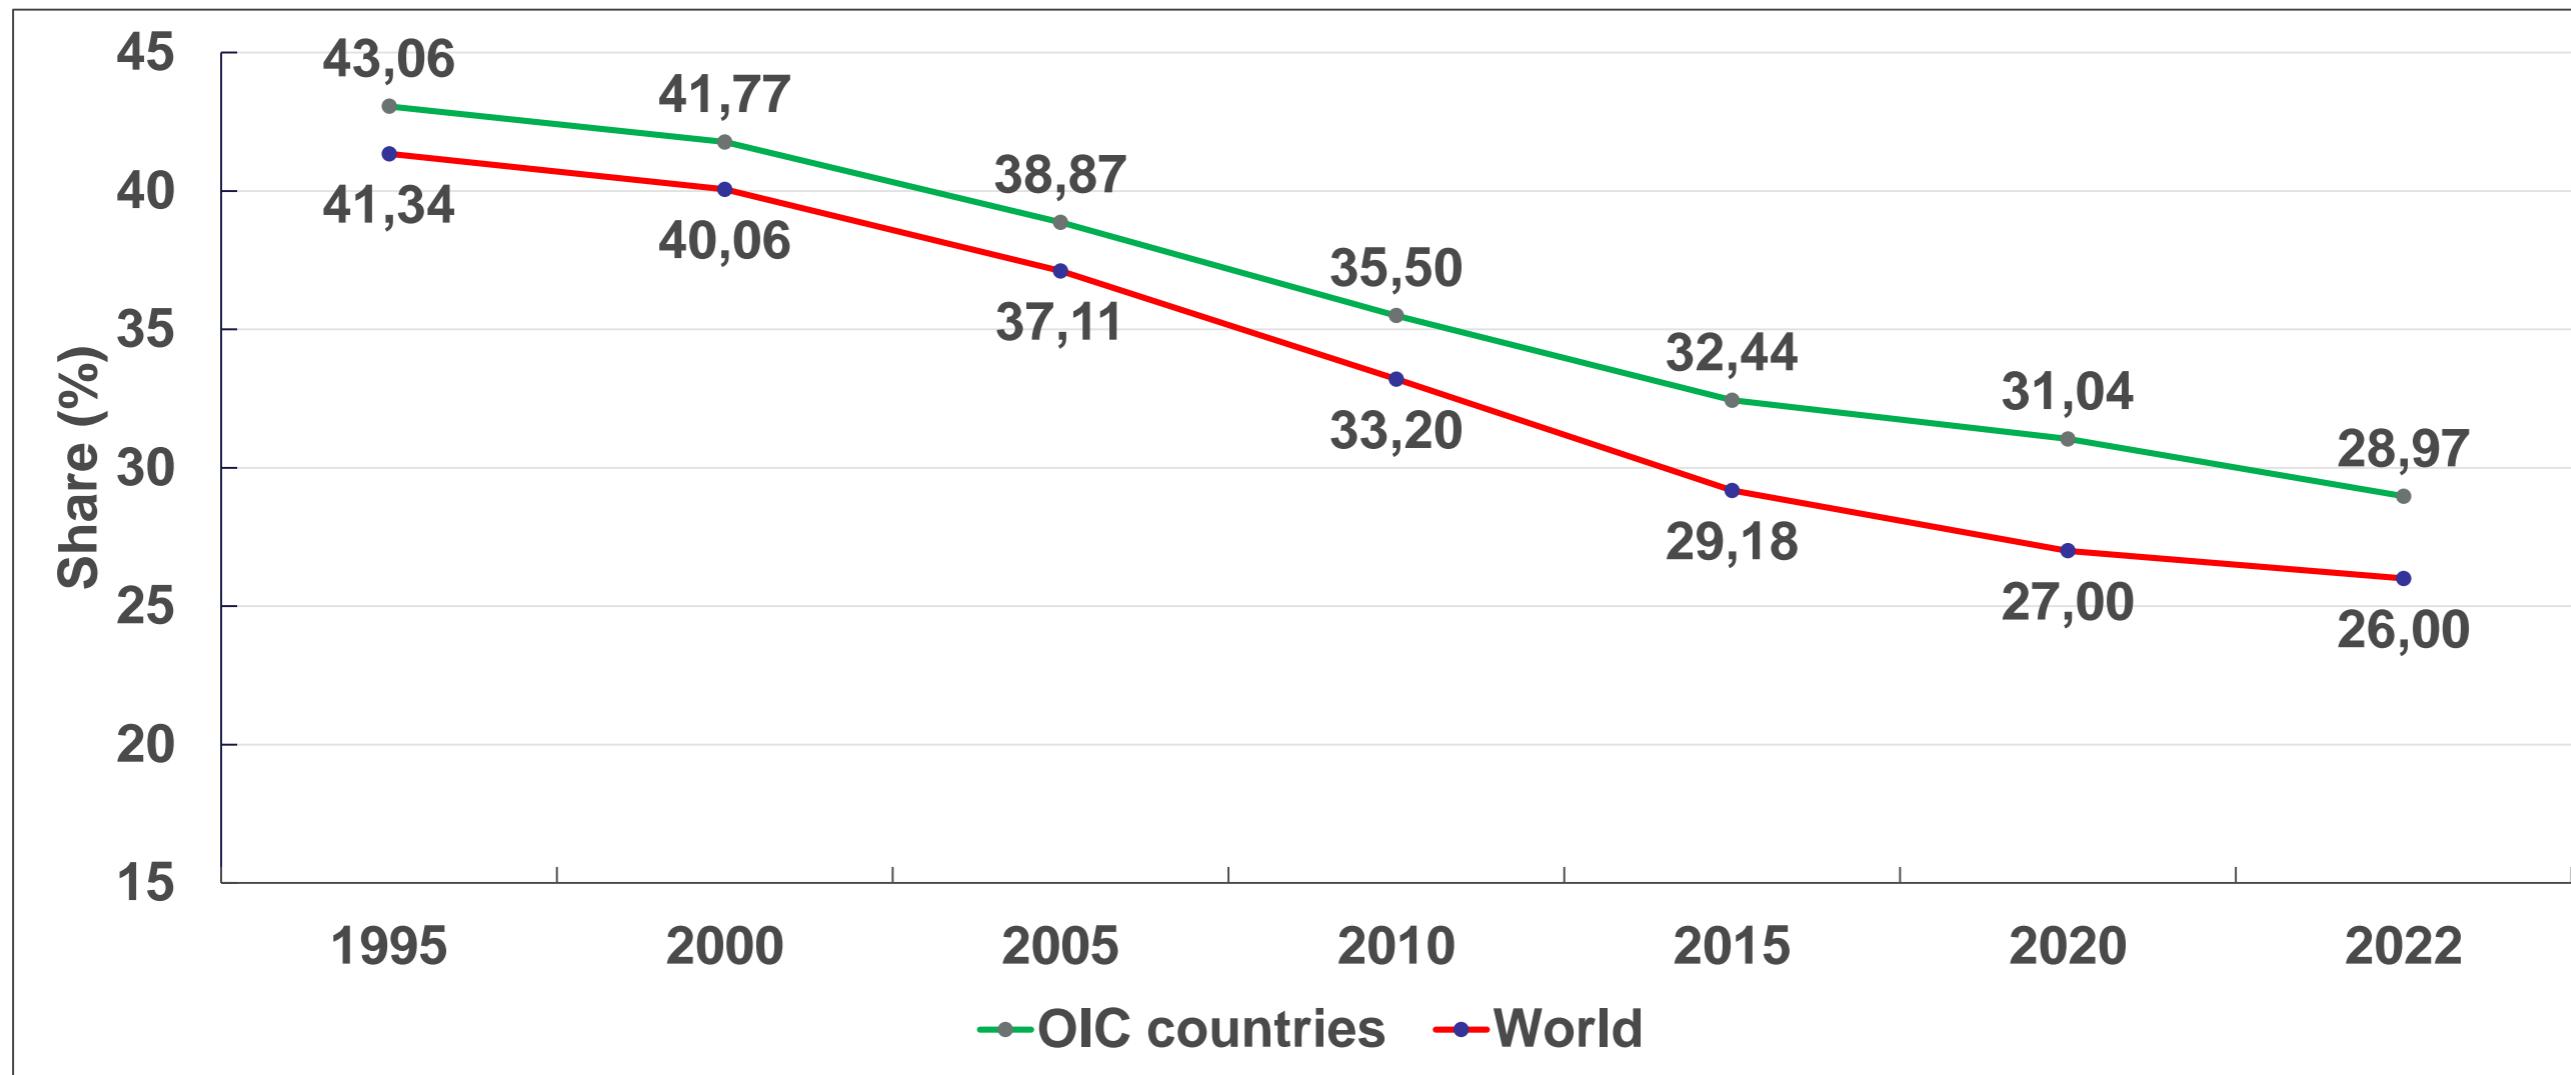

Source: Estimated from <https://www.sesric.org/publications-detail.php?id=580>

1. Macro Agricultural Indicators

➤ Agricultural Employment

Share of Agricultural Employment in the OIC and World

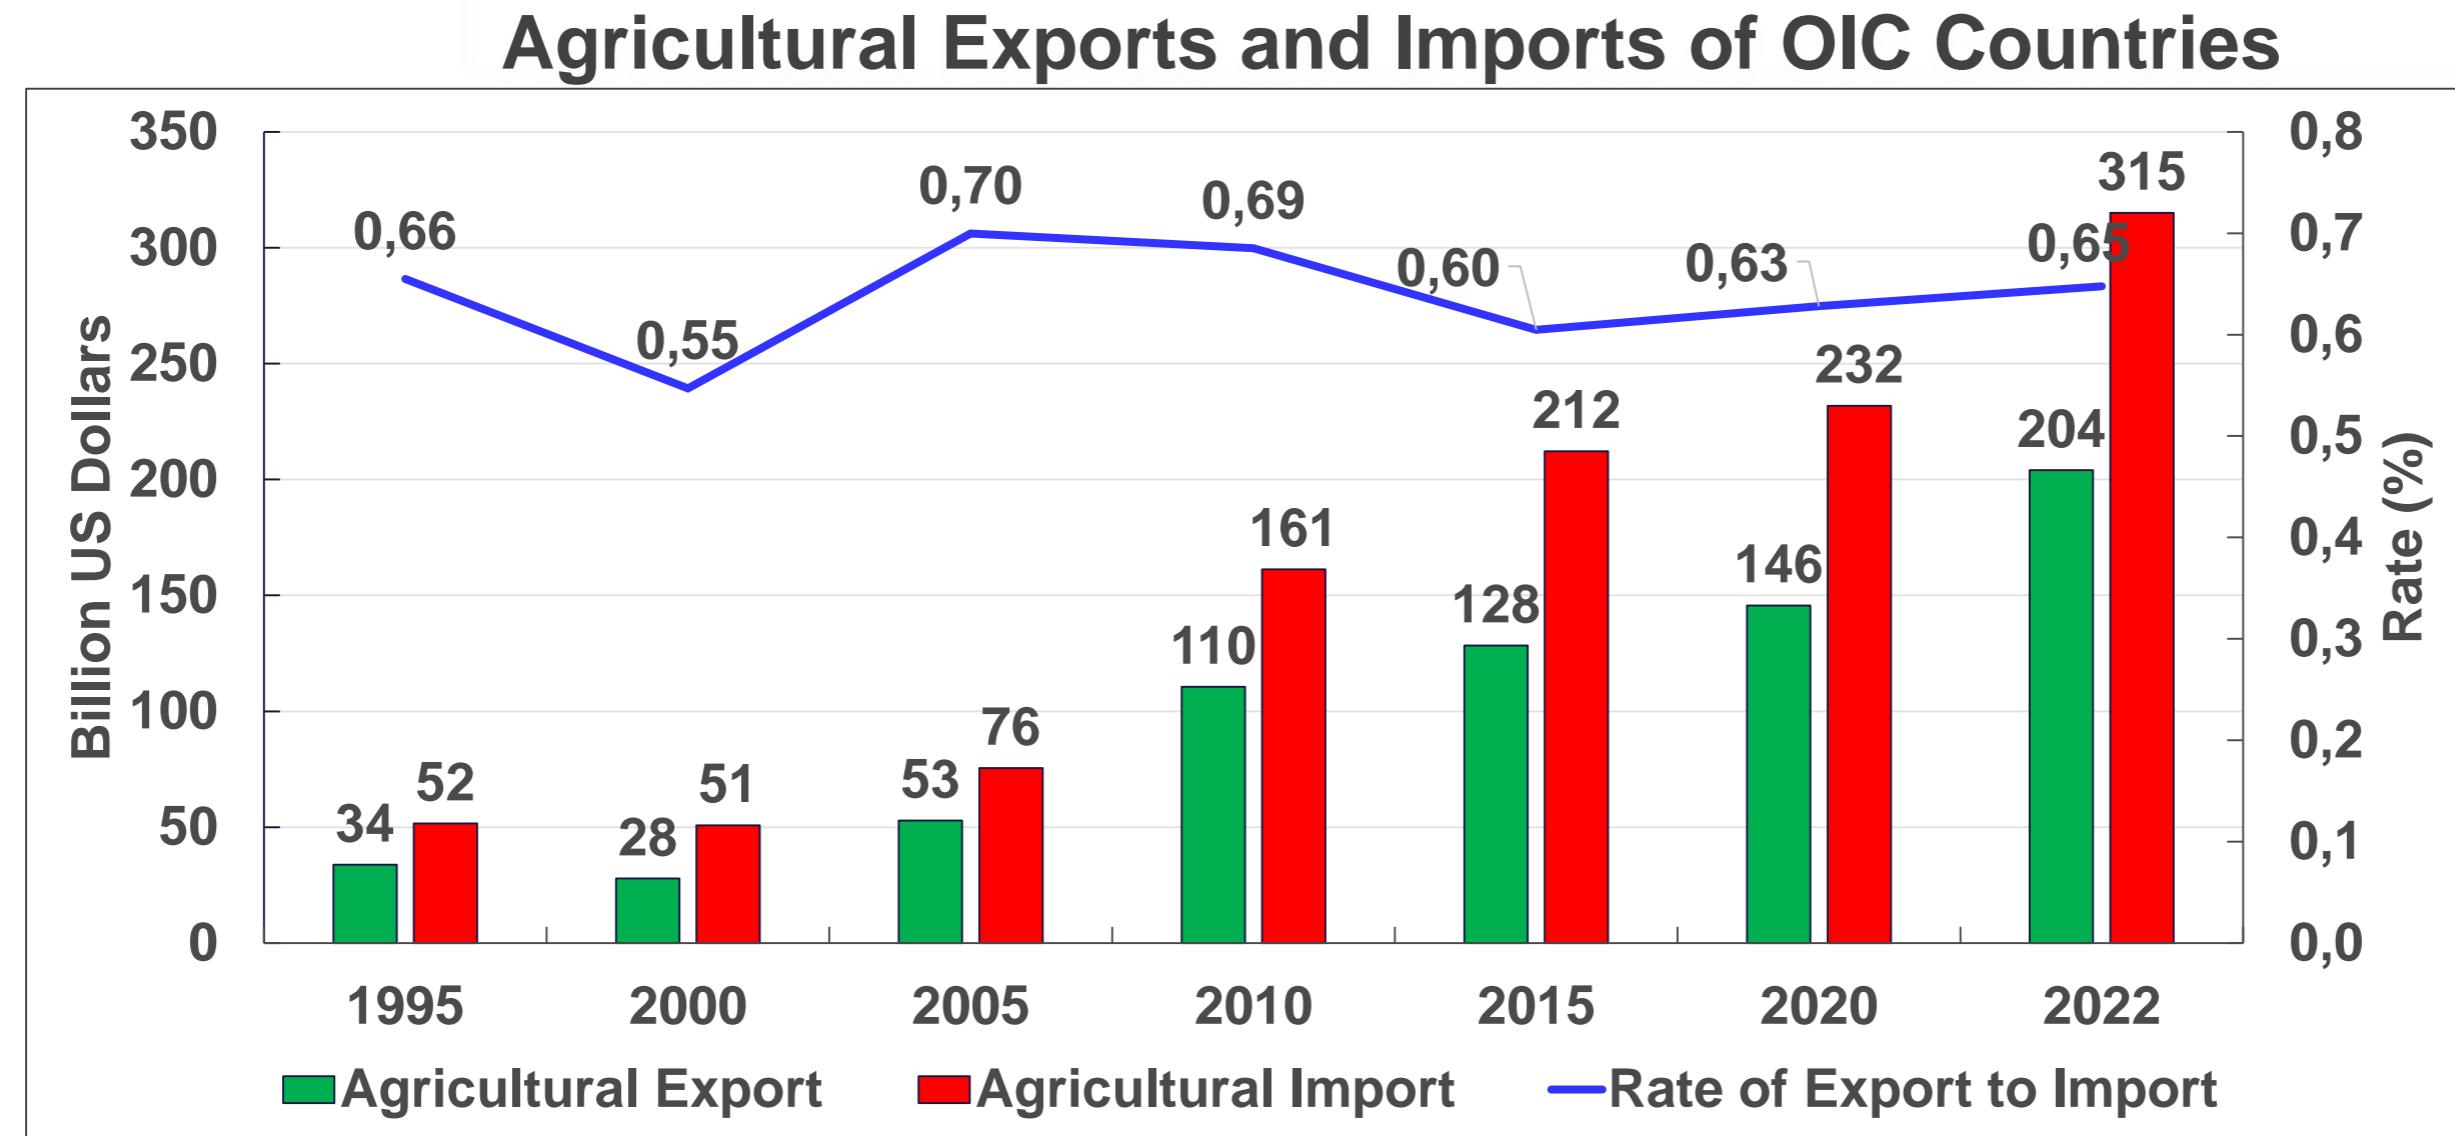

Source: estimated from <https://genderdata.worldbank.org/en/indicator/sl-empl-zs?gender=total>

3. The State of Food Security

➤ Utilization

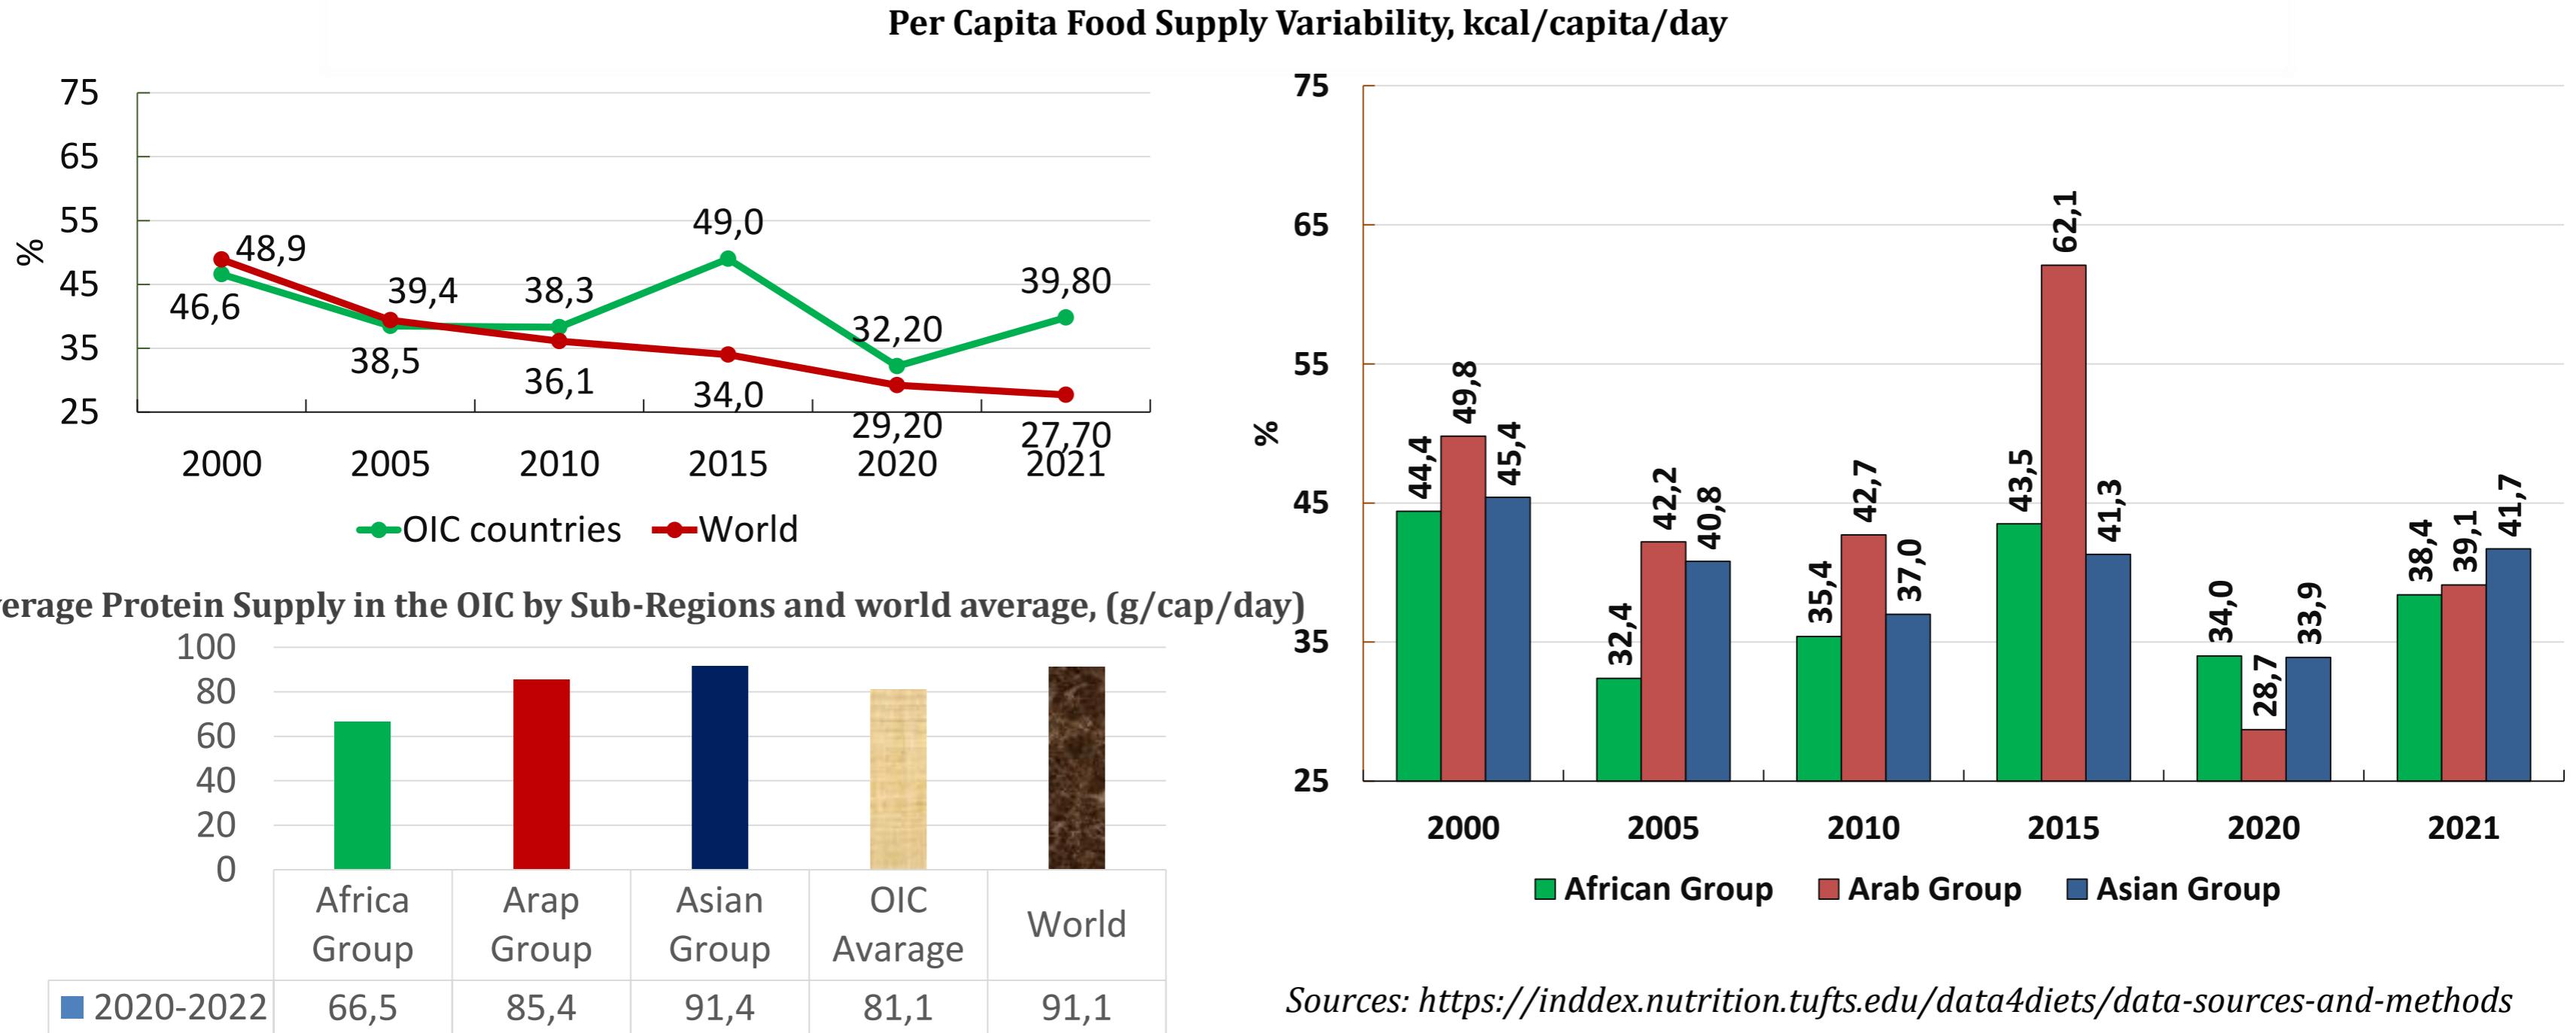

Access to Improved Water Sources in the OIC and the World

Sources: <https://www.fao.org/faostat/en/#data/FS>

3. The State of Food Security

➤ Stability

Sources: <https://inddex.nutrition.tufts.edu/data4diets/data-sources-and-methods>

Main Agricultural Problems

- . Poverty and high unemployment rates
- . Underdeveloped Infrastructure
- . Rapid urbanization
- . Food Security and Agricultural Challenges
- . Low Agricultural Productivity
- . Environmental Degradation
- . Climate Change and high risk rate
- . Ongoing Conflicts and Wars
- . Political Instability and Conflict
- . Corruption and weak political institutions

SOURCES:

Al-Sudairi, A. A., Al-Shayea, N. A., & Al-Hammad, A. A. (2016)... Nasr, V. (2009). FAO & IDB. (2017), Ayoob, M. (2014), Kamrava, M. (Ed.) (2013), Qader, M. M. (2015), Ibrahim, I., & Wahab, M. A. Recommendations to address agricultural problems

- Enhance Agricultural Infrastructure
- Promote Sustainable Agricultural Practices
- Increase Access to Agricultural Financing, market and inputs
- Adopt Modern Agricultural Technologies and digital agriculture solutions
- Reform Agricultural Extension Services: Boost Agricultural Research and Development , Improve Agricultural Education, Strengthen Policy and Institutional Frameworks
- Promote Agro-Processing and Value Addition
- Tackle Food Waste and Losses
- Develop Agricultural Trade and Export Capacity
- Implement Climate Change Adaptation Measures
- Invest in Rural Development and Poverty Alleviation
- Foster Regional and International Cooperation
- Foster Agroecology and Biodiversity Conservation

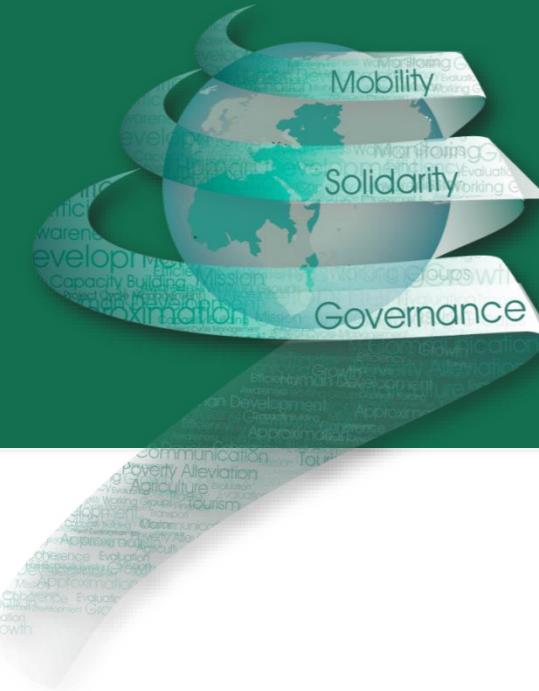

Conclusion

A global and local transformation of food and agriculture systems in this century is imperative for the future. Last period has offered lessons, innovations and opportunities that can help make food systems more resilient to future shocks and more inclusive, efficient, sustainable and healthy.

Identifying the most effective measures for sectoral transformation in agriculture can be achieved through research and analysis based on science-based research. Countries have gained important experience from past experiences.

Global cooperation and the dissemination of scientific innovations to the masses are seen as the basic conditions for global success. It is imperative for OIC countries to work together more closely for the rational solution of problems.

Making Cooperation Work

COMCEC STRATEGY

For Building an Interdependent Islamic World

For Building an Interdependent Islamic World
