## 1. INTRODUCTION

Fairs, exhibitions, and other actions in support of the private sector of the OIC countries constitute an essential tool for the promotion of trade and investments in the OIC space.

Recognizing the importance of this promotional tool, to which the OIC Member States refer in several official documents, notably, the General Agreement on Economic Cooperation, Technical and Commercial stipulates in Article 10 that:

"Member States will endeavor to organize fairs and exhibitions with the aim to exhibit and market their products and services on the markets of other states. Similarly, they will endeavor to participate in international fairs and exhibitions organized in the Member States to help make their products and increase the chances of development of trade between them".

In addition to General Trade Fairs, ICDT organizes specialized fairs on other sectors with high potential for trade between OIC countries (Health, agribusiness industry, furniture and decoration, tourism, construction and real estate, Halal products, cotton, and textiles, etc.).

ICDT has also initiated activities to facilitate contact between Businessmen seeking Business opportunities by organizing Forums and Businessmen missions (Saudi Arabia, Bangladesh, Indonesia, Cote d'Ivoire, ...).

ICDT carries out trade promotion actions in coordination with other OIC institutions, within the framework of the Trade and Investment Sub-Committee (TISC), within the framework of an integrated logic of synergy and complementarity. The main projects are:

- The Trade Fair of Islamic Countries
- Specialized fairs and buyers/sellers' workshops on products with high potential for trade
- Business forums and missions
- The establishment of the ICDT Business Centre
- Trade information
- Capacity building and support for TPOs

The implementation of trade and investment promotion projects carried out by ICDT is in line with the objectives of the OIC Ten-Year Action Plan 2016-2025, set by the 13th OIC Summit held in Istanbul in April 2016 with the aim of increasing intra-OIC trade in the overall trade of OIC member countries to 25% by 2025.
